1. ACCOUNTING POLICIES

The principal accounting policies adopted, judgements and key sources of estimation uncertainty in the preparation of the financial statements are as follows:

Basis of accounting

The financial statements have been prepared under the Charities Act 2011 and in accordance with the Charities Statement of Recommended Practice (Charities SORP (FRS 102)). The financial statements are drawn up on the historical cost basis of accounting except for the revaluation of freehold land and buildings which are shown at market value.

The financial statements include all transactions, assets and liabilities for which the trustees are responsible in law.

Going Concern

There are no material uncertainties about the charity's ability to continue as a going concern and accordingly the accounts have been drawn up on a going concern basis.

Income recognition

Trading income and voluntary income and donations are accounted for once the charity has entitlement to the income, it is probable the income will be received, and the amount of income receivable can be reliably measured. Income from the recovery of tax on gift aided donations is accounted for in the period to which the relevant donation is received. Grant income is recognised on a receivable basis.

Interest on funds held on deposit is included when receivable and the amount can be measured reliably by the charity; this is normally upon notification of the interest paid or payable by the bank.

Expenditure recognition

Expenditure is accrued as soon as a liability is considered probable, and the amount of obligation can be measured reliably. Longer term liabilities are discounted to present value. The charity is not registered for VAT and accordingly expenditure includes VAT where appropriate.

Charitable expenditure includes those costs in fulfilling the charity's principal objects, as outlined in the Annual Report. These include governance costs and support costs. Governance costs comprise all costs involving the public accountability of the charity and its compliance with regulation and good practice. These costs include costs related to the independent examination and legal fees.

Debtors

Debtors are included at the settlement amount due. Prepayments are valued at the amount prepaid.

Cash at bank and in hand

Cash at bank and in hand includes cash and short term highly liquid investments with a short maturity of three months or less from the date of opening of the deposit.

Creditors and provisions

Creditors and provisions are recognised where the charity has a present obligation arising from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are recognised at their settlement amount.

2. RELATED PARTY TRANSACTIONS

There were no related party transactions in the year.
