

RWB Environment Trust Annual Report

for period 1st April 2022 to 31 March 2023

RWB Environment Trust

www.ecorwb.org

The Royal Wootton Bassett Community Nature Reserve continues to be the main activity of the charity. Clearance of the further areas of brambles was completed and grants received from the local Rotary club, the Co-op and Wiltshire Council enabled the improvement of paths through the site, the purchase of equipment for maintenance and the planting of a small community orchard of heritage fruit trees, together with other trees on the site.

On 2nd September 2022 the trust was renamed 'RWB Environment Trust' to facilitate further projects within the existing environmental Objects of the charity. Three additional Trustees with appropriate experience were recruited and our pool of volunteers has expanded. We are now promoting various projects focused on reducing greenhouse gas emissions and waste within Royal Wootton Bassett, together with a programme of tree and hedgerow planting to improve several green spaces around the town. We are also promoting the development of a network of cycling and walking routes.
