NEURAM-UK ACTIVITIES IN 2024

The objects of NEURAM-UK are the relief of sickness and the promotion of good health for the benefit of the public, but not exclusively by the provision of such grants and donations for the following:

- advancing the development and improving the quality of neurological rehabilitation
- stimulating collaboration between clinicians and others with an interest in neurological rehabilitation
- facilitating the exchange of knowledge and scientific research between clinicians and others with an interest in neurological rehabilitation.
- Wheelchairs and cushions.

In 2024 we focused on three areas:

1. Pay for expenses for training in the field of neuro-urology in May and September 2024
2. Provide funding for collecting, transporting and distributing wheelchairs in Mauritius (July – August 2024).
3. Provide funding for collecting, transporting and distributing cushions in Mauritius (July – August 2024).

A handwritten signature in black ink, appearing to be 'A. Soopramanien', written over a horizontal line.

Professor Anba Soopramanien, Chair Neuram-UK

On behalf of the Trustees: Mrs Kamachee Soopramanien, Mrs Shiva Jamwal and Miss Sunanda Padaruth

Annual Report and Accounts

31.10.2023

In 2022, we limited our activities to remote assessment of people with neurological disabilities who needed our input.

We have been liaising with various stakeholders in Mauritius to promote neuro-rehabilitation teaching and research (e.g. effects of COVID 19 on neurological disability in Mauritius).

Neuram UK has continued to establish links with universities across the globe (Bournemouth University, University of Mauritius, University of British Columbia, Canada) and other NGOs. It has led to Neuram-Uk being involved in the supervision of a PhD in Neurorehabilitation for a student from Rwanda, who was awarded a scholarship by University of Mauritius.

We presented our research work in Vienna in December 2022, at the World Federation of NeuroRehabilitation (WFNR) conference.

Accounts

Annual Report and Accounts

31.10.2022

In 2021, we did not have any in-person activity in Mauritius but organised teaching on neurological rehabilitation remotely using the facilities made available to us by CANOSC.org.

We have also been carrying out remote assessment of patients affected by neurological disability.

We have been involved in research on the effects of Covid19 on people with neurological disabilities in Mauritius.

Neuram UK has established links with universities across the globe (Bournemouth University, University of Mauritius, University of British Columbia, Canada) and other NGOs like CANOSC.

We are now resuming our face-to-face interactions with patients and clinicians in Mauritius.

No 11778464 (Charity Commission)

Offering excellence in Neuro-Rehabilitation Care for Spinal Cord Injury, Acquired Brain Injury and Stroke

Minutes of the Trustee Meeting.

Date: 14.06.2020 from 3 p.m. to 4 p.m.

Present: Shiva Jamwal, Sunanda Padaruth, Anba Soopramanien (Chair), Kamachee Soopramanien (treasurer)

Agenda:

1. **Situation to date:** we discussed about the meetings of 14.12.19 and 15.01.20.
2. **Finances:** As at 14.06.2020, Neuram UK has a positive balance of £2704. Premavani Medical Ltd made a donation of £1000 end of May to Neuram UK. Veda donates by Direct Debit £100 each month.
3. **Payment for Neuram website:** we agreed that the fees of £1200 would be paid to Mr Andy Pohler (for work he did on the redesign of the Neuram Foundation website).
4. **Fundraising:** we would like to encourage members to fundraise as much as they can (e.g the Ayacouty family organised a dinner in January 2020). Anba suggested subscribing to <http://trustfunding.org.uk/>. This is source of Funding Trusts that specialise in funding charities, like ours. The cost of accessing their online database is £432 for one year for one user licence.
5. **NEURAM UK meeting:** we decided to organise a Neuram UK meeting on Saturday 20.06.2020 at 2 pm to discuss about the fundraising ideas, bring awareness on the issues regarding Neuram and define projects that could be funded.
6. **Projects to be funded:** in the wake of Covid 19, we could offer online support for people needing rehabilitation in Mauritius. Therefore, the project will be about telerehabilitation. This is one way of starting the mobile unit. The fund we will request would essentially be used towards training of the trainers and salaries for employing 3 physios, 3 OTs, 3 nurses and doctors locally. They would constitute a pool of clinicians working in the field of neurorehabilitation to provide support to patients. We will submit a draft business plan at the meeting on 20.06.20.
