Name	Dates acted if not for whole year

Names and addresses of advisers (Optional information)

Type of adviser	Name	Address

Name of chief executive or names of senior staff members (Optional information)

--

Section B Structure, governance and management

Description of the charity's trusts

Type of governing document	CIO Foundation Constitution dated 3 rd May 2018
How the charity is constituted	Charitable Incorporated Organisation
Trustee selection methods	Appointed by the charity trustees

Additional governance issues (Optional information)

You **may choose** to include additional information, where relevant, about:

- policies and procedures adopted for the induction and training of trustees;
- the charity's organisational structure and any wider network with which the charity works;
- relationship with any related parties;
- trustees' consideration of major risks and the system and procedures to manage them.

Relationship with Llangorse Caravan Park Limited:

During the period, the charity purchased services and goods (cleaning labour and consumables, recharged at cost) from Llangorse Caravan Park Limited (LCPL), a company run by one of the trustees. LCPL also attended to the maintenance of the charity's facilities (public toilets) during the period, for which no charge was made.

In entering into an agreement with LCPL the trustees have noted the requirements of Section 6 of the CIO's Constitution. It is the view of the other trustees that the relationship is in the best interests of the charity and provides good value for money. The relationship is regularly reviewed, and any discussions regarding the agreement is made in the absence of the connected trustee.

Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

The object of the CIO is the provision of public toilets adjacent to Llangorse Common, for the public benefit.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

The charity's main activity during the year was the operation of sustainable public toilet facilities at Llangorse Common, in the community of Llangorse, Powys.

The activities undertaken for the public benefit included:

- Operating the public conveniences and keeping them maintained.
- Fundraising and collecting public donations to support the charity's objectives and activities.
- Applying for revenue grants to support the charity's objectives and activities.
- Representing the charity in discussions and meetings with other local stakeholders regarding the current state and disrepair of the car parking facilities at Llangorse Common.

As reported in previous annual reports, the trustees have become increasingly concerned about the condition and safety of the car park adjacent to the charity's facilities. The trustees are concerned that the poor condition of the car park is discouraging visitors to Llangorse Common, which will in turn have a negative effect on the charity's income.

During the year the trustees participated in a number of meetings with other stakeholders and Powys County Council to try to find a solution to current condition and future maintenance of the car park along with the management of the wider common area. At the reporting date, some positive progress had been made towards the setting up of a constituted management group, and a feasibility study has been undertaken by Powys CC to look at the different management options and methods of income generation for future upkeep.

The trustees will continue to engage with efforts to find a long term and sustainable solution to the upkeep of the car park, and it is hoped that further positive progress on this matter can be reported in next year's annual return.

In undertaking our activities for the year the trustees have kept in mind the Charity Commission's guidance on public benefit.

The sustainable public toilet facilities on Llangorse Common benefit the health and social wellbeing of all residents and visitors to the community. It is recognised that in particular, certain groups such as the elderly, disabled, children and those suffering from bladder or bowel conditions will benefit the most from the continued provision of public toilet facilities in Llangorse for years to come.

Additional details of objectives and activities (Optional information)

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

During the period, the charity successfully raised £4,731.41 in donations from members of public using the public toilets and local business collection boxes.

The trustees would like to thank everyone for their contributions, with particular thanks once again to our Treasurer, Mr John J Price, who has continued his tireless commitment to the charity's fundraising efforts.

The trustees also extend special thanks to Llangorse Caravan Park Ltd for overseeing the cleaning of the charity's facilities and dealing with any maintenance issues during the year.

Section D

Achievements and performance

Summary of the main achievements of the charity during the year

The main achievements of the charity during the period were:

- Providing high quality public conveniences for the public benefit.
- Maintaining a healthy cash surplus for unexpected expenses and an expected increase in maintenance costs in future years.

Section E

Financial review

Brief statement of the charity's policy on reserves

The trustees have been working to build up the charity's reserves to cover any unforeseen maintenance costs of the charity's facilities and provide reserves in the event that the charity's income does not cover its running expenses. A formal Reserves Policy is in place and reviewed annually.

Details of any funds materially in deficit

See next section regarding a loss recorded against the charity's unrestricted funds.

Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

During the period, the charity received £4,731.41 in donations from members of public and a revenue grant of £500.00 from The Green Man Trust.

A small loss of £255.99 in the charity's unrestricted funds was recorded during the period (2023: £1,097.35 loss). The primary reason for this was an unexpected increase in utility costs.

Whilst the trustees are disappointed to report a loss for the period, work in prior years to build the charity's reserves have ensured the operations of the charity were not affected during the period.

The trustees continue to look at new ways to diversify the charity's sources of income and will continue to keep the charity's financial performance under review.

The charity's main facility was part-funded through grants awarded by the Welsh Government (delivered through the Brecon Beacons National Park Authority), The National Lottery, The Brecon Beacons National Park Sustainable Development Fund, and Powys County Council. Several grant awards include terms requiring specific project outcomes / outputs and make provision for the repayment of part or all of the grant if these outcomes are not met.
