## Joy For Humanity

### REPORT OF THE TRUSTEES FOR THE YEAR ENDED 31ST DECEMBER 2022

The trustees present their report and financial statements for the year ended 31st December 2022.

#### Structure, Governance and Management

##### Governing Document

The charity was registered in May 2019 as a Charitable Incorporated Organisation. Prior to this JFH UK had been operating as a project of Frampton Park Baptist Church.

In August 2019 JFH UK was able to open a bank account with CAF Bank. This is when the CIO started to operate as an independent charity.

##### Board of Trustees

There are four trustees of the charity. Kevin Belcher is chairperson with 20 years experience in UK and International Charity leadership. Kevin is in the habit of visiting Uganda twice a year and has developed a close relationship with Richard Ssekiloleko, the chair of JFH Uganda. They work closely to oversee the governance of the charities and joint working.

Joseph Lukwago, Voluntary Director, oversees the weekly operations of the charity and liaises closely with the team in Uganda. Joseph has many years of leadership in Uganda rising to Private Secretary to the Vice President of Uganda prior to moving to the UK on a secondment.

Heather Belcher is a GP and supports the Governance of the new Health Centre.

Shilla Namuli is from Uganda and supports us making sure all decisions are culturally appropriate.

In the year ahead the Trustees are planning to expand the number of trustees overseeing the charity.

The UK Trustees meet regularly with the Ugandan Trustees.

##### Risk Management

The trustees are keen to limit the internal and external risks to which the charity is exposed and are looking into ways of providing further support to the charity's principle activities.

Internal control risks are minimised by the implementation of procedures for authorisation of all transactions and projects. Procedures are in place to ensure compliance with the health and safety of staff, volunteers, clients and visitors to the various projects.

##### Financial Management – Policy and Procedures.

Since we do a lot of international transfers to Joy For Humanity Uganda, our policy includes an overseas payment procedure to ensure that the funds transferred to Uganda are sent for the intended purpose.

Procedure:

- The Uganda team shares acknowledgement of the funds received from Joy For Humanity UK.
- The Uganda team shares detailed financial monthly reports for new projects and ongoing projects.
- Joy For Humanity UK and the Uganda team have regular online meetings to keep each other updated on the activities with financial reports, which is also a learning process for both teams.

- The UK Trustees make regular visits to the project area in Uganda for monitoring. These visits also involve volunteers visiting Uganda to participate and see how the funds sent to Uganda are serving the community.

Joy For Humanity organisation is a result of mutual relationship, friendship, and understanding. This is one of the reasons why there is excellent coordination in the delivery of services. However, even with this kind of established relationship, the UK Charity Trustees exercise their own discretion in the developmental projects in Uganda.

One important reason for the establishment of Joy For Humanity Uganda was to showcase a grassroots charity delivering services to the community with efficient processes and proper utilisation of resources for the intended target group. To showcase a model of success in the future for the country, documenting the processes and funds received in Uganda is at the centre of what is done.

### **Organisational Structure**

Joseph Lukwago and Kevin Belcher complete the operational tasks of the charity without employing any staff. They meet on a Monthly basis with each other and on a monthly basis with the Ugandan team.

There are also a group of JFH Ambassadors who support the charity in the UK. All of the Ambassadors have visited the activities in Uganda.

### **Trustee Remuneration and expenses**

The Trustees are not remunerated and in the year 2022 have claimed no expenses.

### **Objectives and aims**

Joy For Humanity provides education to children and empowers Ugandan families to earn an income which allows them to meet their basic needs like shelter, healthcare, food, clothing, and education to live healthy, and dignified lives.

The objects are, for the benefit of people living in Uganda, a country found in East Africa.

- 1) To advance the education of persons in need, including orphans in Uganda by providing merit-based scholarships and assisting in the provision of facilities for education and by such other means as the trustees may determine.
- 2) The prevention or relief of Poverty and sickness in Uganda by providing education, training, healthcare projects and all necessary support designed to enable individuals to generate a sustainable income and be self-sufficient.

As the charity has developed the objectives have fallen into three areas of activity:

#### **Education**

This was the initial activity of the charity, supporting the school, Kyazanga Modern Primary School (KMPS), and in particular supporting orphaned children access education. Now this area of activity includes Child Sponsorship, for those unable to pay for their education and general support for the quality of education delivered at the school. This has included the introduction of phonics teaching, remote teaching with the use of Tablets and the general renovation of the school buildings. It has also included time at schools in the UK. During 2022 the school was able to open its new nursery and develop the English phonics program. Year six exams are taken in English so it is vital that the children learn English to a high standard. Using phonics with the ipads and videos has been invaluable and the staff in Uganda have been taught this by one of the teachers that visited from the UK and continued an ongoing relationship with the school.

The Partnership with Britannia Education Trust has continued to grow during 2022 with the school holding fund raising events.

### **Economic Growth**

Families in Uganda cannot access education without paying for it. Even in Government schools resources need to be paid for. We have adopted the long term aim of each household in the community earning £10,000 enabling them to live a healthy and prosperous life. We currently support four economic activities: A nationally registered Credit Agency supporting small farmers and community members, 3 chicken houses, 12 families with pigs on their land and a Black Soldier Fly project. All these projects have continued to steadily grow during 2022 and the local community have taken ownership of the development. On each visit to Uganda we now offer "seed funding" grants to new families. We were able to offer further investment through individuals in the UK.

### **Health**

On one of the visits to Uganda one of the doctors said that in order to support education and for people to work they needed to be healthy. The local health service was inadequate with people unable to access a basic health service. We had been supporting quarterly medical camps but in 2021 we started to build a substantial health centre for the benefit of the local community and beyond. This was opened in March 2022 with 11 staff. During 2022-23 the health centre has established itself and on average sees 400 people per month. We are hoping that by March 2024 this will have risen to 600 people per month. We are currently raising funds for phase 2. The centre is now fully powered by solar panels, the wards are equipped with beds and partitions and staff quarters will be completed in August 2023. The next phase will be to complete the maternity suite.

### **Public Benefit**

Trustees have taken account of the Charity Commission's general guidance on public benefit when reviewing aims and objectives and in planning future activities.

### **Background to the charity**

Joseph Lukwago started JFH Uganda 16 years ago whilst still a teenager. When he moved to the UK he joined Frampton Park Baptist Church in 2016 who began a small project to support Kyazanga Modern Primary School have access to the internet. This created the opportunity for more communication and a variety of visits of people from Hackney to Kyazanga. The Ambassadors that have visited the village have caught the vision of a partnership and the charity has grown from their expanding from the original Educational support to the Health and Economic Growth Activities.

JFH UK has no ambition to grow staff or a bigger structure in the UK. We want to remain a support organisation for the team in Uganda supporting them to develop their services. We believe they know best the needs of their community but with our external support they can make this happen quicker and in better ways.

### **Plans for 2023**

#### **Education**

The current challenge for the school is that many parents are struggling to pay the school fees as the economy is still recovering from the COVID shut down and other economic challenges. The support we are to give from the UK continues to be invaluable for the ongoing operations of the school. We aim to help the KMPS education team to:

- Expand the use of phonics in the school
- Support the growth of weekend remote teaching based on lessons learnt in the pandemic.
- Build the child sponsorship and school financial support program
- Build the partnership with Britannia Education Trust in Newham

### **Economic Growth**

The economy in Uganda has suffered badly in 2022 and we think that in 2023 this is a priority area for our partnership. We would hope to see the following developments during 2023:

- **Savings and Credit Organisation** – We hope to be able to offer further investment to the SACCO and enable them to increase the number of micro loans they can give out.
- **Chickens** – this is now a self sustaining project and the main aim for this is to become more profitable for the community members.
- **Pigs** – As the village pigs have more litters we hope the number of families with pigs will multiply. We hope that in 2023 the number of families with pigs will grow to over 20 families.
- **Black Soldier Flies** – this is a new project in Uganda. We are the most advanced project of its kind in the country but still have much to learn. This project also ties the chicken and pig enterprises together. The manure from the pigs will be used to feed the flies and the larvae from the flies will be used to feed the chickens with a low cost, high protein food. In 2022 we started a partnership with a university in Kampala and the project is progressing well. The aim is to be self sustainable by the end of 2024. We are also looking at some value added products for this and enabling members of the community to have nets and provide additional larvae.

### **Health Centre**

In March 21 we started the construction of the health centre. Despite the pandemic, progress of the Centre was good and we opened phase 1 of the centre in March 2022. This included outpatients, a small maternity suite, dental suite, laboratory, pharmacy and one ward. We will continue to raise funds for phase 2 and 3 which includes a larger maternity suite, two more wards, community health room and other support facilities such as a community kitchen, staff quarters and offices. We will need to continue to provide funds for the health centre in 2023 but we hope to work towards sustainability by the end of 2024. The fundraising for phase 2 has progressed steadily in 2023 and we have installed a full solar panel system which can power the health centre, equipped the wards and now in process of constructing the staff quarters. Funds continue to come in on a monthly basis. We have also been able to fund the monthly staff costs of the centre helping the health centre build reserves and move towards sustainability.

### **Financial review**

In March 2022 we completed the first stage of the health centre and later in the year started to raise funds for the second stage of the health centre. Construction of phase 2 started in the first half of 2023 and sections will be completed as funds are received.

We were also able to raise monthly donations to support the staff costs of the health centre. We now transfer approximately £1,100 per month to the health centre.

Due to the proximity of the school to the health centre the local council required the school to build new and more sanitary toilets. In partnership with Britannia Trust we were able to raise funds for this and other school development. In addition we have a child sponsorship and support program which is able to transfer approximately £1,200 per month to the school. This has been invaluable for the survival of the school.

### **Principle funding sources**

The funding comes from two categories. Firstly individual donations and secondly events. We had three significant events during the year – JFH Squash competition, Annual Gala night and Hackney Half Marathon.

### Reserves policy

The trustees have examined the charity's requirements for reserves in light of the main risks to the organisation. It has established a policy whereby unrestricted funds are required to:

- Cover administration and support costs in the UK without which the charity could not function to provide funds to enable projects to be undertaken at short notice.
- The trustees consider it prudent that unrestricted funds should be sufficient to cover 3 months administration and support. This amounts to £500.

### Accounting and Reporting Responsibilities

The trustees are responsible for preparing the Report of the Trustees and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

The law applicable to charities in England and Wales, the Charities Act 2011, Charity (Accounts and Reports) Regulations 2008 and the provisions of the trust deed requires the trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charity and of the incoming resources and application of resources, including the income and expenditure, of the charity for that period. In preparing those financial statements, the trustees are required to:

- Select suitable accounting policies and then apply them consistently;
- Observe the methods and principles in the Charity SORP;
- Make judgements and estimates that are reasonable and prudent;
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue in business.

The trustees are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the charity and to enable them to ensure that the financial statements comply with the Charities Act 2011, the Charity (Accounts and Reports) Regulations 2008 and the provisions of the trust deed. They are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

### Board of Trustees

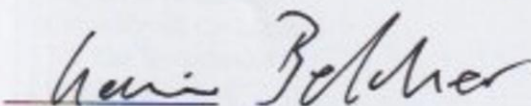

The board of trustees, who served during the year and up to the date of this report, are set out on page 1.

### Independent examiner

The independent examiner Raymond Chaplin will be proposed for re-appointment.

This report has been prepared in accordance with the Statement of Recommended Practice – Accounting and Reporting by Charities.

This report was approved by the Trustees on 31st July 2023 and signed on their behalf by:

**REPORT OF THE INDEPENDENT EXAMINER TO THE TRUSTEES  
OF Joy For Humanity UK**

I report on the accounts for the year ended 31st December 2022 which are set out on pages ten to twelve.

**Respective Responsibilities of Trustees and Examiner**

The charity's trustees are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 (the 2011 Act) and that an independent examination is required.

It is my responsibility: -

- examine the accounts under Section 145 of the 2011 Act
- to follow the procedures laid down in the General Directions given by the Charity Commission (under Section 145(5)(b) of the 2011 Act); and
- to state whether particular matters have come to my attention.

**Basis of Independent Examiner's Report**

My examination was carried out in accordance with the General Directions given by the Charity Commission. An examination includes a review of the accounting records kept by the Charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts and seeking explanations from you as Trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit, and consequently no opinion is given as to whether the accounts present a 'true and fair view'; and the report is limited to those matters set out in the statements below.

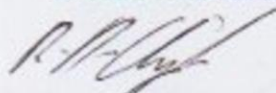

**Independent Examiner's Statement**

Your attention is drawn to the fact that the charity has prepared financial statements in accordance with Accounting and Reporting by Charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) in preference to the Accounting and Reporting by Charities: Statement of Recommended Practice issued on 1 April 2005 which is referred to in the extant regulations but has now been withdrawn.

I understand that this has been done in order for the financial statements to provide a true and fair view in accordance with Generally Accepted Accounting Practice effective for reporting periods beginning on or after 1 January 2015.

In connection with my examination, no other matter except that referred to in the previous paragraph has come to my attention: -

- 1) which gives me reasonable cause to believe that, in any material respect, the requirements:
  - to keep accounting records in accordance with Section 130 of the 2011 Act; and
  - to prepare accounts which accord with the accounting records and comply with the accounting requirements of the 2011 Acthave not been met; or
- 2) to which, in my opinion, attention should be drawn in order to enable a proper understanding of the accounts to be reached.
