

During the 2025 financial year, the Bright Kites Foundation has taken a strategic pause in programme delivery to reflect on the long-term direction and sustainability of the charity. This intentional break has allowed the Board of Trustees to focus on reassessing our purpose, refining our theory of change, and strengthening governance structures. Our aim is to ensure that Bright Kites can continue to deliver meaningful and impactful support in a sustainable way. We remain deeply committed to our mission and look forward to sharing a renewed strategic vision in the year ahead.
