Notes to the financial statements.

1 Basis of preparation

The financial statements of the charity, which is a public benefit entity under FRS 102, have been prepared in accordance with the Charities SORP (FRS 102) 'Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2015)', Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Charities Act 2011. The financial statements have been prepared under the historical cost convention, with the exception of investments which are included at market value, as modified by the revaluation of certain assets.

Critical accounting judgements and key sources of estimation uncertainty

The financial statements include the valuation of investment property and listed investments. Due to the nature of these investments, although they are included in the financial statements at values that are appropriate at that time, there are external market factors that could lead to these estimated valuations changing in future accounting periods.

2 Accounting policies

Income

Income is included in the Statement of Financial Activities (SoFA) when the charity becomes entitled to the resources, it is more likely than not that the trustees will receive the resources and the monetary value can be measured with sufficient reliability. Performance related grants are recognised to the extent that the charity has provided the specified goods or services.

Expenditure and liabilities

Liabilities are recognised as expenditure as soon as there is a legal or constructive obligation committing the charity to that expenditure, it is probable that a transfer of economic benefits will be required in settlement and the amount of the obligation can be measured reliably. Expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all cost related to the category. Where costs cannot be directly attributed to particular headings, they have been allocated to activities on a basis consistent with the use of resources.

Grants offered subject to conditions which have not been met at the yearend date are noted as a commitment but not accrued as expenditure.

Allocation and apportionment of costs

Governance costs are allocated to charitable activities.

Taxation

The charity is exempt from tax on its charitable activities.

Fund accounting

Unrestricted funds can be used in accordance with the charitable objectives at the discretion of the trustees.

Debtors

Debtors are measured at the value invoiced net of any provisions for bad debts.

Liabilities

Liabilities are measured at the amount that the charity anticipates it will pay to settle the debt or the amount it has received as an advance for goods or services it must.
