

Hey Jude Charity Annual Report April 2021-April 2022

This year has seen a steady influx of patients mainly looking for advice on cancer related problems. As the charity is not advertised anywhere, it is word of mouth that continues to bring patients and their families to our doors.

The projects that had been put on hold due to the pandemic remain so due to lack of finances in the meantime. Fortunately, the charity has few outgoings so remains financially stable.

The trustees will make further decisions on the direction the charity will take in the future over the coming year.

Dr. Henry Mannings (on behalf of the trustees).
