Summary of the objects of the charity set out in its governing document

The relief of poverty in rural Uganda, in particular but not exclusively by the provision of access to improved water and sanitation.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

In planning our activities for the year we kept in mind the charity commissions guidance on public benefit at our trustee meetings:

The main activity of the charity is as follows:

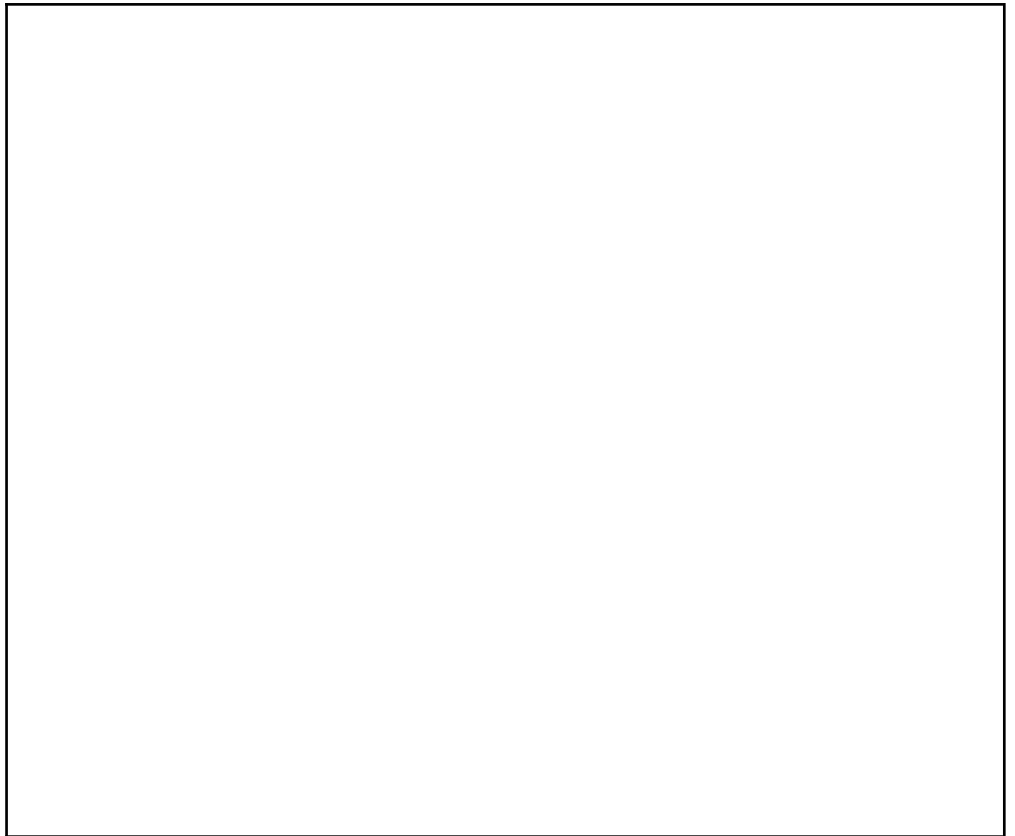

- To build ferro cement water tanks in public primary schools in rural Uganda.
- Provide water filters in public primary school class rooms.

These activity benefit the community by providing those young people with access to water for sanitation (cleaning their hands after going to the toilet) and providing access to safe drinking water while at school. An assessment is done to determine that the school needs a water tank. i.e. there is not continuous access to drinking water at or near the school's grounds or reaching the current source presents a risk to the child when accessing the water (they have to cross a road).

Additional details of objectives and activities (Optional information)

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Summary of the main achievements of the charity during the year

Maintenance of existing water tanks in Uganda and the construction of a new tank was completed this year.

Brief statement of the charity's policy on reserves

The cash in the bank at the end of the year was £4606
The charity does not have a reserves policy.
If funds are not available, water tanks will not be built.

Details of any funds materially in deficit

The charity is not in deficit.

Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

Our principal source of funds is via fund raising. We raised a large amount of money and are dedicated to spending it wisely and not rushing.

Section F Other optional information

Given our income is below £25,000 the accounts do not need to be independently verified.

The trustees declare that they have approved the trustees' report above.

These activity benefit the community by providing those young people with access to water for sanitation (cleaning their hands after going to the toilet) and providing access to safe drinking water while at school. An assessment is done to determine that the school needs a water tank. i.e. there is not continuous access to drinking water at or near the school's grounds or reaching the current source presents a risk to the child when accessing the water (they have to cross a road).

- policy programme related investment;
- contribution made by volunteers.

Summary of the main achievements of the charity during the year

The COVID-19 pandemic had a severe impact on our ability to conduct charitable operations, however some ongoing maintenance and planning for future work was achieved through this time.

Section E

Financial review

Brief statement of the charity's policy on reserves

The cash in the bank at the end of the year was £5,347.38

The charity does not have a reserves policy.

If funds are not available, water tanks will not be built.

Details of any funds materially in deficit

The charity is not in deficit.

Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

Our principal source of funds is via fund raising. We raised a large amount of money and are dedicated to spending it wisely and not rushing.

Summary of the objects of the charity set out in its governing document

The relief of poverty in rural Uganda, in particular but not exclusively by the provision of access to improved water and sanitation.

--

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

In planning our activities for the year we kept in mind the charity commissions guidance on public benefit at our trustee meetings:

The main activity of the charity is as follows:

- To build ferro cement water tanks in public primary schools in rural Uganda.
- Provide water filters in public primary school class rooms.

These activity benefit the community by providing those young people with access to water for sanitation (cleaning their hands after going to the toilet) and providing access to safe drinking water while at school. An assessment is done to determine that the school needs a water tank. i.e. there is not continuous access to drinking water at or near the school's grounds or reaching the current source presents a risk to the child when accessing the water (they have to cross a road).

Additional details of objectives and activities (Optional information)

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Summary of the main achievements of the charity during the year

In the period the charity raised money to fund the construction of water tanks in rural Uganda. One water tank was built in the rural region around Bukedea, Eastern Uganda. It is estimated that 300 children have benefited from this tank as well as the others previous built before the charity was registered.

We have also have been investigating the use of small scale water filters for use in school class rooms. We have installed several in a primary school to understand their benefits and if they are used.

The COVID-19 pandemic had a severe impact on our ability to conduct charitable operations, however some ongoing maintenance and planning for future work was achieved through this time.

Brief statement of the charity's policy on reserves

The cash in the bank at the end of the year was £6,252.

The charity does not have a reserves policy.

If funds are not available, water tanks will not be built.

Details of any funds materially in deficit

The charity is not in deficit.
