The system enables, among other things, the harmonizing of individual employee objectives with those of the organization, the measuring of employee potential and work performance and the support of employee improvement by working with them on their development needs. The performance evaluation also allows the organization to assess the quality of human resources, note important information concerning expectations and needs and clarify decisions concerning transfers or work assignments. The annual performance evaluation seeks specifically to:

- a. promote communication between employees and their supervisors.
- b. clarify expectations concerning objectives and performance.
- c. Improve employee performance through on-going monitoring and feedback.
- d. assess and reward individual performance.
- e. allow employees to express their career aspirations.

The performance evaluation focuses on the individual employee in relation to the tasks and responsibilities assigned to him/her. It is not necessarily a comparison of one employee's performance with that of another. Thus, the employee's work performance is to be assessed in relation to absolute procedures, that is, according to the evaluator's performance criteria and not according to relative procedures.

The annual performance evaluation shall be based on documentation from previous stages of the process, of an employee's work record. The evaluation addresses two fundamental questions:

- The first relates to the past and involves verifying what was accomplished qualitatively and quantitatively during the year.
- The second relates to the future and consists of identifying means to be considered to ensure the employee continues to grow and develop.

The performance evaluation form shall include all the sections needed for the evaluation, including a performance level classification and a definition of each of these levels.

The annual performance evaluation may have financial impact on salaries. It shall be the preferred tool to evaluate the employee's performance and take remedial action if necessary.

8. Training & Development

The main objective of training and development shall be to help develop key competencies which enable individuals to perform current or future jobs successfully. In this regard, all

training and development programs organized by the HR Section will be geared towards the following objectives:

- a) Strengthening the job skills/knowledge of employees
- b) Improving operational efficiency and productivity; and/or
- c) Developing the potential of employees for maximizing mutual benefit to the employee and organization.

For all new appointments the capacity need assessment will be done at the time of completion of probation period and required actions will be agreed between the employee, the supervisor, and the HR Section.

The Trust invites all the managers and supervisors to assess capacity needs, preferably at the time of performance appraisal or at any other appropriate time in relation to the specific job objectives and functions of their subordinate employees.

The immediate supervisors are expected to take active part and pursue staff for their capacity building plans including identification of capacity building needs, planning, implementing, and evaluating the impact of capacity building.

9. Bond

As part of the staff and organizational development activities, the Trust may, at times, decide to send a designated staff member for trainings and/or further studies. The Trust will bear the full/partial costs of the trainings/studies for this activity. However, the designated staff sponsored for the trainings/studies is required to sign a bond with the Trust that requires him/her to complete the full tenure of working with the organization upon return or else reimburse the expenditure incurred on him/her in this regard.

- 6.1 All applications will be subject to an assessment by the grant sub-committee to ensure they meet the criteria for grant funding in accordance with this policy.
- 6.2 The trustees will consider all applications that meet the grant funding criteria at a trustee meeting. The trustees will take into account any recommendations made by the grant sub-committee to award or decline to award a grant.
- 6.3 The trustees aim to provide all applicants with written confirmation of the outcome of the application within three months of the date of the application

RISK MANAGEMENT POLICY 2020

1. Introduction

The risk management of our staff and field teams is a key responsibility of our organisation. We accept a duty of care for all staff and field teams. As an organisation, mandated to support education, healthcare, livelihood, poverty alleviation, culture, renewable energy, climate change, and sustainable development, we are committed to set a good example.

The key to effective risk management is the creation of a culture the Trust will work to create such an environment. Each staff and field team member has a responsibility for managing their own risks and that of others. We believe each staff and field team member has a duty to manage and mitigate all risks – proactively and frankly.

2. Aim of the Policy

The aim of the policy is to increase awareness of all staff and field teams involved to create a culture of work efficiency and productivity, to fulfil the objectives that our work aims to achieve.

3. Approach

The Trust subscribes to the principles of the 'People In Aid Code of Good Practice' and believes that staff comprise the most important resource for the communities we serve. Effective safety and security policies and procedures are designed to ensure that the work of the organization continues even in challenging environments.

Every employee is however expected to bring in notice of his/her seniors the risk/challenge being faced, so that timely measures could be initiated to mitigate the risk / challenge.

4. Extent of the Policy and Protocols

All staff members and all individuals contracted by the Trust on a professional or voluntary basis working with the Trust are covered under this policy and protocols.

The policy does not cover family members of the above individuals and staff under contract with other NGOs or institutions. People are the organisation's highest priority. The policy and protocols cover only people, not material and financial assets.

5. Nature of the Policy and Protocols

Adherence to the policy and protocols is a requirement. Only in life threatening situations do team leaders have the authority to bypass these to a certain extent. Failure to adhere to the policy and protocols may lead to non-employment by the Trust in the future.

All staff and field team members covered under the policy and protocols have the right to decline to enter high risk environments without impacting employment. They also have the right to leave locations where their personal assessment is that their safety and security or that of others is being compromised.

6. Code of Conduct

This Code of Conduct seeks to guard our standards of behaviour. Rather, it seeks to maintain the high standards of independence, effectiveness, and impact to which the Trust aspires.

6.1 Respect and Care for the Participant/Client/Beneficiary

We shall adopt a professional association with participants/clients and respect their culture, beliefs, and background. We develop a safe learning environment, where participants / clients feel comfortable to approach us. Training courses can be overwhelming, and participants can get emotional. Controversial topics (such as drugs, abortion, faith, and politics) must be treated with sensitivity.

6.2 Respect for Culture and Custom

We will endeavour to respect the culture, structures and customs of the communities and countries we are working in.

As a team member of the Trust, one is automatically a representative of the organisation. The team member will act as an “ambassador” as much as a trainer, consultant, teacher, service provider, teacher, protection worker or outreach staff. Whenever a team member travels to the field representing the Trust, her/his behaviour will be subject to scrutiny by both local NGO staff as well as the wider public in the host community.

The Trust and its representatives will respect the law and the culture of the host community. This implies that cultural rules concerning expected dress codes, non-use of alcohol and other restrictions are respected to a sensible degree. Before each travel the individual has the obligation to study the context and the cultural laws of the community of destination.

6.3 Adherence to International Standards

The Trust is committed to many international program standards. For each intervention it is the duty of the senior management to make sure the relevant standards are known to all team members. Many security issues arise from lack of knowledge of these standards.

6.4 Continuous improvement

We continuously strive to maintain and improve the standards of our activities. The Trust’s representatives shall provide honest feedback to the head office. Complaints shall be addressed to the HR Manager, not to participants or clients.

7. Risk Rating System

All Field Offices are rated according to the assessed level of risk by the senior management. The risk rating categories will be made available to all Team Leaders / Heads of Institutions. Security Plans will be designed in the context of the assigned risk rating for that location. Security Plans will be flexible enough to cope with changes in risk ratings from time to time.

8. Managing Risks

The risks involved in access to communities and implementation of desired initiatives would be mitigated through several practical measures, to ensure local buy-in. The initiatives would include the following:

- Effective linkage and liaison with public sector authorities and institutions
- Working with local implementation partners having access to the field areas
- Promoting access of 'Out of School Children' (OOSC) to schooling network through local implementation partners
- Promoting quality education through e-Learning platform and online teaching facilities
- Encouraging Tele-health services in the remote areas where doctors are not available even in a radius of like 100 kilometres or so
- Supporting local entrepreneurs and skilled workers to build capacity of local youth and workforce for the skills / jobs in demand
- Empowering women to seek knowledge, preserve cultural heritage, and deploy their potential to generate more funds for economic inclusion and social uplift.
- Resorting to technology-based implementation models and monitoring tools where needed.

9. Crisis Management

TF defines as a crisis any unstable situation of extreme danger or difficulty, which harmfully affects or can harmfully affect the organisation and/or its representatives.

10. Evacuation

Planning and preparation for evacuation is a key part of any security plan. Preparation should also be made for 'hibernation' - when it is safer to stay in a location rather than to attempt to move.

In an evacuation TF's aim is to return staff to their home base, or place of safety. Notwithstanding legal obligations, we endeavour to undertake, as far as reasonably practicable, to move all staff to a place of safety, if they are at risk directly because of their work with TF, their nationality, their ethnic origin or are subject to a particularly serious or targeted threat. All staff should be made aware of their own and TF's responsibilities in advance. Staff who are evacuated will, as far as practicable, be offered a formal debrief and counselling if deemed appropriate.

- the monetary value can be measured with sufficient reliability.

Yes*

☒**Offsetting**

There has been no offsetting of assets and liabilities, or income and expenses, unless required or permitted by the FRS 102 SORP or FRS 102.

Yes*

☒**Grants and donations**

Grants and donations are only included in the SoFA when the general income recognition criteria are met (5.10 to 5.12 FRS102 SORP).

Yes*

☒

In the case of performance related grants, income must only be recognised to the extent that the charity has provided the specified goods or services as entitlement to the grant only occurs when the performance related conditions are met (5.16 FRS 102 SORP).

Yes*

☒**Legacies**

Legacies are included in the SOFA when receipt is probable, that is, when there has been grant of probate, the executors have established that there are sufficient assets in the estate and any conditions attached to the legacy are either within the control of the charity or have been met.

Yes*

☐**Government grants**

The charity has received government grants in the reporting period

Yes*

☐**Tax reclaims on donations and gifts**

Gift Aid receivable is included in income when there is a valid declaration from the donor. Any Gift Aid amount recovered on a donation is considered to be part of that gift and is treated as an addition to the same fund as the initial donation unless the donor or the terms of the appeal have specified otherwise.

Yes*

☒**Contractual income and performance related grants**

This is only included in the SoFA once the charity has provided the related goods or services or met the performance related conditions.

Yes*

☐**Donated goods**

Donated goods are measured at fair value (the amount for which the asset could be exchanged) unless impractical to do so.

Yes*

☐

The cost of any stock of goods donated for distribution to beneficiaries is deemed to be the fair value of those gifts at the time of their receipt and they are recognised on receipt. In the reporting period in which the stocks are distributed, they are recognised as an expense at the carrying amount of the stocks at distribution.

Yes*

☐

Donated goods for resale are measured at fair value on initial recognition, which is the expected proceeds from sale less the expected costs of sale, and recognised in 'Income from other trading activities' with the corresponding stock recognised in the balance sheet. On its sale the value of stock is charged against 'Income from other trading activities' and the proceeds from sale are also recognised as 'Income from other trading activities'.

Yes*

☐

Goods donated for on-going use by the charity are recognised as tangible fixed assets and included in the SoFA as incoming resources when receivable.

Yes*

☐

Gifts in kind for use by the charity are included in the SoFA as income from donations when receivable.

Yes*

☐**Donated services and facilities**

Donated services and facilities are included in the SOFA when received at the value of the gift to the charity provided the value of the gift can be measured reliably.

Yes*

☐

Donated services and facilities that are consumed immediately are recognised as income with an equivalent amount recognised as an expense under the appropriate heading in the SOFA.

Yes*

☐**Support costs**

The charity has incurred expenditure on support costs.

Yes*

☐**Volunteer help**

The value of any voluntary help received is not included in the accounts but is described in the trustees' annual report.
