

You Entrepreneur Annual Report

Charity Number: 1187559
2022

Mission and Objectives

You Entrepreneur was established in 2019 with the aim to teach and spread entrepreneurship throughout high school students within the UK.

We structured a course aimed to breakdown and educate students on starting their own venture. A course structure of 15 hours which we would bring to high schools and teach, interactively.

6 classes in total, 5 being team-based activities aimed to assist the student in coming up with a concept which they will then present in the final class.

The course would have a strong emphasis on team building, co-working and co-operation.

Business professionals would be selected to join the 5 first classes to present and help teach the classes, bringing knowledge and first-hand, real-world experience to You Entrepreneur, inspiring students, and guiding them through the business process.

You Entrepreneur aims to show students in a fun and digestible format that starting your own venture *is* a possibility. You Entrepreneur will guide you, give you some of the tools, mentality and know-how to begin.

You Entrepreneur Endeavours

- 2022

You Entrepreneur began in 2019, both the concept and inception of the Charity (CIO). Talks with schools also started and You Entrepreneur was on track to begin in the 2020 school year, having spoken to several school trusts.

Due to the Covid-19 Pandemic, You Entrepreneur's rollout to schools in the UK was halted and constant in and out lockdowns, restrictions, school closures did not allow us to move forward.

You Entrepreneur was unable to restart its endeavours within this period.

You Entrepreneur made a choice to delay fundraising and remain inactive until the school climate returns to a level of normality.

We believe that You Entrepreneur will begin fundraising and operating once again in 2023.

Discussions with schools and trusts have continued and we believe that 2023 You Entrepreneur will be active and functioning in the UK in a small capacity.

Accounts

You Entrepreneur progress did not yet open an official charity bank account.

Nor started to accept donations.

Therefore; annual accounts accrued a total of gross 0.

In 2023 You Entrepreneur aims to restart operations and once again become active to continue our mission to introduce high school students into the world of Entrepreneurship
