Achievements and performance

Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	<p>Every member of the Board of Trustees has been affected personally by CLL, either as a patient or through a close personal relationship with a patient, and accordingly is well placed to judge the needs of CLL patients and their supporters.</p> <p>With the assistance of a dedicated part-time coordinator, every individual Trustee is both directly and heavily involved in the delivery of the support services that the Charity has to offer.</p> <p>In respect of the main activities undertaken in relation to its objectives, during the year under review the Charity has continued to face many additional challenges as a result of the Covid-19 pandemic. Against that background the Charity has:-</p> <ol style="list-style-type: none"> 1. These presentations were fronted by many of the leading experts in the field of the treatment of CLL, and by key players directly involved in the development of the preventative vaccines that eventually helped to establish some form of control over the Covid-19 pandemic.
---	-----------	---

		<p>The information thereby provided proved vital in offering to CLL patients and their supporters, clear and knowledgeable guidance as to how the measures taken impacted on their own particular circumstances.</p> <ol style="list-style-type: none"> 2. Continued its work with the Blood Cancer Alliance and with Cancer52 to promote the interests of those suffering from blood cancers in general, and CLL in particular. Trialled and introduced Support ACT, a new service designed to offer users access to guidance and support to help improve the well-being of CLL patients and their immediate supporters. 4. Maintained a helpline service that is available to offer immediate support and guidance to CLL patients and their supporters. 5. Continued to develop partnering arrangements with major pharmaceutical companies designed to offer key insights into the way in which treatments impact on the lives and wellbeing of patients. 6. The Charity continued to benefit from donations and fundraising activities that were undertaken by its supporters, despite the limitations that were placed on these activities as a result of the restrictions put in place by HM Government to combat the pandemic. 7.
