Objectives and Activities

Malawi Student Foundation was established to provide scholarships and grants to students at universities in Malawi. These are students who are either in danger of dropping out of university because of financial difficulties or are unable to attend university in the first place, though selected, because of poverty. The Foundation also provides limited assistance to other students at high school level.

We confirm that the trustees have had regard to the guidance issued by the Charity Commission on public benefit. The trustees have referred to the guidance contained in the Charity Commission's general guidance on public benefit when reviewing the Foundation's aims and objectives and in planning future activities and setting scholarship policy for the period.

Achievements and Performance

We report that during the reporting period to 31 December 2024, Malawi Student Foundation did not provide new scholarships. Students in the our first cohort have completed their studies.

The total of successful university students on our programme is eight. The Foundation is satisfying its objectives, although more work is required to raise funds for a new cohort.

Financial Review

The Foundation's work is entirely reliant on donations. For this reporting period the Foundation did not raise donations but plans to do so for the next financial year. In order to maintain and continue all of our project activities at a good level, the Foundation needs to raise at least £500 annually (new level).

We are confident that the organisation will carry out its full functions during the next reporting period.

It is the policy of the Foundation that unrestricted funds be maintained, wherever possible, at a level of at least £500. The Trustees consider that reserves at this level will ensure that the Foundation key basic activities while consideration is given to ways in which additional funds may be raised. At the year end the Foundation held unrestricted funds of £607.

In 2025 we will continue seeking to secure further funding from private donations, so that the Foundation can continue to provide a respectable number of scholarships in Malawi and therefore maintain its key project activities.
