<b>Agenda Topic 8</b>	
Presenter	Laura Cox
Discussion	<p>At an earlier Extraordinary meeting there was a discussion on whether or not to change the age range of the people with learning difficulties that we support in Tanzania , LC felt that there is a great need to help younger children who are also excluded from experiencing all that NT/CWO offer to its current service users. In the Kilimanjaro Region of Tanzania there are limited services for adults or children with learning difficulties so offering opportunities to younger children will provide a safe space for them to explore, experience, and develop in an inclusive setting where their disabilities are seen and understood. This will also offer a support system to parents/caregivers as they watch their children flourish. As discussed at length in the Extraordinary</p>

However, the students have now decided to not go ahead with this due to start up requirements being too timely.</p> <p>LC has also been talking with Reece P, Reece has been a previous volunteer in Tanzania and also worked with LC for a charity. RP is going to help where he can in terms of media and hopefully help MP with the website ideas. It was felt that a pro-active social media presence would increase the chances of funding and future volunteers.</p> <p>MP suggested a Youtube Channel would be good to introduce, which would have links to various sites.</p>

## Appendix 1:

### **NATIONS TOGETHER OVERVIEW 2022/2023**

2022/2023 has been a positive period for Nations Together as the teams both here in the UK and in Tanzania work together to meet the needs of the service users in our care.

#### THE FACILITY

NT, known as CWO Community Wellbeing Organisation is currently offering a Day Care provision Monday to Thursday 52 weeks per year. Our current premises are rented. The provision offers support to Adults with learning difficulties and provides the service users with a place of safety where they can learn new skills, experience new activities, feel safe and be included. Whilst in our care the service users receive a nutritional meal for lunch and seasonal fruit.

#### STAFFING

NT currently has four members of staff, all Tanzanian and local to the community.

Grace Boniface    Manager

Gloria Silaa        Support Worker

Happiness Felixi    Support Worker

Jenefer Uloto      Support Worker

The Manager's role is to ensure that the provision offers a high level of quality care to meet the individual needs of each SU, that the finances sent over from the UK are monitored and accounted for accurately and appropriately. That the staff team are well managed and well led and supported within their roles. That the premises are maintained and safe for the service users to attend.

The Support Workers have several SU's each who they are responsible for, this includes producing a Person-Centered Plan, completion of daily paperwork, planning activities and outings, working in partnership with parents/caregivers, promoting social inclusion and acceptance within the community, ensuring health

# Nations Together

issues and socio/economic issues are addressed within the home environment.

## STATISTICS

Currently NT/CWO supports nineteen service users in total, with five to be assessed for attending the center in the future months. Currently NT/CWO support:

8 people with Downs Syndrome

5 people with Autism varying degrees

5 people with Cerebral Palsy

1 person with moderate learning difficulties/mental health issues

## RADIUS

NT/CWO also provides transportation to and from the SU's home to the center, this is an integral part of the service we offer as some SU's live over 30km away. We have adapted this service by hiring a minibus to collect all SU's living in a certain area on a one day and another area another day e.g.:

Monday is Kawayana and Bomangombe

Tuesday is Masama, Sonu, Roo & Mungushi

Wednesday Machame & Sanya Station

Thursday is Staff training, new assessments, completing paperwork, deep cleaning, AOB.

One support worker will travel with the driver to escort the SU's to the center and then to return home.

## TRIBES

NT/CWO supports people from the Chagga and Massai tribes of Kilimanjaro Region

## HEALTH

Manager Grace Boniface has a working health background and is therefore able to manage and support health issues for the SU's on a daily basis and will seek further health expertise if necessary.

We financially support two SU's with epilepsy medication monthly.

## SOCIAL & ECONOMIC SUPPORT

Within our communities there are many problematic issues that may arise for families resulting in poverty. When necessary, we

# Nations Together

will support families in crisis with food parcels, clothing, mattresses, mosquito nets and any other related item that may be required to support the family.

## ACTIVITIES

Activities are varied and adapted to each SU to ensure all are included, activities range from art and crafts, games inside and out, football with local school children, social outings within the community, using local transport, wider outings to visit local places of interest, lunch out in the community, improving math and literacy skills, learning independence skills, singing, and dancing. The SU's fully engage with the activities.

## AWARENESS

NT continues to raise awareness of the charity in Tanzania. Maxine Phillips has recently designed a web site which is a work in progress but will be used as a tool to try to engage more people in supporting the work that NT accomplishes.

Social media will also be used to engage others.

Clubs such as the Duke of Edinburgh, International Women's Club, Rotary, Inner Wheel will also be used as a platform for raising awareness.

## FUNDS

Please refer to the attached financial report regarding finances.

Trustees and friends of NT have raised funds through donations and events throughout the past year, which has greatly helped in continuing the work of NT/CWO.

To manage and progress NT/CWO more ongoing support is required, as well as looking at ways in which CWO can become self-sustaining.

Thank you to Trustees, Members, Friends, Family, Friends of friends who have supported in any way.
