

# INTERNATIONAL INITIATIVE FOR THEORETICAL ECOLOGY

England & Wales · Charity number 1183900

## Details

---

Other names	IITE
Status	Registered
Legal form	CIO
Registered	2019-06-14
Register	<a href="#">View on the Charity Commission register</a>

## Contact

---

Address	Flat 10 317 Essex Road London N1 2EE
Phone	07551396243
Email	<a href="mailto:contact@iite.info">contact@iite.info</a>
Website	<a href="http://iite.info/">http://iite.info/</a>

## Activities

---

**Objects:** FOR THE BENEFIT OF THE PUBLIC THE ADVANCEMENT OF THE SCIENCE OF THEORETICAL ECOLOGY IN PARTICULAR BUT NOT EXCLUSIVELY BY: A) THE PROMOTION, ENCOURAGEMENT AND ADVANCEMENT OF THEORETICAL ECOLOGY AND ITS APPLICATION; B) THE ADVANCEMENT OF EDUCATION AND RESEARCH IN THEORETICAL ECOLOGY AND ITS APPLICATION AND THE PUBLICATION OF THE USEFUL RESULTS OF SUCH RESEARCH.

**Activities:** Our planet's biosphere is under increasing pressure from pollution, climate change, overexploitation and land-use change. Biodiversity is rapidly declining. How will the biosphere respond, how societies be affected, how can this change be steered to the benefit of humanity? IITE aims to promote advancement, teaching and application of theoretical ecology in order to address these questions.

## Classification

---

- **How:** Provides Services, Provides Advocacy/advice/information, Sponsors Or Undertakes Research
- **What:** Arts/culture/heritage/science, Environment/conservation/heritage
- **Who:** The General Public/mankind

Dr. Axel G. Rossberg (Chair)  
Reader in Theoretical Ecology, Queen Mary University of London

Prof. Géza Meszéna  
Professor of Physics, Eötvös University, Budapest

Dr J Christopher Terry (Treasurer)  
Postdoctoral Researcher, Queen Mary University of London

Prof. Mercedes Pascual  
Louis Block Professor of Ecology and Evolution, University of Chicago

Prof. Cang Hui  
SARChI Chair in Mathematical and Theoretical Physical Biosciences, Stellenbosch University

Prof. Åke Brännström  
Head of Department of Mathematics and Mathematical Statistics

Prof. György Barabás  
Assistant Professor at Linköping University

Dr Natalia Petrovskaya  
Senior Lecturer, University of Birmingham

# Activities and Achievements

This report covers the period from 1 May 2024 to 30 April 2025

IITE's constitution states our objective as follows:

*For the benefit of the public the advancement of the science of Theoretical Ecology in particular but not exclusively by:*

- a) the promotion, encouragement and advancement of theoretical ecology and its application;*
- b) the advancement of education and research in theoretical ecology and its application and the publication of the useful results of such research.*

During the reporting period, our main public facing activity has been a series of online seminars run through Zoom ([iite.info/seminar/](http://iite.info/seminar/)). All speakers have volunteered their time, and by using free tools have incurred no financial cost. These have been free for all to access, and have attracted a large and diverse collection of researchers in the audience. To date, we have run about 77 such seminars, 17 in the reporting period, with presenters from across the world and from a range of career stages and including some of the most esteemed researchers in the field. The talks have been popular and this has allowed us to develop a significant email mailing list and twitter following. All talks have been posted on YouTube, where we have had well over 10'000 total views.

All activities of IITE were led by its trustees, served the public benefit, and were consistent with the charity's objective.

## Outlook

An important goal for the next reporting period will be to open a charity bank account to allow us to apply for and administer grants, collect donations and so develop the aims of IITE. After discussions with various banks, this may require some restructuring of the trustee list.

## Governance

IITE has a simple governance structure: the board of trustees is identical with its membership, all work is volunteered, and all decisions are made in (virtual) meetings of the board of trustees in line with the published constitution.

## Financial Review

IITE had neither income nor expenditures, and had no assets, funds, or liabilities during the reporting period.

# Activities and Achievements

The International Initiative for Theoretical Ecology formed itself during 2018 and registered as a charity in England and Wales on 14 June 2019.

This report covers the period from 23 February April 2022 to 9 May 2023

IITE's constitution states our objective as follows:

*For the benefit of the public the advancement of the science of Theoretical Ecology in particular but not exclusively by:*

- a) the promotion, encouragement and advancement of theoretical ecology and its application;*
- b) the advancement of education and research in theoretical ecology and its application and the publication of the useful results of such research.*

During the reporting period, our main public facing activity has been the development of a series of online seminars run through Zoom ([iite.info/seminar/](http://iite.info/seminar/)). All speakers have volunteered their time, and by using free tools have incurred no financial cost. These have been free for all to access, and have attracted a large and diverse collection of researchers in the audience. To date, we have run 46 such seminars, with presenters from across the world and from a range of career stages and including some of the most esteemed researchers in the field. The talks have been popular and this has allowed us to develop a significant email mailing list and twitter following. All talks have been posted on YouTube, where we have had over 19,500 total views. While the rate of growth has levelled off, likely with the resumption of in-person seminars, they are still well attended.

All activities of IITE were led by its trustees, served the public benefit, and were consistent with the charity's objective.

## Outlook

A consideration over the next year will be the relationship, if any, of the IITE with other emerging organizations that share similar objectives.

## Governance

IITE has a simple governance structure: the board of trustees is identical with its membership, all work is volunteered, and all decisions are made in (virtual) meetings of the board of trustees in line with the published constitution.

# **Financial Review**

IITE had neither income nor expenditures, and had no assets, funds, or liabilities during the reporting period.

# Annual Report 2021

**International Initiative for Theoretical Ecology (IITE)**

<http://iite.info>

*Our planet's biosphere is under increasing pressure from pollution, climate change, overexploitation and land-use change. Biodiversity is rapidly declining. How will the biosphere respond, how societies be affected, how can this change be steered to the benefit of humanity? IITE aims to promote advancement, teaching and application of theoretical ecology in order to address these questions.*

## **Board of Trustees**

Dr. Axel G. Rossberg (Chair)  
Reader in Theoretical Ecology, Queen Mary University of London

Prof. Géza Meszéna  
Professor of Physics, Eötvös University, Budapest

Dr J Christopher Terry (Treasurer)  
Postdoctoral Researcher, Queen Mary University of London

Prof. Mercedes Pascual  
Louis Block Professor of Ecology and Evolution, University of Chicago

Prof. Cang Hui  
SARChI Chair in Mathematical and Theoretical Physical Biosciences, Stellenbosch University

Prof Sergei Petrovskii  
Professor in Applied Mathematics, University of Leicester

Dr. Henri Laurie  
Senior Lecturer, Department of Mathematics and Applied Mathematics, University of Cape Town

Prof. Åke Brännström  
Head of Department of Mathematics and Mathematical Statistics

Prof. György Barabás  
Assistant Professor at Linköping University

Dr Natalia Petrovskaya  
Senior Lecturer, University of Birmingham

# Activities and Achievements

The International Initiative for Theoretical Ecology formed itself during 2018 and registered as a charity in England and Wales on 14 June 2019. This report covers the period from 30 April 2020 to 23 February 2022

IITE's constitution states our objective as follows:

*For the benefit of the public the advancement of the science of Theoretical Ecology in particular but not exclusively by:*

- a) the promotion, encouragement and advancement of theoretical ecology and its application;*
- b) the advancement of education and research in theoretical ecology and its application and the publication of the useful results of such research.*

During the reporting period, our main public facing activity has been the development of a series of online seminars run through Zoom ([iite.info/seminar/](https://iite.info/seminar/)). All speakers have volunteered their time, and by using free tools have incurred no financial cost. These have been free for all to access, and have attracted a large and diverse collection of researchers in the audience. To date, we have run 30 such seminars, with presenters from across the world and from a range of career stages and including some of the most esteemed researchers in the field. The talks have been popular and this has allowed us to develop a significant email mailing list and twitter following. All talks have been posted on YouTube, where we have had over 10'000 total views.

All activities of IITE were led by its trustees, served the public benefit, and were consistent with the charity's objective.

## Outlook

An important goal for the next reporting period will be to open a charity bank account to allow us to apply for and administer grants, collect donations and so develop the aims of IITE. After discussions with various banks, this may require some restructuring of the trustee list.

## Governance

IITE has a simple governance structure: the board of trustees is identical with its membership, all work is volunteered, and all decisions are made in (virtual) meetings of the board of trustees in line with the published constitution.

# Financial Review

IITE had neither income nor expenditures, and had no assets, funds, or liabilities during the reporting period.
