Summary of the objects of the charity set out in its governing document

The relief of sickness and the preservation of health among people living in low and middle income countries, including but not by way of limitation through the exchange of knowledge and the provision of education and resources.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

Nurses Reaching Out (NRO) has a project in Northern Uganda called 25:35. This project provides food and drink for hospitalised patients who are without a family member to look after them. It is customary to have an attendant during a period of hospitalisation to provide meals to a patient. Patients who are in need of the meal provision from NRO are identified during hospital admission and a referral is made by nurses and/or hospital social workers to the cooks employed by the charity. The patients identified for this provision will receive meals and refreshments for the period of their hospitalisation. Locally these patients are described as destitute and as such receive the provision free of charge. Without the meal and refreshment provision provided those patients without family or an attendant are at risk of at hunger and dehydration.

Until August 2022 the charity had a second project which provided a baby kit to accompany the government maternity kit. The baby kits contain essential items to clean and keep a new born baby warm. The kits are delivered to medical centres with maternity facilities that have partnered with NRO. An educational package accompanied the kits to highlight the benefits of antenatal checks and to encourage pregnant women to attend these checks. The baby kit was received by mothers at the last antenatal check. Centres which have the kits have saw increasing numbers of women attending antenatal checks and deliveries increasing with good outcomes for mother and baby.

In planning and prioritising our activities for this financial year, the trustees have reviewed the guidance on public benefit issued by the Charity Commission at our trustee meetings and ensured that we are in full compliance.

Additional details of objectives and activities (Optional information)

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Summary of the main achievements of the charity during the year

Nurses Reaching Out saw it's monthly donations fall and attempts to gain grants were not successful. The financial income stabilised but the Trustee's needed to make a difficult decision as the regular income to the charity would not support the work of both projects. The decision was to close the baby kits project for the time being and continue with the 25:35 NRO's meal provision project. We are extremely grateful to those who have given financially to the charity over this past year. The charity aim is to reinstate the baby kit project when the financial provision improves.

Section E

Financial review

Brief statement of the charity's policy on reserves

No policy on reserves

Details of any funds materially in deficit

N/A

Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

The charity raised money during this financial year by means of charitable donations from individuals and from Kingdom Faith Church. The aftermath of the pandemic, the Ukraine war and the cost of living crisis has undoubtedly had a continued detrimental impact on our finances and we have had to cut back our assistance in line with available funding.
