Section D

Achievements and performance

Summary of the main achievements of the charity during the year

Following on from a street based outreach, from early January 2019 we had the use of large room in a local church.

This allowed us to expand our service provision from seeing 30-40 people on the streets, to now include up to 60-70 people including rough sleepers and other vulnerable people who were housed.

With a corresponding increase in the number of volunteers we were able to maintain a service five nights a week, all supported by donations from local shops and members of the public.

We moved into 2020 feeling we were beginning to make more of a difference in people's lives and then the Covid pandemic arrived.

We returned to a street based outreach with a reduced number of volunteers due to several needing to shield for themselves and their family.

When central government set a requirement for all homeless people to be 'off the streets' we were able to play a key role alongside other agencies and provided food and clothing for those that were initially accommodated in a local hotel.

As people moved onto their own house or flat arranged by Wolverhampton council we continued to provide support throughout the initial pandemic lockdown by delivering regular food parcels direct to their home.

As the pandemic began to recede in severity we continued to provide support for those who were in accommodation but struggling, particularly as the cost of living crisis began to be felt more keenly.

We also saw a large reduction in the number of volunteers during this period with some people still cautious of Covid but we continued to provide our services with a handful of volunteers, including trustees.

During Covid many of our volunteers stopped volunteering for various reason, including the health risk and changes in our provision leaving just a handful still volunteering, including trustees.

As the pandemic caused by Covid began to recede, many former volunteers didn't return. And we are beginning the process of winding down the charity and disbursing funds to organisations with similar aims,

Section E Financial review

Brief statement of the charity's policy on reserves

Thanks to some generous private financial donations we were able to maintain our cash reserves which will help us to secure premises we can operate from which will allow us to provide a better level of support for more people.

Details of any funds materially in deficit
