Introduction

This financial year has been rewarding for the charity. Although we haven't collected as many donations as we would have liked to and some regular donations have been reduced, we have seen an increase of interest and support from the community. Our projects are continuing to grow and have become an annual event more or less.

We supported families again with food parcels, focusing on those with younger children in both Bangladesh and Pakistan. We also supported with donations for staff accommodation at a local school in Bangladesh, to allow the children in the area to get better education. We also added further to our water wells near schools and nurseries.

Introduction

This has been another challenging year given the extension of the pandemic and further lockdowns. However, we have grown our presence in the market and moving towards bigger projects.

We have sponsored families during the pandemic with food parcels as well as purchase land for to build our school. We have also been able to build water wells in Bangladesh and Pakistan.

Operating Model and Structure
