

Coordinators Report Financial 2025

2024/25 has been a lean year on the income front for the scheme.

As we stated last financial year, we are now solely reliant on grants as we are unable to cover events and generate an income that way.

We are looking to open up recruitment to new applicants by year end which will increase our expenditure for uniforms and equipment. However we are now looking to approach the grants sector with increased enthusiasm to cover these costs.

Hopefully the group will increase to around 10 active responders with the addition of other non patient facing volunteers helping to run the group.

Leicester Community First Responders

Accounts from 1st April 2024 to 31st March 2025
