Trustees' Annual Report

Covering the period from April 01st 2024 to March 31st 2025

Charity name: Skiggle

Charity registration number: 1185108

Aims and objectives

The constitution states that Skiggle's objective is "the relief of disabled persons in the UK".

This is achieved through the creation and maintenance of a mutual support network comprising disabled people and their carers. Skiggle's members use the charity to redistribute surplus medical consumables and provide emergency supply of consumables to those in need.

Activities

SOS messaging service - where members can request urgent care essentials immediately, in unforeseen circumstances, from other member's surplus supplies. The service uses geolocation technology to direct SOS messages to members with a limited radius of the member asking for help. All SOS requests are vetted by our team to ensure they comply with our terms and conditions e.g. the service can't be used for medications.

Marketplace where items can be bought, sold or offered for free. We have strict terms and conditions relating to the movement of products which must be followed. The marketplace includes our Bereavement Angel, an icon available for those needing to use the site due to personal loss. Any items which were originally provided by the NHS can only be offered free of charge.

Charitable activities – fundraising to Skiggle running costs, service improvements and promotion of the charity to grow its membership.

Achievements in the reporting period

Skiggle's membership continued to grow significantly. We now have over 24,000 members. The increasing membership means we can provide better coverage for SOS requests and we are able to make use of otherwise surplus equipment and consumables through the marketplace.

We have also supported 155 SOS requests in the last 12 months. This brings the total number of SOS requests supported since the charity was formed to 812.

Although we can't accurately measure the turnover of the Skiggle marketplace, there has definitely been an increase in activity during the reporting period. We estimate that approximately £3m of surplus NHS consumables and equipment was redistributed in the year. If it wasn't for Skiggle, most of the consumables would otherwise have been sent to landfill.

Although NHS supply chains have begun to recover from the after effects of the COVID pandemic, we are still seeing numerous shortages. This has meant that many vulnerable people have been struggling for vital supplies such as suction catheters, ventilation kits, specialist feeds and many other items. The Skiggle marketplace and SOS service have been used extensively, as a result we have also seen a number of NHS professionals using Skiggle when the NHS supply chain has failed.

Our social media platforms have brought awareness to the charity and we have successfully achieved many written press releases and a popular engagement with our membership.

We have continued to upgrade website security to protect our vulnerable members. We have had a high profile problematic member which has challenged our security system. Fortunately, we attracted positive publicity on social media by tackling the problem (boosting our membership). Our new security upgrade uses technology from within the banking and gambling sectors.

Fundraising performance

Overall, our fundraising performance is doing well with member contributions up from the previous year. Also donations from people wanting to support such a worthwhile charity We expect to improve our fundraising performance going forward.

Structure, governance and management

The charity is governed by a constitution which was last updated on 2nd June 2023.

There must be at least 3 charity trustees. If the number falls below this minimum, the remaining trustee or trustees may only act to call a meeting of the charity trustees or appoint a new charity trustee.

Apart from the first charity trustees, every trustee must be appointed by a resolution passed at a properly convened meeting of the charity trustees.

In selecting individuals for appointment as charity trustees, the charity trustees must have regard to the skills, knowledge and experience needed for the effective administration of the CIO.

Any items which were originally provided by the NHS can only be offered free of charge.

Charitable activities – fundraising to Skiggle running costs, service improvements and promotion of the charity to grow its membership.

Achievements in the reporting period

Skiggle's membership grew by the largest amount since the charity was formed; we attracted just under 8,000 new members in the year. This means we now have under 18,000 members. The increasing membership means we can provide better coverage for SOS requests and we are able to make use of otherwise surplus equipment and consumables through the marketplace.

We also supported 121 SOS requests, again this is a record for the year. This brings the total number of SOS requests supported since the charity was formed to 656.

Although we can't accurately measure the turnover of the Skiggle marketplace, there has definitely been an increase in activity during the reporting period. We estimate that we have exened £2m of surplus NHS consumables and equipment was redistributed in the year. If it wasn't for Skiggle, most of the consumables would otherwise have been sent to landfill.

In the reporting period, NHS supply chains have continued to suffer with the after effects of the COVID pandemic. This has meant that many vulnerable people have been struggling for vital

supplies such as suction catheters ventilation kits specialist feeds and many other items. The Skiggle marketplace and SOS service have been used extensively as a result we have also seen a number of NHS professionals using Skiggle when the NHS supply chain has failed.

Our social media platforms have brought awareness to the charity and we have successfully achieved many written press releases and a popular engagement with our membership.

We have also implemented a major new security update to protect our vulnerable members. We have had a problematic member which has challenged our security system.

Fundraising performance

Overall, our fundraising performance is lower than previous years, but we have been impacted by the need to appoint two new trustees after two of our former trustees stood down. We expect to improve our fundraising performance going forward.

Structure, governance and management

The charity is governed by a constitution which was last updated on 2nd June 2023.

There must be at least 3 charity trustees. If the number falls below this minimum, the remaining trustee or trustees may only act to call a meeting of the charity trustees or appoint a new charity trustee.

As this affected the charity manager and her son directly, the charity took a stand on behalf of all it's members and launched a petition and survey with the view to appealing to UK Government to have this process</p>

		<p>overturned so that the community have their basic human needs restored and vital equipment available to them. Petition reached over 1500+ signatures and comments of support.
