

Ravensworth Community Bowling Club

Annual Report 2024 – 2025

The 2024 bowling season was another successful one for the club. Members benefited from a reduction in membership fees, and our policy of a free year's membership for new bowlers resulted in 6 new members joining the club.

Members were able to use the new mower, bought with the help of National Lottery funding, to maintain the bowling green. The new machine has significantly reduced the time needed to complete routine maintenance of the bowling green.

The club was successful in both local and regional competitions in the Durham Bowling Federation and Northumberland and Durham Bowling Association leagues, and have joined the South Tyneside league. Individual members were also successful in local knockout competitions.

Our gardening club continue to operate year round, and as well as looking after the area around the bowling green and car park, have replaced the wood edging to the green and have repaired and extended the stone wall on the East side of the bowling green to create a raised seating area.
