Achievements and Performance

	SORP reference	
<p>Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.</p>	<p>Para 1.20</p>	<p>All praise and thanks are due to Allah for enabling us to continue our mission of serving the Ummah through technology. We remain deeply grateful for His guidance and for the generosity of our supporters, whose donations and commitment have made a tangible difference to millions of Muslims worldwide.</p> <p>In 2024, by the permission of Allah, our apps supported 7.9 million Muslims across the globe, each spending on average ten minutes per week engaging with resources designed to strengthen their understanding of Islam. This impact demonstrates the value of digital tools in nurturing spiritual growth and enabling Muslims to practise their faith with greater ease and confidence. Beyond individual benefit, our work contributes to wider society by fostering greater awareness, learning, and connectedness within Muslim communities.</p> <p>Highlights of 2024</p> <p>Sadiq App We successfully launched the all-in-one Sadiq app on both Android and iOS, providing essential tools including prayer and fasting times, Qur'an verses, Duas, Qibla direction, and Adhkar. This app brings together daily resources into a single, accessible platform, making it easier for Muslims worldwide to remain connected to their faith.</p> <p>Key App Updates</p> <p>Qur'an (Tafsir & By Word)</p> <ul style="list-style-type: none"> ● Expanded translations to new languages, including Chinese, French, Malayalam, and Persian. ● Added five new Tafsirs, widening access to Islamic scholarship.

- Enhanced user engagement with streak milestones, badges, and personalised statistics to encourage regular Qur'an reading.
- Released desktop features such as a new library module, with sync support and Linux compatibility.

Hadith App

- Introduced Urdu language support.
- Added Riyad Us Saliheen explanations and narrator details to enrich learning.
- Developed new tools for exploring Hadith by topic and number.
- Improved homepage and search features to make authentic knowledge more accessible.

Seerah App

- Introduced dark mode, improving accessibility and readability for users.

Looking Ahead: 2025 Goals

- **Qur'an App:** New audio translations, expanded word-by-word features, and launch of a dedicated website.
- **Hadith App:** Addition of Bangla translations, enhanced onboarding, and deeper Hadith explanations.
- **Sadiq App:** Expansion to 10+ languages, Mosque Finder, Islamic Calendar, and improved Qur'an audio.
- **Engagement:** Increased focus on growing active users, developing multimedia content, and improving volunteer collaboration.

- **Partnerships:** Plans to host at least five events and partner with five Muslim organisations to broaden reach and strengthen collective impact.

Conclusion

The past year has seen substantial growth in both reach and impact. Our digital services continue to provide Muslims worldwide with practical tools to strengthen their faith, improve religious literacy, and engage with Islam in meaningful ways. Beyond the individual, our work nurtures stronger communities, advances knowledge, and builds capacity for the future.

We remain committed to expanding this impact in 2025 and beyond, praying for Allah's guidance and thanking all our supporters for their continued trust and generosity. Together, we are building a legacy of service through technology for the benefit of the Ummah and society at large.

I report to the trustees on my examination of the accounts of the above charity ("the Trust") for the year ended **31/12/2024**.

**Responsibilities and
basis of report**

As the charity trustees of the Trust, you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ("the Act").

I report in respect of my examination of the Trust's accounts carried out under section 145 of the 2011 Act and in carrying out my examination, I have followed the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

**Independent
examiner's statement**

I have completed my examination. I confirm that no material matters have come to my attention (other than that disclosed below *) in connection with the examination which gives me cause to believe that in, any material respect:

- accounting records were not kept in accordance with section 130 of the Act or
- the accounts do not accord with the accounting records

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in order to enable a proper understanding of the accounts to be reached.

2024 Goals

1. Quran App

- Voice and transliteration search.
- Improved audio features like smoother streaming and downloading.

2. Hadith App

- Daily Hadith and seasonal lessons.
- Expansion into Bangla and Urdu.

3. Sadiq App

In Ramadan 2024, we plan to launch a new app that serves as a daily companion for prayer times, Quran verses, dua, Qibla direction, and more.

Engagement and Team Development

We plan to further enhance engagement with our users by building a stronger connection between the app users, supporters, and the GTAF ecosystem. Additionally, we aim to develop the skills and collaboration of our internal team to deliver higher-quality services and more efficient outcomes.

Conclusion

2023 has been a year of significant progress for Greentech Apps Foundation. Through your donations, we were able to reach millions of Muslims worldwide, helping them to better understand and connect with their faith through technology. We look forward to further expanding our reach and improving our services in 2024, and we pray that Allah grants us the strength to continue in this noble cause.

We are grateful for your continued support and ask for your prayers as we move forward. JazakAllahu khairan.

With your continued support, we have made significant strides in our mission to provide innovative Islamic technology solutions for the benefit of humanity. We are excited to share our progress and aspirations with you. We focused mainly on team building, foundation, and stability. From expanding our team to making our software better for our large worldwide user base, 2022 has been busy at Greentech Apps Foundation.</p> <p>Year 2022 Achievements:</p> <ol style="list-style-type: none"> 1. Being more organized <p>We wanted to be more organised to deliver our best to humanity. As part of the ongoing process, we sat together and set our vision, missions and values. We set up scorecards to keep us on target and take action when things go down.</p> <p>We have started providing training modules for our team members to enhance their skills and expertise. We want to create a culture of openness, proactivity and continuous improvement.</p> <ol style="list-style-type: none"> 2. Hearing more from the users and solving their problems <p>As part of our efforts to hear more from our users and solve their problems, we have implemented a user feedback platform at feedback.gtaf.org. This platform allows users to share their feedback, suggestions, and concerns directly with our team, enabling us to respond quickly and address any issues that may arise.</p> <p>We have received numerous feedback and requests since we initiated this</p>

platform. The most feedback received was for our Quran app (514), Hadith app (58) and finally, our Dua app (41).

In addition to our user feedback platform, we have also integrated [Chatwoot](#), a customer messaging platform that allows users to communicate with our team directly. This feature enables us to provide quick and personalized support to our users, and to address any issues or concerns that they may have in a timely manner.

In 2022, we had a total of 1481 conversations with our users via chatwoot. We have been able to resolve, 1292 of those conversations successfully.

In line with those feedbacks, we have developed a number of new features for our Quran, Hadith and Dua apps. These include a Surah search function that allows users to search for specific Surahs by name or number, translations in 14 new languages, auto night mode to name a few. We have also released a Windows version of our [Quran](#) application, which was highly requested by our users.

Finally, to further enhance the user experience, we have revamped the bookmark feature of our hadith app making it similar to the Quran app ensuring a consistent experience throughout our applications. These features enable users to organise and manage their bookmarks more effectively, and to sync their bookmarks across multiple devices using their profile.

3. User stats for more engagement

We have introduced user stats to our apps to increase user engagement. By providing users with detailed insights into their activity within our apps, we are creating a more personalized and engaging experience.

4. Solving New Problems

In order to solve new problems, we recognized the need to provide a comprehensive and accurate source of information on the life and teachings of Prophet Muhammad (Peace Be Upon Him). To address this need, we have developed a [Seerah](#) app that includes the renowned book “Ar Raheequl Makhtum” in both English and Bangla.

To enhance the learning experience for users of our [Quran](#) app, we have introduced word by word audio highlighting and playback support. This feature allows users to listen to the text being read out loud, with each word highlighted as it is spoken. This makes it easier for users to follow along and understand the text, especially for those who are not familiar with the Arabic language.

To solve new problems, we have conducted research and development on automating the extraction of people’s names from Hadith literature. This is a complex task that involves identifying and extracting the names of individuals mentioned in the text, which can then be used for further analysis and research.

5. Reaching millions of people

At the year-end, our apps were installed on nearly 2 million devices.

Our apps are available throughout the world. The top countries are:

- Bangladesh
- Indonesia
- India
- Malaysia
- Nigeria
- United Kingdom
- USA
- Saudi Arabia
- Singapore

Goals for 2023:

As we move into 2023, it's important to identify our yearly goals and objectives that will help us to better serve the ummah. Here are the goals that we believe are important to focus on:

1. Improving app stability and user retention

One of the primary goals for 2023 would be to improve the stability and retention of our apps. This can be achieved through a range of initiatives such as conducting regular bug fixes, creating test cases, and implementing continuous integration and continuous delivery (CI/CD) processes. However, it's also important to focus on improving the onboarding experience for our users to increase the retention of our app.

2. Language expansion

We believe that expanding our products to support more languages such as Quran, [Hadith](#), Seerah in more languages will help us to reach a wider audience and better serve humanity.

3. Robust sharing and community engagement

Integrating robust sharing mechanisms and community engagement features in our products can help us to foster a stronger sense of community and engagement among our users.

4. Expanding to web platform

Expanding our products to a web platform can help us to reach users who prefer to access our content on desktop devices. This can be achieved through creating web versions of our existing apps or developing new apps specifically for the web. Platforms like [SearchDeen](#) and Deen Quiz can be great for this, allowing users to access content and engage with our products from any device with internet access.

Overall, these goals will help us to improve the stability and retention of our apps, reach a wider audience through language expansion, foster a stronger sense of community engagement, and expand our reach to users on the web. By prioritising

		<p>these objectives, we can continue to serve humanity in 2023 and beyond.</p> <p>As we move forward, we remain committed to our mission of utilizing technology to serve the humanity and promote Islamic knowledge and values. We sincerely thank you for your continuous support and encouragement, which have been instrumental in our achievements thus far.</p> <p>We look forward to an exciting year ahead, filled with innovation, collaboration, and positive impact. Together, we can make a difference.</p>

To advance the education of the public in the subject of Islam, particularly but not exclusively, through the provision of online learning materials for the public and students.</p>
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	In light of the purposes of the charity as set out in its governing document, the main activities of the charity is to develop and disseminate educational Islamic resources to the public by developing software that are distributed via the web, desktop and mobile application platforms.
Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	Para 1.18	The trustees confirm that they have conducted the affairs of the charity with regard to the Charity Commission's guidance on public benefit.

Achievements and Performance

	SORP reference	
<p>Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.</p>	<p>Para 1.20</p>	<p>The charity's current primary activity involves developing educational Islamic mobile applications and disseminating them to the public, worldwide, for free.</p> <p>2021 has been a challenging year for many due to the pandemic and rising inflation. However, by the grace of The Almighty, we have made some exemplary achievements. We focused mainly on team building, foundation, and stability. From expanding our team to making our software better for our large worldwide user base, 2021 has been busy at Greentech Apps Foundation.</p> <p>Key milestones for 2021:</p> <p>With a solid team in place, 2021 has been the time for growth. We have implemented a number of long-requested features and solved some of the most critical issues for our users. At the same time, we have made huge strides in a number of areas, for example, we have a new improved website with a better support page, utilized our own backend infrastructure for the sync mechanism of user generated data such as bookmarks and notes, and made our apps available on more platforms.</p> <ul style="list-style-type: none"> ● Improved User Experience <p>We always put the user experience at the top of our priority list. We made significant improvements in several features of the Quran app for our valued user base.</p> <p>Likewise, we conducted specific research to identify the most important features to work on for 2021 and settled on the Library (bookmarks and notes) and the Planner features of the Quran app to be improved. We made the user flows smoother, less complicated and improved the overall design of these features. While improving these features, we considered requests from both our newer and long-term users.</p>

For our Deen Quiz app, we have listened to our users and brought the long-requested offline feature and English language mode to the app.

- Improved website

In order to ensure a high quality user experience across all our applications, we strive to listen to the user feedback.

With that in mind, we revamped our existing website. The Help & Support section and the Contact sections were updated to make sure users can seek any help they need and can provide us feedback through an easy, streamlined process.

We also improved the design of the website, search experience and overall performance. At the same time, we upgraded the Donation section for users to find relevant information faster before making their donation.

- New announcement section

Our apps now have a dedicated announcement section so that users can receive all the latest news, updates and notifications inside the app.

- User Profile and Library Sync

We have built a user profile system into our Quran application. The users will be able to sign up, and sync their bookmarks and notes and do not have to worry about losing them.

Users can also sync their data across multiple devices.

We have made several changes to our backend server infrastructure to allow for upcoming community-engaging features.

- Reaching More Platforms

To facilitate our goal of making our apps available in more platforms, we have launched our Quran app on macOS. Users can now run the Quran app on Apple Mac devices.

Also, we have released our Hadith collection app for iOS and macOS users with full functionality, previously it had limited features.

- Other Notable Mentions

We have added a number of new translations of the Quran (of different languages) and new reciters. This will make understanding of the Quran accessible to users from a variety of languages.

We also have added the “Compare Isnad (chains of narration)” feature in the Hadith Collection app. This is an advanced feature that will help students of Hadith to easily compare the chains of narration of the various Hadith.

Goals for 2022:

- Being more organised

We will strive to keep on improving our organisational structure and processes. The focus will be on having a visual scorecard for our KPIs. This will enable us to keep a bird's eye view of the key metrics.

We will plan training modules for staff, individual career ladders, and hackathons to increase engagement.

- Hearing more from the users and solving their problems

We can only solve the problems that we are aware of, and users are best suited to identify issues in our products. the best people to find the problems of the products are the users of them. We are planning to further improve the user feedback process by incorporating a dedicated Customer Relationship Management tool. This will make it easier for users to share their problems and ideas.

I report to the trustees on my examination of the accounts of the above charity ("the Trust") for the year ended **31/12/2021**.

**Responsibilities and
basis of report**

As the charity trustees of the Trust, you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ("the Act").

I report in respect of my examination of the Trust's accounts carried out under section 145 of the 2011 Act and in carrying out my examination, I have followed the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

**Independent
examiner's statement**

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination which gives me cause to believe that in, any material respect:

- accounting records were not kept in accordance with section 130 of the Act or
- the accounts do not accord with the accounting records

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in order to enable a proper understanding of the accounts to be reached.

Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	<p>1. To advance the religion of Islam and the promotion of the teachings and tenets of Islam, particularly but not exclusively, by the provision of educational resources, software, materials and publications.</p> <p>2. To advance the education of the public in the subject of Islam, particularly but not exclusively, through the provision of online learning materials for the public and students.</p>
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	In light of the purposes of the charity as set out in its governing document, the main activities of the charity is to develop and disseminate educational Islamic resources to the public by developing software that are distributed via the web, desktop and mobile application platforms.
Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	Para 1.18	The trustees confirm that they have conducted the affairs of the charity with regard to the Charity Commission's guidance on public benefit.

Achievements and Performance

	SORP reference	
<p>Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.</p>	<p>Para 1.20</p>	<p>The charity's current primary activity involves developing educational Islamic mobile applications and disseminating them to the public, worldwide, for free.</p> <p>2020 has been a challenging year for many due to the pandemic. However, by the grace of The Almighty, we have made some exemplary achievements. We focused mainly on team building, foundation, and stability. From expanding our team to making our software better for our large worldwide user base, 2020 has been busy at Greentech Apps Foundation.</p> <p>Key milestones for 2020:</p> <p>1. Team building and process formation Since the beginning of our journey since 2015, we have been working on building the products and providing the users with the best set of features and best possible experience. Now that we have a large user base to support, we decided to scale the team up with a vision to achieve a bigger goal, "Meeting Ummah's Digital Needs".</p> <p>Before April 2020, we had only one full-time and one part-time developer along with the core members and volunteers. To keep up with the maintenance of the applications and achieve our organization's global vision, we decided to scale up.</p> <p>We have recruited 5 full-time and 3 part-time technical personnel to support our existing projects.</p> <p>We have also introduced Agile project management methodology to better manage our team and multiple software projects. Furthermore, we are using social media platforms to reach more people worldwide. We have also introduced a ticketing system for better user support.</p> <p>2. Support more platforms Previously, we have been mostly focusing on the Android platform for our mobile applications, having 10 applications in the Google Play Store but only 2 for the Apple App Store. Due to popular demand, we have decided to increase our offering for the Apple App Store.</p>

		<p>In 2020, we released 2 more applications in the Apple App Store for iOS users and 1 application for macOS users.</p> <p>For the Apple App Store, most of our users are based in Malaysia, followed by the United States and the United Kingdom.</p> <p>3. Improving user experience We have focused on seamless user experience and have been able to reduce the crash rates significantly. We also solved numerous user experience issues, further improving the quality of our applications. We have also focused on the design of our applications, by introducing modern user interface designs.</p> <p>4. Growing more and more In line with popular user requests, we have released a new application that aids memorization of the Quran for the android platform. There has been an unmet user demand in this area, and we are really pleased to offer this high quality application for free, for the worldwide user base.</p> <p>By the end of 2020, our applications were installed on more than 1 million devices, spreading across 150 countries.</p> <p>The top 10 countries in terms of user base are: Bangladesh, Indonesia, India, Malaysia, Nigeria, United Kingdom, USA, Saudi Arabia, and Singapore.</p> <p>We are committed to support more languages, to reach more users and to make Islamic educational software accessible to the masses. In the coming years, we will be focusing on making our applications suitable for neurodiverse users and for people with disabilities.</p>
