Trustee's Annual Return 2024/2025

The Year to date has been predominantly one of consolidation following the upheaval of COVID, and the subsequent impact on our service delivery.

This has resulted in our withdrawing to a long period of aircraft overhaul which has kept our Volunteer force extremely busy, and left us in an excellent position to regroup and relaunch in the coming Summer season.

Our Volunteers have been absolutely fantastic with the work they have completed and the gargantuan tasks they have undertaken, encompassing site clearance, trench digging, workshop building, in addition to work on the aircraft. Indeed, as this period we have not been doing any active fundraising, most of the income has come from the Volunteers themselves.

The consolidation work we have done, while necessary due to the length of time the aircraft have been stored, being now largely complete, we now look forward to the coming year with renewed optimism, with arrangements already in hand for renewed service delivery.

2025 looks like being the year in which we will turn the corner.

**Trustee's Annual Report – GET HIGH VOLARE –
Charity Number:- 1179224**

Year:- 2023 -2024

Prepared by:- Tim Wiltshire – TRUSTEE

Report:-

It seems yet another year in “Hibernation”, the opportunities for reopening flying opportunities have not presented themselves, and limited Flying operations were limited to maintaining currency for the pilots.

This being the case, the decision was taken to continue our “Hibernation” period for another until conditions have changed. After much thought and consideration, this was the only logical option for the Charity, as all of our activities would have been severely curtailed due to conditions, which would have made them completely non-viable financially.

In the event, this has not caused us the problems it might have done, as all our volunteers remain keen, and simply got on with other tasks, and great progress has been made with working on our aircraft in preparation for when we expect to resume flying operations.

It had been expected that Covid would no longer impact us, however, this is still not the case, and we feel it is too risky to enter into commitments that we will be unable to maintain, if there is a return to some form of lockdown. Our own volunteers have all exhibited Covid symptoms at some point or another during this period..

As usual, the key thing is that the Charity remains solvent, and has dedicated volunteers, and we are keen to move forward once conditions improve.

All other items remain as previous. There have been no changes of Trustees or contact details.

Report:-

Following our previous year in “Hibernation”, the opportunities for reopening have not presented themselves, such that Flying operations were only feasible after the end of the normal Flying season.

This being the case, the decision was taken to continue our “Hibernation” period for a subsequent year until conditions have changed. After much thought and consideration, this was the only logical option for the Charity, as all of our activities would have been severely curtailed due to conditions, which would have made them completely non-viable financially.

In the event, this has not caused us the problems it might have done, as all our volunteers remain keen, and simply got on with other tasks, and with no ongoing liabilities (such as site rent, or contracts) to consider, then simply continuing with Hibernation was relatively easy for us to accomplish.

Given that at the time of this return, Covid is now effectively over, we would expect to recommence operations as soon as Spring breaks.

The key thing is that the Charity is still solvent, and has dedicated volunteers, and we are keen to move forward once conditions improve.

Report:-

Given the insurmountable challenge presented by Covid 19, we were reluctantly forced to make the decision to put the Charity into “Hibernation” for a year.

This decision was taken after much thought and consideration, and was the only logical option for the Charity, as all of our activities take place with participants in close proximity.

Fortunately, as we were in the process of moving sites, this came at an opportune time, as we had no ongoing liabilities (such as site rent, or contracts) to consider, and hence simply going into Hibernation was relatively easy for us to accomplish.

It is recognised that as soon as the Covid 19 situation improves, we can quickly resume operations and fully intend to do so.

We believe, that under the circumstances prevailing, we have made the right decision.
