

CHARITY COMMISSION
FOR ENGLAND AND WALES

Trustees' Annual Report for the period

From 02/04/2021 To 04/04/2022

Charity name: Bristol Bat Rescue

Charity registration number:

Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	To rescue, rehabilitate and release sick, injured and orphaned bats. To educate the public about bats, including science, conservation and rehabilitation, which may include use of the permanent licensed education bats.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	(1) To rescue and rehabilitate bats found by the public or handed over to animal carers, or have bats euthanased if that is what their welfare requires; (2) Safeguarding the public and animal carers (e.g. veterinary staff) who have come into contact with bats to ensure that they are aware of the risks of European Bat Lyssaviruses (EBVL 1 and 2), which is fatal if contracted from an infected bat and not treated within time; (3) To assist the public and animal carers to ensure bats and their roosts are treated in line with the Animal Welfare Act 2006, the Conservation of Habitats and Species Regulations 2017, and the Wildlife and Countryside Act 1981; (4) To prevent spread of Covid 19 to UK bats; (5) To contribute to conservation

		efforts for Protected Species (bats) through rescuing and rehabilitating those that can be returned to the wild to maintain the wild population; through educating the public about bats; and through recording and sharing data of use to conservationists.
Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	Para 1.18	Yes

Additional information (optional)

You may choose to include further statements where relevant about:

	SORP reference	
Policy on grant making	Para 1.38	
Policy on social investment including program related investment	Para 1.38	
Contribution made by volunteers	Para 1.38	We have had no volunteers working with us during the reporting period. All work has been done by Stewart Rowden and Kiri Green.
Other		We assisted Wiltshire Bat Care with their getting set up and providing advice.

Achievements and Performance

	SORP reference	
--	----------------	--

Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	(1) BBR helped at least 137 bats during this recording period. We managed to rescue and care for 26 bats- as we had thought we would not be able to do any care work in 2021 26 bats being rescued and cared for was an achievement. It does not sound much but knowing what we know about our personal and work commitments in 2021 and how stretched we were to even manage 26 we are happy with this. At one point we had to take in several pups from one roost and do all the hourly-two hourly feeds around the clock for a week until a colleague at the RSPCA had capacity to take over. As with previous years several of these bats were entrusted to us by the RSPCA or vets. We spent time on calls networking directly to help another 10 get rescued by other carers. The remaining 101 we helped through advice- either providing information on where else to get help, or if we were satisfied that the bat was suitable for release then advising on how to do this and what to do next if the release was unsuccessful. We get calls from across the UK, especially when the Bat Conservation Trust helpline is not open or too busy to answer. The furthest afield was in Eire and took a significant amount of time over two days to try and find help for the bat. As usual we carried out our work in line with the Animal Welfare Act 2006, the Conservation of Habitats and Species Regulations 2017, and the Wildlife and Countryside Act 1981. We are aware of the requirements of the Veterinary Surgeons Act 1966. We followed the guidelines set out by the Bat Conservation Trust in their Bat Care Guidelines. Of the 26 bats 5 had to be euthanised due to injuries, and 3
--	------------------	---

		died of injuries or illness. In at least one case we were called in by a vet to help diagnose a problem with a bat and said bat was euthanised on our advice. We therefore successfully rescued and rehabilitated 69-70% of the bats that came into our care during this reporting period. All bats that required the use of a flightcage travelled to North Devon Bat Care's flightcage, and Wiltshire Bat Care's flightcage. The busiest month was July 2021 with 37 requests for help, followed by August with 16. During the winter months bats are normally hibernating so it is rare to get calls during that time. Species we cared for: Serotines (2); Leisler's (2); Brown long-eared (2); Whiskered (2); Common and Soprano Pipistrelles (18). Note that in 2022-2023 we have so far directly rescued and cared for 67 bats, and overall have helped 182 bats. We are still not using volunteers to assist us. (2) It is a standard part of our call procedure to check with callers that no one has been bitten or scratched by a bat, and to advise them not to handle bats with unprotected hands. We did have instances of people reporting being bitten or scratched by bats, and we gave them appropriate advice to seek medical advice in line with Bat Conservation Trust's guidelines and chapter 27 of the NHS Green Book. If a bat we took in had bitten/scratched a person, and the bat died, we sent the corpse to APHA for testing with the details of the person who was bitten/scratched. We used our social media accounts to educate the public that EBLV 1 and 2 (aka rabies) is a virus carried by a very small number of bats in the UK, despite the UK being officially rabies-free, and
--	--	---

		that it is fatal if any possible infection is not treated in time. (3) As with (2) it is part of our call procedure to cover any legal aspects regarding the protection of bats and their roosts we feel are relevant for the situation. Again we used social media accounts to educate the public on these matters; (4) We worked in line with Bat Conservation Trust's Covid 19 guidance to protect bats that came into our, and to educate the public on the issues. No bats in the UK are known to carry Covid 19. Experts believe it would be possible for someone with Covid 19 to infect a bat with the virus and spread that virus into the wild population, so we took what steps we could to prevent this happening in line with national guidelines. We assisted Imperial College London with research by allowing one of their assistants to come to our house to take samples of droppings for testing- their research found no evidence of bats being cared for by bat carers carrying Covid. (5) We were able to return 69-70% of the bats we helped back to the wild, and contribute to maintenance of the population. We have submitted our records from this reporting period to the local environmental records organisation covering our core area- we still need to submit records to the other areas we took bats in from. Regarding public education, we educated the public via social media (our website, Facebook, Youtube, Instagram and Twitter.

--	--	--

Achievements against objectives set	Para 1.41	
Performance of fundraising activities against objectives set	Para 1.41	
Investment performance against objectives	Para 1.41	
Other		

Financial Review

Review of the charity's financial position at the end of the period	Para 1.21	We started the reporting period at +£743. We carried out no organised fundraising activities. We received £100 through donations across the reporting period. Our costs from travel, equipment, food, medical supplies, and general costs totalled £700. In previous years we have estimated that on average each bat costs £20-£30. We therefore ended the reporting period with +£43.
Statement explaining the policy for holding reserves stating why they are held	Para 1.22	
Amount of reserves held	Para 1.22	
Reasons for holding zero reserves	Para 1.22	
Details of fund materially in deficit	Para 1.24	
Explanation of any uncertainties about the charity continuing as a going concern	Para 1.23	

Additional information (optional)

You may choose to include further statements where relevant about:

The charity's principal sources of funds (including any fundraising)	Para 1.47	
Investment policy and objectives including any social investment policy adopted	Para 1.46	
A description of the principal risks facing the charity	Para 1.46	

Other		

Structure, Governance and Management

Description of charity's trusts:		
Type of governing document (trust deed, royal charter)	Para 1.25	constitution
How is the charity constituted? (e.g unincorporated association, CIO)	Para 1.25	Charitable Incorporated Organisation- Foundation
Trustee selection methods including details of any constitutional provisions e.g. election to post or name of any person or body entitled to appoint one or more trustees	Para 1.25	Election by Trustees

Additional information (optional)

You may choose to include further statements where relevant about:

Policies and procedures adopted for the induction and training of trustees	Para 1.51	
The charity's organisational structure and any wider network with which the charity works	Para 1.51	
Relationship with any related parties	Para 1.51	
Other		In our previous report for 2020-2021 we stated that we would be shutting down the charity and continuing as a non-charity. We have not done so yet - we need to do so. But we should declare that we have received no benefits from anyone thinking we are a charity- we do not refer to ourselves as one and have stated we are not a registered charity when asked.

Reference and Administrative details

Charity name	Bristol Bat Rescue
Other name the charity uses	
Registered charity number	1182760
Charity's principal address	77 Alcove Road. Fishponds, Bristol BS16 3DS
