

Ravensworth Community Bowling Club

Annual Report 2023 – 2024

The 2023 bowling season started with a healthy membership, and was a successful season for many of our members, despite frequent delays and cancellations due to the weather.

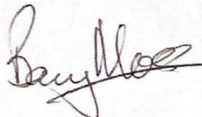

Members continued to maintain the bowling green, and the bowling surface continues to improve.

We received a grant from Greene King "Proud to Pitch In" fund, and were able to complete our outdoor raised decking area and access ramp, improving access to the pavilion for our less able members and providing an ideal area for spectators.

We also received a grant from the National Lottery for the purchase of a new lawn mower and accessories, although the new equipment arrived too late to be used during the playing season.

Our gardening club continued to maintain the area around the bowling green and car parking area, which was used by Sky TV as a base while filming on location.

Our bowling teams and individual members were successful in a number of local and regional competitions, and were presented with various cups and prizes by the Mayor of Gateshead at our finals day in August.
