1.1 Accounting Conventions

The financial statements have been prepared in accordance with the charity's governing document, the charities

1.2 Going Concern

At the time of approving the financial statements the trustees have a reasonable expectation that the charity has adequate resource to continue in operational existence in the foreseeable future. Thus the trustees continue to adopt the going concern basis of accounting in preparing the financial statements.

1.3 Charitable funds

Unrestricted funds are available for use at the discretion of the trustees in furtherance of their charitable objectives.

Restricted fund are subject to specific conditions by donors as to how they may be used. The purposes and uses of the restricted funds are set out in the notes to the financial statements. Endowment funds are subject to specific conditions by donors that the capital must be maintained by the charity.

1.4 Income is recognised when the charity is legally entitled to it after any performance conditions have been met, the amounts can be measured reliably and it is probable that the income will be received

Cash donations are recognised on receipt. Othe donations are recognised once the charity has been notified of the donation, unless performance conditions require deferral of the amount. Income Tax recoverable in relation to donations received under Gift Aid or deeds of covenant is recognised at the time of donation.

Legacies are recognised on receipt or otherwise if the charity has been notified of an impending distribution, the amount, if known, and receipt is expected. If the amount is not known, the legacy is treated as a contingent asset.

Expenditure is recognised once there is a legal or constructive obligation to transfer economic benefit to a 3rd party. It is probable that a transfer of economic benefits will be required in settlement and the amount of the obligation can be measure reliably.

Expenditure is classified by activity. The costs of each activity are made up of the total of direct costs and shared costs including support costs involved in undertaking each activity. Direct costs attributable to a single activity are allocated to that activity. Shared costs which contribute to more than one activity and support costs which are not attributable to a single activity are apportioned between those activities on a basis consistent with the use of resources. Central staff costs are allocated on a basis of time spent and depreciation is allocated on the portion of the assets use.

1.5 Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, deposits held at bank, other short term liquid investments and original maturities of 3 months or less and bank overdrafts. Bank overdrafts are shown as a liability.

Basic Financial Assets

Basic financial assets which include debtors and cash and bank balances are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

Basic Financial liabilities

Basic financial liabilities including creditors and bank loans are initially recognised at transaction price unless the arrangement constitutes a financing transaction where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt Instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of operations from suppliers. Amounts payable are classified as current liabilities if payment is due within 1 year or less. If not, they are presented as non-current liabilities.

Derecognition of financial liabilities

Financial liabilities are derecognised when the charity's contractual obligations expire or are discharged or cancelled.

2. Critical accounting estimates and judgements

In the application of the charity's accounting policies, the trustees are required to make judgements, estimates and assumptions about the carrying assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered relevant. Actual results may differ. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.
