Operating Model and Structure.....	3
Purpose.....	3

Introduction

This has been another challenging year given the extension of the pandemic and further lockdowns. However, we have grown our presence in the market and moving towards bigger projects.

We have sponsored families during the pandemic with food parcels as well as purchase land for to build our school. We have also been able to build water wells in Bangladesh and Pakistan.

Operating Model and Structure

Ullah Isa Trust is managed by the Trustees and Volunteers on a voluntary basis with no commission taken other than expenses where needed.

The Trustees at present are:

Waseem Akhtar

Franco D'onofrio

Nehar Ullah

Our Volunteers are:

Saiful Alam – Bangladesh

Riaz Ali Solangi - Pakistan

All communication between Trustees and Volunteers is done via Whatsapp due to Covid restrictions and the international reach of the Charity.

Purpose

At Ullah Isa Trust our aim is to give children in Bangladesh and Pakistan a better chance at life. This could be by supplying them financial or physical access to education, clean water and availability of a masjid to pray in.

In the last year we have focused on providing support for families with children and providing clean water to villages that need support.
