When necessary, the trustees seek advice and support from the charity's professional advisers including solicitors and accountants.

Risk management

Having assessed the major risks to which the charity is exposed, in particular those relating to its cash holdings and its finances, the trustees believe that by monitoring reserve levels, by ensuring that controls exist over key financial systems, and by examining the operational and business risks faced by the charity, they have established effective systems to mitigate those risks.

Basis of preparation

Critical accounting estimates and areas of judgement

There are no significant areas of adjustment of key assumptions that affect items in the financial statements.

Assessment of going concern

The trustees have assessed whether the use of the going concern assumption is appropriate in preparing these financial statements. The trustees have made this assessment with respect to a period of one year from the date of approval of these financial statements.

The trustees of the charity have concluded that there are no material uncertainties related to events or conditions that may cast significant doubt on the ability of the charity to continue as a going concern. The trustees are of the opinion that the charity will have sufficient resources to meet its liabilities as they fall due.

Income

Income is recognised in the period in which the charity is entitled to receipt, the amount can be measured with reasonable certainty and it is probable that the funds will be received.

In the event of donations pledged but not received, the amount is accrued for where the receipt is considered probable. In the event that a donation is subject to conditions that require a level of performance before the charity is entitled to the funds, the income is deferred and not recognised until either those conditions are fully met, or the fulfilment of those conditions is wholly within the control of the charity and it is probable that those conditions will be fulfilled in the reporting period.

Expenditure

Expenditure is included in the statement of financial activities when incurred and includes attributable VAT which cannot be recovered.

Expenditure is on charitable activities which comprise grants payable in promoting charitable work, the cost of administering the grant programme and governance costs. Grants payable are included in the statement of financial activities when approved and when the intended recipient has either received the funds or been informed of the decision to make the donation and has satisfied all related conditions. Grants approved but not paid at the end of the financial year are accrued for. Grants where the beneficiary has not been informed or has to meet certain conditions before the grant is released are not accrued for but are noted as financial commitments in the notes to the financial statements.

Governance costs include costs which are directly attributable to the organisational procedures and the necessary legal procedures for compliance with statutory requirements. They are included as a constituent part of charitable activities.

Debtors

Debtors are recognised at their settlement amount, less any provision for non-recoverability. Prepayments are valued at the amount prepaid.

Cash at bank and in hand

Cash at bank and in hand represents such accounts and instruments that are available on demand or have a maturity of less than three months from the date of acquisition.

Creditors and provisions

Creditors and provisions are recognised when there is an obligation at the balance sheet date as a result of a past event, it is probable that a transfer of economic benefit will be required in settlement, and the amount of the settlement can be estimated reliably. Creditors and provisions are recognised at the amount the charity anticipates it will pay to settle the debt.
