

## Annual Report and Accounts

31.10.2022

In 2021, we did not have any in-person activity in Mauritius but organised teaching on neurological rehabilitation remotely using the facilities made available to us by CANOSC.org.

We have also been carrying out remote assessment of patients affected by neurological disability.

We have been involved in research on the effects of Covid19 on people with neurological disabilities in Mauritius.

Neuram UK has established links with universities across the globe (Bournemouth University, University of Mauritius, University of British Columbia, Canada) and other NGOs like CANOSC.

We are now resuming our face-to-face interactions with patients and clinicians in Mauritius.

### Income & Expenditure for the period 01.01.2021 to 31.12.2021

Date	Description	Income (in £)	Spending (in £)
06.01.2021	K Soopramanien - monthly contribution	100	
25.01.2021	Sunanda Padaruth	20
