## TRUSTEE ANUAL RETURE FOR THE PERIOD 14/6/2024 - 13/06/2025

**Charity Name: Children Matter Foundation**

**Charity Number:1186168**

**Overview:** Children Matter Foundation is a UK-based charitable organization dedicated to transforming the lives of disadvantaged children in Oyo State, Nigeria, through education. Our focus is to empower children up to the age of 16 by improving access to quality education. We believe that education is a powerful tool for breaking the cycle of poverty and creating lasting change. Our person-centered approach concentrates on a specific region in Nigeria, ensuring our efforts are impactful and tailored to the needs of the local community.

**Mission:** Our mission is to promote and improve access to quality education for disadvantaged children up to age 16 in Oyo State, Nigeria. We are committed to supporting out-of-school children and those at risk of losing their school place due to economic barriers, by providing the resources they need to stay in education. Our goal is to empower these children through education, helping them to reach their full potential and contribute to the development of their communities.

**Vision:** Children Matter Foundation envisions a future where every child in Oyo State has the opportunity to receive a quality education that empowers them to succeed and escape poverty. We aim to create a safe and nurturing educational environment, with modern facilities and resources, where all children, regardless of their socio-economic status, can learn, grow, and thrive.

### **Values:**

**Empowerment:** Empowering children to become agents of change in their lives and communities through education.

**Equality:** Committed to providing equal educational opportunities for all children, regardless of their socio-economic background.

**Collaboration:** Building strong partnerships with local schools, educators, and communities to create meaningful impact.

**Inclusivity:** Valuing diverse perspectives and ensuring our programs are accessible to all children in need.

**Integrity:** Conducting all our actions with transparency, honesty, and accountability.

**Initiatives:** Children Matter Foundation focuses on addressing the educational challenges faced by disadvantaged children in Oyo State through a variety of initiatives: -

**Providing Essential Learning Materials:** Supplying children with educational materials, school uniforms, bags, and shoes to ensure they are prepared for school. -

**Building a Purpose-Built School:** Establishing a modern educational facility equipped with up-to-date technology and resources to enhance learning. -

**Supporting School Fees:** Assisting with the payment of school fees for children who are at risk of dropping out due to financial constraints. -

**Holistic Child Assessments:** Conducting comprehensive assessments with input from teachers and parents to determine each child's unique educational needs.

**Impact:** The impact of Children Matter Foundation is already visible in the lives of the children we serve. By providing necessary resources and support, we are opening up new opportunities for children who might otherwise be excluded from education. Our efforts are not only improving individual futures but are also contributing to the broader social and economic development of Oyo State.

**Unique Approach:** Our targeted approach sets Children Matter Foundation apart. By focusing solely on Oyo State, we ensure our resources are concentrated where they are needed most. We work closely with local schools, teachers, and communities to identify children who require assistance and tailor our support to meet their specific needs. This localized strategy allows us to make a significant impact in the lives of children and their communities.

**Background and Inspiration:** The foundation’s work is deeply personal to its founder, who grew up in Oyo State and witnessed firsthand the challenges and disparities in access to quality education. Inspired by childhood experiences and volunteer work in local Sunday schools, the founder was driven to give back to the community and help children who, despite their eagerness and potential, face significant barriers to education. Through market research and direct conversations with teachers and headmasters in Oyo State, the foundation has confirmed the urgent need for its services.

**Challenges in the Nigerian Education System:** Nigeria faces a significant challenge with an estimated 10 million children aged 5 to 14 not in full-time education, despite compulsory education laws. In Oyo State, underfunded government schools, outdated curricula, poor facilities, and frequent teacher strikes further hinder access to quality education. Private schools, while offering better resources, are often unaffordable for families living in poverty. Children Matter Foundation seeks to bridge this gap by creating equal opportunities for all children to receive a quality education.

**Global Goal Alignment:** Children Matter Foundation aligns with Global Goal 4: Quality Education for All, by working to ensure inclusive and equitable quality education and promoting lifelong learning opportunities for all. Our initiatives are designed to overcome the educational barriers faced by disadvantaged children in Oyo State, supporting them to achieve their full potential.

**CHILDREN MATTER FOUNDATION**

England & Wales - Charity number 1186168

---

# Accounts

---

## **TRUSTEE ANUAL RETURE FOR THE PERIOD 14/6/2022 - 13/06/2023**

**Charity Name: Children Matter Foundation**

**Charity Number:1186168**

**Overview:** Children Matter Foundation is a UK-based charitable organization dedicated to transforming the lives of disadvantaged children in Oyo State, Nigeria, through education. Our focus is to empower children up to the age of 16 by improving access to quality education. We believe that education is a powerful tool for breaking the cycle of poverty and creating lasting change. Our person-centered approach concentrates on a specific region in Nigeria, ensuring our efforts are impactful and tailored to the needs of the local community.

**Mission:** Our mission is to promote and improve access to quality education for disadvantaged children up to age 16 in Oyo State, Nigeria. We are committed to supporting out-of-school children and those at risk of losing their school place due to economic barriers, by providing the resources they need to stay in education. Our goal is to empower these children through education, helping them to reach their full potential and contribute to the development of their communities.

**Vision:** Children Matter Foundation envisions a future where every child in Oyo State has the opportunity to receive a quality education that empowers them to succeed and escape poverty. We aim to create a safe and nurturing educational environment, with modern facilities and resources, where all children, regardless of their socio-economic status, can learn, grow, and thrive.

### **Values:**

**Empowerment:** Empowering children to become agents of change in their lives and communities through education.

**Equality:** Committed to providing equal educational opportunities for all children, regardless of their socio-economic background.

**Collaboration:** Building strong partnerships with local schools, educators, and communities to create meaningful impact.

**Inclusivity:** Valuing diverse perspectives and ensuring our programs are accessible to all children in need.

**Integrity:** Conducting all our actions with transparency, honesty, and accountability.

**Initiatives:** Children Matter Foundation focuses on addressing the educational challenges faced by disadvantaged children in Oyo State through a variety of initiatives: -

**Providing Essential Learning Materials:** Supplying children with educational materials, school uniforms, bags, and shoes to ensure they are prepared for school. -

**Building a Purpose-Built School:** Establishing a modern educational facility equipped with up-to-date technology and resources to enhance learning. -  
**Supporting School Fees:** Assisting with the payment of school fees for children who are at risk of dropping out due to financial constraints. -

**Holistic Child Assessments:** Conducting comprehensive assessments with input from teachers and parents to determine each child's unique educational needs.

**Impact:** The impact of Children Matter Foundation is already visible in the lives of the children we serve. By providing necessary resources and support, we are opening up new opportunities for children who might otherwise be excluded from education. Our efforts are not only improving individual futures but are also contributing to the broader social and economic development of Oyo State.

**Unique Approach:** Our targeted approach sets Children Matter Foundation apart. By focusing solely on Oyo State, we ensure our resources are concentrated where they are needed most. We work closely with local schools, teachers, and communities to identify children who require assistance and tailor our support to meet their specific needs. This localized strategy allows us to make a significant impact in the lives of children and their communities.

**Background and Inspiration:** The foundation's work is deeply personal to its founder, who grew up in Oyo State and witnessed firsthand the challenges and disparities in access to quality education. Inspired by childhood experiences and volunteer work in local Sunday schools, the founder was driven to give back to the community and help children who, despite their eagerness and potential, face significant barriers to education. Through market research and direct conversations with teachers and headmasters in Oyo State, the foundation has confirmed the urgent need for its services.

**Challenges in the Nigerian Education System:** Nigeria faces a significant challenge with an estimated 10 million children aged 5 to 14 not in full-time education, despite compulsory education laws. In Oyo State, underfunded government schools, outdated curricula, poor facilities, and frequent teacher strikes further hinder access to quality education. Private schools, while offering better resources, are often unaffordable for families living in poverty. Children Matter Foundation seeks to bridge this gap by creating equal opportunities for all children to receive a quality education.

**Global Goal Alignment:** Children Matter Foundation aligns with Global Goal 4: Quality Education for All, by working to ensure inclusive and equitable quality education and promoting lifelong learning opportunities for all. Our initiatives are designed to overcome the educational barriers faced by disadvantaged children in Oyo State, supporting them to achieve their full potential.

**CHILDREN MATTER FOUNDATION**

England & Wales - Charity number 1186168

---

# Accounts

---

## **TRUSTEE ANUAL RETURE FOR THE PERIOD 1/6/2021 - 31/06/2022**

**Charity Name: Children Matter Foundation**

**Charity Number:1186168**

### **Objectives and Aims**

The charity will aim to promote and improve the access to quality education for disadvantaged children up to age 16 in Oyo State Nigeria. It will remain person-centred and concentrate on one area in Nigeria. Therefore, giving the best opportunity to empower the children who need it most in a set area.

Even though education is compulsory, it is estimated that there are still 10 million Nigerian children between the ages of 5 to 14 who are not in full-time education. therefore, supporting out of school children or children at risk of losing their school place to remain in education poses a massive challenge.

The service is to provide educational support for disadvantaged children by the means of buying educational materials, school uniform, school bags and school shoes.

The education deprivation in western Nigeria is driven by a number of factors which include economic barriers and poverty. Education is fundamental for disadvantaged children to support them to climb out of poverty. Children Matter Foundation exists to create a bright future, which will be full of opportunities for children that have been identified as requiring support through our assessment process within Oyo State, Nigeria. This will be done by providing them with a fully purpose-built school, that has up to date technology and useful school materials to promote their learning. Every assessment takes a holistic view of each child's life and some children may not need educational fees paid but require access to educational materials, which the charity can also support with.

The charity will be focusing on Oyo State Nigeria. This is the area I grew up, whereas a child I was able to make friends, where I went to school. where I went to church and I was able to see the good and worse neighbourhoods. The market research that I have been able to conduct is by talking to teachers and headmasters in a number of schools in Oyo State, who were able to confirm how big this issue is and is an issue which is continuing to grow year upon year.

Growing up attending church. I was lucky enough to have the opportunity to volunteer and assist with Sunday schools. This provided me with experience of working with children to teach them the bible studies. In doing this, I was able to see how many children who came to Sunday school who so eager to learn and some of them were so clever but yet they were unable to attend state school simply because their parents were not able to afford this. Since then, after starting my social and community development course, it has relit a passion in me to give back to my community and support the disadvantaged children.

As the charity is initially only focusing on one state in Nigeria we will be working closely with the schools within this area to let them know the purpose of our charity and what support we can provide. Schools will be able to refer children to the charity who they consider would benefit from the support services that we can provide. An assessment will be carried out on the child with a teacher or their parents present to determine what support that child may need. This could range from school equipment for lessons, school clothes to even having their school fees paid to ensure they remain in education.

Children matter foundation aim to solve Global goal 4 which seeks to provide quality education for all. Many children are restricted from accessing quality education due to the Nigerian education system. Most schools owned by the government are underfunded. They are generally cheaper for a child to attend but they lack quality facilities and learning tools. Many government school building's are falling apart and the classrooms are not in good condition. The government teachers are not well paid and are usually on labour strike at least one a year, especially in Oyo Sate for the past 5 years. There are many private schools however, these are often more expensive. These schools are usually out of reach of Nigerian children, who live in poverty. The Nigerian education curriculum is based on universal basic education which is out of date and restricts the number of digital skills and learning. Therefore, my Idea aims to create a safe space for disadvantaged children through access to equal and quality education in the rural community in Oyo State Nigeria.

All completed assessments will then be discussed monthly in the trustee's meeting to determine if the need of the child can be met by the charity.

**CHILDREN MATTER FOUNDATION**

England & Wales - Charity number 1186168

---

# Accounts

---

# **TRUSTEE ANUAL RETURE FOR THE PERIOD 1/10/2020 - 31/06/2021**

**Charity Name: Children Matter Foundation**

**Charity Number:1186168**

## **Objectives and Aims**

The charity will aim to promote and improve the access to quality education for disadvantaged children up to age 16 in Oyo State Nigeria. It will remain person-centred and concentrate on one area in Nigeria. Therefore, giving the best opportunity to empower the children who need it most in a set area.

Even though education is compulsory, it is estimated that there are still 10 million Nigerian children between the ages of 5 to 14 who are not in full-time education. therefore, supporting out of school children or children at risk of losing their school place to remain in education poses a massive challenge.

The service is to provide educational support for disadvantaged children by the means of buying educational materials, school uniform, school bags and school shoes.

The education deprivation in western Nigeria is driven by a number of factors which include economic barriers and poverty. Education is fundamental for disadvantaged children to support them to climb out of poverty. Children Matter Foundation exists to create a bright future, which will be full of opportunities for children that have been identified as requiring support through our assessment process within Oyo State, Nigeria. This will be done by providing them with a fully purpose-built school, that has up to date technology and useful school materials to promote their learning. Every assessment takes a holistic view of each child's life and some children may not need educational fees paid but require access to educational materials, which the charity can also support with.

The charity will be focusing on Oyo State Nigeria. This is the area I grew up, whereas a child I was able to make friends, where I went to school, where I went to church and I was able to see the good and worse neighbourhoods. The market research that I have been able to conduct is by talking to teachers and headmasters in a number of schools in Oyo State, who were able to confirm how big this issue is and is an issue which is continuing to grow year upon year.

Growing up attending church, I was lucky enough to have the opportunity to volunteer and assist with Sunday schools. This provided me with experience of working with children to teach them the bible studies. In doing this, I was able to see how many children who came to Sunday school who so eager to learn and some of them were so clever but yet they were unable to attend state school simply because their parents were not able to afford this. Since then, after starting my social and community development course, it has relit

a passion in me to give back to my community and support the disadvantaged children.

As the charity is initially only focusing on one state in Nigeria we will be working closely with the schools within this area to let them know the purpose of our charity and what support we can provide. Schools will be able to refer children to the charity who they consider would benefit from the support services that we can provide. An assessment will be carried out on the child with a teacher or their parents present to determine what support that child may need. This could range from school equipment for lessons, school clothes to even having their school fees paid to ensure they remain in education.

Children matter foundation aim to solve Global goal 4 which seeks to provide quality education for all. Many children are restricted from accessing quality education due to the Nigerian education system. Most schools owned by the government are underfunded. They are generally cheaper for a child to attend but they lack quality facilities and learning tools. Many government school building's are falling apart and the classrooms are not in good condition. The government teachers are not well paid and are usually on labour strike at least one

a year, especially in Oyo State for the past 5 years. There are many private schools however, these are often more expensive. These schools are usually out of reach of Nigerian children, who live in poverty. The Nigerian education curriculum is based on universal basic education which is out of date and restricts the number of digital skills and learning. Therefore, my idea aims to create a safe space for disadvantaged children through access to equal and quality education in the rural community in Oyo State Nigeria.

All completed assessments will then be discussed monthly in the trustee's meeting to determine if the need of the child can be met by the charity.

**Money has been spend especially during the Covid Period to support children in Ibadan Oyo State Nigeria who are unable to attend school due to school closure because of the pandemic**
