

We are a very small charity and have found it to be another difficult year with continuing Covid restrictions and bird flu, causing the cancellation attending many shows and and events.

Fortunately we have continued to continue and have had a steady flow of animals and birds arriving at the centre for treatment and rehabilitation.

Work has been carried out at the site to improve pathways, fencing, gates, new cages etc.

Funds have generally been affected by the pandemic because of cancellation of events but we did receive a donation which helped us to continue with our work along with generous donations from the public of money, food, bedding etc.

Also we run a 100 Club, people pay for a yearly subscription and every month numbers are drawn and three lucky winners receive a prize.

Our aim is to carry on with our work alongside improving the centre with better and more cages.

WILD TOUCH ACCOUNTS FOR 2021/22

	INCOMING	OUTGOING
<u>Charity Account</u>
