Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	Our purpose is to relieve the needs of children suffering from childhood cancers and histiocytosis and support these children through the provision of gifts and activities to enhance their physical, emotional and psychological health, ease suffering and provide comfort. We also raise awareness about childhood cancer, in particular histiocytosis, and provide support and information to families.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	We have not had any activity this year but have in the background worked on a soft toy gifting initiative for children on the cancer ward. We collaborated with Leicester Royal Infirmary Ward 27 to trial our soft toy with great feedback from the Play Team regarding how the soft toy can be used to promote mental, physical and emotional well being. We plan to promote and donate further soft toys nationwide in 2024. We also continued to post out our Super Gift boxes as requested by families with children who have cancer. This has proven to be most successful in providing comfort during treatment. We have continued to raise awareness by sharing our personal story about histiocytosis and created leaflets and charity fundraising packs which will be used to distribute to fundraisers and businesses to gain further support and awareness.
Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	Para 1.18	All the trustees have reviewed the guidance, and this has been considered when planning the charity's work for the year ahead.

Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	<p>Our soft toy initiative for relieving anxiety has received much praise and positive feedback with nationwide hospital teams requesting the charity toy to be used on their wards and in the community. We have reached further childrens hospitals and expanded our donations on children's wards through the whole of the UK - this is something we are extremely proud of and will be sending out the donations soon.</p> <p>Our continued links with the play specialists at Leicester Royal Infirmary has allowed us to trial our new toy and receive direct feedback with how beneficial the anti anxiety elements are and how the toy has been used in therapy. The play team expressed such great feedback and want to use it throughout the children's hospital.</p> <p>The interest in our soft toy has been widespread and the demand has exceeding what we expected meaning that this may be an avenue to pursue further as we have been made aware of the lack of funding for soft toys in hospital despite the hospital staff telling us how positive an impact they make on the ward.</p>

Additional information (optional)

You may choose to include further statements where relevant about:

Achievements against objectives set	Para 1.41	We have had to delay donation of our soft toy due to time constraints and trustees not being able to package and deliver the gifts in 2023. But we plan to complete this project by the end of 2024.
Performance of fundraising activities against objectives set	Para 1.41	
Investment performance against objectives	Para 1.41	
Other		An inactive year in terms of fundraising but gifting projects have been in the pipeline.

Summary of the purposes of the charity as set out in its governing document	Para 1.17	Our purpose is to relieve the needs of children suffering from childhood cancers and histiocytosis and support these children through the provision of gifts and activities to enhance their physical, emotional and psychological health, ease suffering and provide comfort. We also raise awareness about childhood cancer, in particular histiocytosis, and provide support and information to families.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	We have had limited fundraising opportunities this year post Covid and have relied on online giving via Paypal and through fundraising via Amazon and Facebook. We have however continued with research and preparation of our next gifting projects. Our Super Gift boxes have continued to be delivered to children throughout the UK in new bespoke gift boxes. This has brought a lot of comfort and positivity to families with children affected by cancer. We have also promoted our soft toy project and created all the merchandise and design elements for our 'anti anxiety' gifting scheme. With feedback from the cancer ward at Leicester Royal Infirmary and their play team we have agreed on how and when to implement this scheme to offer maximum support to the children. The feedback has been fantastic with other areas of the children's hospital wanting to get involved. This is something we will think about in future and whether we aim our gifts to children's hospitals in general. We have continued to raise awareness by sharing our personal story about histiocytosis.

We also raise awareness about childhood cancer, in particular histiocytosis, and provide support and information to families.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	We have continued to raise awareness about the charity and our story through the creation of charity pins and sharing our story with other families affected by cancer and histiocytosis. We also started our new soft toy gifting project to aid emotional anxiety of children in hospital and are working on launching these to several UK hospitals. So far a trial at Leicester Royal Infirmary on the cancer ward is providing us positive feedback from families who receive the soft toy and how it helps their child during treatment. Our Super Gift project was popular this year and so we have been able to donate these throughout the UK on

		<p>request via our website which was updated to facilitate gift requests.</p> <p>We also continued to promote awareness and information regarding histiocytosis and cancer via social media to reach a wider audience and also gain more interest in our charity work and further donations via Facebook and Instagram.</p>
Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	Para 1.18	All the trustees have reviewed the guidance, and this has been considered when planning the charity's work for the year ahead.

<p>Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.</p>	<p>Para 1.20</p>	<p>We have been able to reach many families throughout the UK via our unique gifting schemes for children with cancer and histiocytosis and we are very pleased with the feedback received from these families regarding how much it helped their child.</p> <p>Our Super Gift has proven to be very successful in aiding the mental and emotional side for children undergoing treatment, allowing them to feel brave and special for their strength and courage. Parents have also commented on how wonderful it was to receive the gift in the post and what a positive message it sent.</p> <p>Our continued links with the play specialists at Leicester Royal Infirmary has widened our reach also to help children on the ward and also implement our new soft toy to aid anxiety during treatment and hospital visits. Feedback has been very encouraging as to how the soft toy can be used by play specialist during invasive procedures and prolonged time spent in hospital. This is something very valuable and an area in which we feel we can bring some great initiatives. We hope to launch this project next year.</p> <p>We have donated hundreds of toys to the childrens cancer ward and liase regularly with the play specialists to see how we can help. These toys have all been essential in ensuring the children stay positive and emotionally well, and have been a great resource in the hospital play rooms. We are looking to link with further childrens charities including helping the play team at Addenbrookes hospital.</p>

Achievements against objectives set	Para 1.41	The launch of our soft toy has been set for 2023 once production of the prototype has been completed.
Performance of fundraising activities against objectives set	Para 1.41	Unfortunately fundraising has been limited this year due to lack of uptake on marathon places, with people still not keen on large scale events after the pandemic. We have relied on donations via social media and online platforms.

Financial Review

Review of the charity's financial position at the end of the period	Para 1.21	We spent more than we fundraised this year so there is a deficit this year financially. Mainly due to the need for buying charity places in marathons which were not taken up, as well as creation of gifting projects and stock for this. Unfortunately few people made donations despite promoting our work and even fewer wanted to take part in events or marathons following the pandemic.
Statement explaining the policy for holding reserves stating why they are held	Para 1.22	We have a reserves policy in place to cover day to day running costs, admin and website as well as enough to be able to provide our gifts and toy donations to the cancer ward as needed annually.
Amount of reserves held	Para 1.22	£1000
Reasons for holding zero reserves	Para 1.22	
Details of fund materially in deficit	Para 1.24	-
Explanation of any uncertainties about the charity continuing as a going concern	Para 1.23	The trustees feel that the lack of people wanting to fundraise or hold events has limited our goals. We will review this again next year and depending on the charity funds on account we will assess whether or not to continue the charity work.

A description of the principal risks facing the charity	Para 1.46	We have been limited this year following the Covid pandemic meaning fewer events and fewer people fundraising or donating. This is an ongoing issue with regards to face to face events and has also limited our impact directly on the hospital wards due to non-contact and being unable to provide our gifts or services to the children due to the infection risk posed. We have planned projects which require no face to face contact and gifts which can be requested online or via QR codes in the hospital which we hope will help.

Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	Our purpose is to relieve the needs of children suffering from childhood cancers and histiocytosis and support parents/carers of these children through the provision of gifts and activities to enhance their physical, emotional and psychological health, ease suffering and provide comfort. We also raise awareness about childhood cancer, in particular histiocytosis, and provide support and information to families.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	We have continued to focus on helping the local children's cancer ward at Leicester Royal Infirmary assisting play specialists by arranging toy donations for the hospital play rooms. We have also been in discussions about the creation of a therapeutic toy idea for children on the ward to aid emotional wellbeing and relieve pain and anxiety. Our bespoke gift donations have been delivered to children with cancer and histiocytosis once a nomination is received by their parent or carer. This has proven to be most successful in providing comfort during treatment. We have continued to raise awareness by sharing our personal story about

		<p>histiocytosis and created leaflets and charity fundraising packs which will be used to distribute to fundraisers and businesses to gain further support and awareness.</p> <p>We also have continued to work on our social media presence and had success via facebook donations online.</p> <p>Our gift boxes to help the parents staying on the ward with their child, containing items of comfort and essentials was trialed at the LRI also and we await feedback for these in order to move forward in providing further gift boxes in future.</p>
Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	Para 1.18	All the trustees have reviewed the guidance, and this has been considered when planning the charity's work for the year ahead.
