

Unfortunately Al-Hunafa Charity Organisation was not able to carry out the duties we intended when initiating the Charity due to the outbreak of the pandemic. The results of our inactivity were that the charity remained dormant throughout the entire pandemic from the beginning of March 2020. We were successfully able to recommence with some of our intended activities as of Friday 28th of January, and hope to return to normality with our activities slowly over the coming year - pandemic situation allowing.

We have initially reconvened our public community gatherings once a fortnight to further our objective of community cohesion & education.
