# Ubuntu Wildlife Trust

A savanna landscape at sunset. The sky is filled with warm, orange and yellow clouds, with the sun low on the horizon. In the foreground, a single, large acacia tree stands prominently, its branches silhouetted against the bright sky. The ground is a mix of green grass and reddish-brown soil. In the distance, a range of mountains is visible under the hazy light of the setting sun.

# Core Values

**Integrity** – The quality of being honest and having strong moral principles. The state of being whole and undivided. Basically, doing what you say you are going to do, when you say you are going to do it and how you say you are going to do it

**Mindfulness** – The quality or state of being conscious or aware of something. First awareness of self, then others. Being conscious and considered in our approach – when we act, when we speak and how we live.

**Nondisruptive Creation** – Where one's gain does not have to come at the expense of others. A new way of thinking where untouched opportunities abound. We need to alter our perception of fundraising, we should not be competing in this field, we should be leading through creativity. We need to inspire people to give.

**Empowerment** – Firstly by empowering ourselves with the tools and information to make a difference. Then by empowering organisations, groups, communities, and society to make lasting changes, to make better choices, and to create opportunities. Empowerment should be done in transparent, meaningful, and lasting ways.

# Mission Statement

## Mission

To protect, rehabilitate, conserve, and preserve historical habitats of biodiverse value, and associated species, in southern Africa.

## Vision

To become the leading science-based project funding conservation charity defined by the highest ethical standards and driven by our core values.

## Objectives

To secure and protect biodiverse habitats, and associated species, crucial for conservation, preservation, and forming linkages and corridors between existing reserves

To support sustainable and community owned projects in rural communities surrounding critical biodiverse areas that are linked to conservation or enhance the local support for conservation, with particular focus on nature, health, skills development, and engaging education.

*Engagement leads to Involvement leads to Education*

To raise environmental awareness through our projects, and engage a multiple of stakeholders and donors

To inspire and nurture a new generation to connect with the natural world

To remain committed to preventing the illicit wildlife trade and the protection of the natural environment which affects us as a global community through example

To support like-minded implementing partners on the ground in fulfilment of our mission

# Strategic report

# Completed projects

In June 2024, we delivered lucerne to the rhino orphanage to support the feed programme and we continued with the security cost support covering the whole of 2024 and 2025.

# Completed projects

The Ubuntu ProDirect Shining Stars football team have had a fantastic year. In their first year as a competitive team playing against much older and more experienced sides, they made the final of a regional knockout tournament and entered the official league. The league consists of 14 teams, and all other teams are adults with years of competitive football experience behind them. The Shining Stars are all under 18 and still learning the game. However, youthful exuberance and commitment to hard work have left the Shining Stars lying fourth near the end of 2024, with a record of played 7, won 4, drawn 1, and lost 2 – only two league points behind the log leaders.

# Completed projects

The Hluhluwe's under 18 development team on their 17-14 win against Grantleigh.

# Completed Events

In August 2020, we followed on from the previous Charity cricket dys and held our first under 12's tournament.

# Engaging our supporters

Our supporters are central to our success for fundraising and raising awareness throughout the world.

We will continue to use social media, events and our website to engage with them.

We would not be where we are today, making the impact we are without their ongoing support.

# Future projects

## SURVEYS

- Ground dwelling spider survey
- Regional bat survey
- Msinene River fish survey
- Insect survey
- Ant survey
- Pangolin feeding survey

## PROJECTS

- Rhino orphanage support
- The Shining Stars
- Hluhluwe social rugby club support and under 18's playing kit
- HiP anti-poaching unit support
- Hydroponic project in South Africa and Mozambique
- Inhaca football project

# Looking ahead

A man wearing a green short-sleeved shirt, dark sunglasses, and a watch on his left wrist stands in a field of tall, dry grass. He is looking towards the camera. To his left, the back and tail of a large, brown animal, possibly a lion, are visible. The background is a vast, open field of dry grass under a bright sky.

In March 2025 Dumi Zwane officially joined the charity as a trustee

# Looking ahead continued

A man with short, light brown hair, wearing a light blue short-sleeved button-down shirt and blue jeans, is sitting outdoors on a grey patio. He is smiling broadly and looking slightly to his right. His hands are clasped in his lap. The background features a grey wall, a planter box with various green plants and purple flowers, and a wire mesh lantern with a white candle on the patio.

In January 2025 Greig Benson officially became an ambassador for the charity.

# Looking ahead continued

Freddie Fenner in November 2024 became our official photography partner

# Looking ahead

With the proposal to buy the rights to Approx. 5 acres of land on Inhaca Island well underway, we will have a focus on projects in and around Inhaca and look to start up Ubuntu Wildlife Trust Mozambique,. The build will start in 2026

We are looking to set up Ubuntu Wildlife Trust in Australia, led by Sarah and Aidan Glynn.

There are a number of businesses that will be set up around the charity to make it more sustainable in the future by donating some of the profits to the projects.

We will also be looking to grow our corporate donors, event sponsors and individuals looking to raising donations through their own fundraisers.

We will look to take on a dedicated social media and marketing manager to take the pressures off the joint chairman.

# Financial review

The charities first year has total funds received of £13,797.26 and a an expenditure of £12,907.85

# Core Values

**Integrity** – The quality of being honest and having strong moral principles. The state of being whole and undivided. Basically, doing what you say you are going to do, when you say you are going to do it and how you say you are going to do it

**Mindfulness** – The quality or state of being conscious or aware of something. First awareness of self, then others. Being conscious and considered in our approach – when we act, when we speak and how we live.

**Nondisruptive Creation** – Where one's gain does not have to come at the expense of others. A new way of thinking where untouched opportunities abound. We need to alter our perception of fundraising, we should not be competing in this field, we should be leading through creativity. We need to inspire people to give.

**Empowerment** – Firstly by empowering ourselves with the tools and information to make a difference. Then by empowering organisations, groups, communities, and society to make lasting changes, to make better choices, and to create opportunities. Empowerment should be done in transparent, meaningful, and lasting ways.

# Mission Statement

## Mission

To protect, rehabilitate, conserve, and preserve historical habitats of biodiverse value, and associated species, in southern Africa.

## Vision

To become the leading science-based project funding conservation charity defined by the highest ethical standards and driven by our core values.

## Objectives

To secure and protect biodiverse habitats, and associated species, crucial for conservation, preservation, and forming linkages and corridors between existing reserves

To support sustainable and community owned projects in rural communities surrounding critical biodiverse areas that are linked to conservation or enhance the local support for conservation, with particular focus on nature, health, skills development, and engaging education.

*Engagement leads to Involvement leads to Education*

To raise environmental awareness through our projects, and engage a multiple of stakeholders and donors

To inspire and nurture a new generation to connect with the natural world

To remain committed to preventing the illicit wildlife trade and the protection of the natural environment which affects us as a global community through example

To support like-minded implementing partners on the ground in fulfilment of our mission

# **Message from Martyn Randall Chairman of the Trust**

**2022 / 2023 Demonstrated what was predicted in last years annual report and difficult times ahead.**

**With us not able to secure any of the experience tours that were going to be crucial on the South African side in funding the overheads and heading towards a worldwide recession it was always going to be tricky and this is going to lead well in to 2023 / 2024.**

**That said we're still here and have a really good platform with relationships formed with reserves and the community to allow us to support more projects when the funds are there.**

**Thank you again for everyone that has and continues to support Ubuntu WT.**

*M Randall*

# Strategic report

# Completed projects

The Pro Direct Soccer Shinning Stars Football Club now have brand new football boots to match their snazzy uniforms. ProDirect once more stepped in and provided 10 pairs of boots and the Ubuntu Wildlife Trust donors provided a further 8 pairs. Our next project with the team is to purchase and provide training equipment such as cones, balls, and more so they can realise their dream of becoming regional league champions one day.

We have seen the team grow from 18 to 24 since we donated the kit earlier this year and another 14 wanting to join now. Recent results have seen them running out 2-1 and 4-2 against 2 of their neighbouring communities.

**Pet@Med**

# Completed projects – continued

**AIDS IN COUNTERACTING THE EFFECTS OF TOXINS, POISONS AND POTENTIALLY HARMFUL INGREDIENTS BEFORE THEY ARE SYSTEMICALLY ABSORBED**

In August 2022, we were able to support Zululand Wildlife Treatment Clinic, Manyoni and Ikhala Vet Clinic with much needed PetEMed units.

# Completed projects - continued

In August 2022, we supported Ezemvelo KZN Reserves with anti-poaching equipment.

In September we had an auction with items donated from many organisations, like Galaxy, Exeter City FC, Bradford's and more.

RANDALL

# Completed Events - Continued

Paige Scholfield of the Southern Brave donated a match worn signed shirt from the 2022 women's playing team.

Paige Scholfield  
and  
Southern Brave Squad  
2022

# Completed Events - Continued

The winners of the conservation cup in July 2022 were the Ubuntu Sables under the captaincy of Jamie-Lee taking home the trophy for Ubuntu for the 3rd year in a row. Special mention to the 5 under 10's (3 of them 9's and 1 under 6) Ryan, Jack, Fred, Alfie and Jake that took part, they were all awesome and make it so exciting for Whimple for the future and the event.

# Completed Events - Continued

In April 2022 Barbara was interviewed by NBC 7 San Diego for a segment on Down to Earth with Dagmar and looking specifically at 'Spiders really aren't that bad!'. Herself and Clinton also carried out a talk at Westville Girls High School on spiders and scorpions.

# Engaging our supporters

Our supporters are central to our success for fundraising and raising awareness throughout the world.

We will continue to use social media, events and our website to engage with them.

We would not be where we are today, making the impact we are without their ongoing support.

# Looking ahead

With the difficulties we're facing worldwide, it's going to make having our experience's a real challenge and we need to find a more sustainable way of supporting the overheads of the charity on the South African side.

From the UK side of things, we will be looking at giving everyone on the charity a role and looking to drive forward as a solid, well organised team.

There will be a massive focus on getting the proposals completed and out for both the Community Centre and Rangeland projects

We will also be looking to grow our corporate donors, event sponsors and individuals looking to raising donations through their own fundraisers.

We will be looking to grow considerable on the number of events held over the next year.

# Financial review

In the 2022 to 2023 year, we have total funds received of £11,049 and an expenditure of £9,875

Funds raised are down just over £7,000 from the previous year.

# Financial statement

# **Message from Martyn Randall**

## **Chairman of the Trust**

**Continuing in 2021 with a Covid lockdown in both the UK and South Africa has proved to be a real challenge for us all. Whilst we have had much support during this period the uncertainty around organising events and experience has really challenged the team.**

**Whilst we have been able to keep up the support of the smaller projects, we have continued to look to develop our own, larger legacy with the community centre and rangeland project. We have been busy putting together grant funding proposals and hope that towards the end of 2022 / start of 2023 we may be able to bring them to fruition.**

**I was able to go out to South Africa for the first time since the charity began in January of 2022 and was able to visit some of the projects we have been supporting. This has seen my passion and drive grow even further and I'm very much looking forward to the next few years.**

**It's only when I complete the annual report, looking back at past year I realise how much we have grown and the projects we have supported.**

**Thank you again for everyone that has and continues to support Ubuntu WT.**

***M Randall***

**Martyn Randall**  
**Chairman**

# Strategic report

# Completed projects

In April 2021 we donated the Canon camera across to our partners at FreeMe Wildlife to continue to research and document the great work they do.

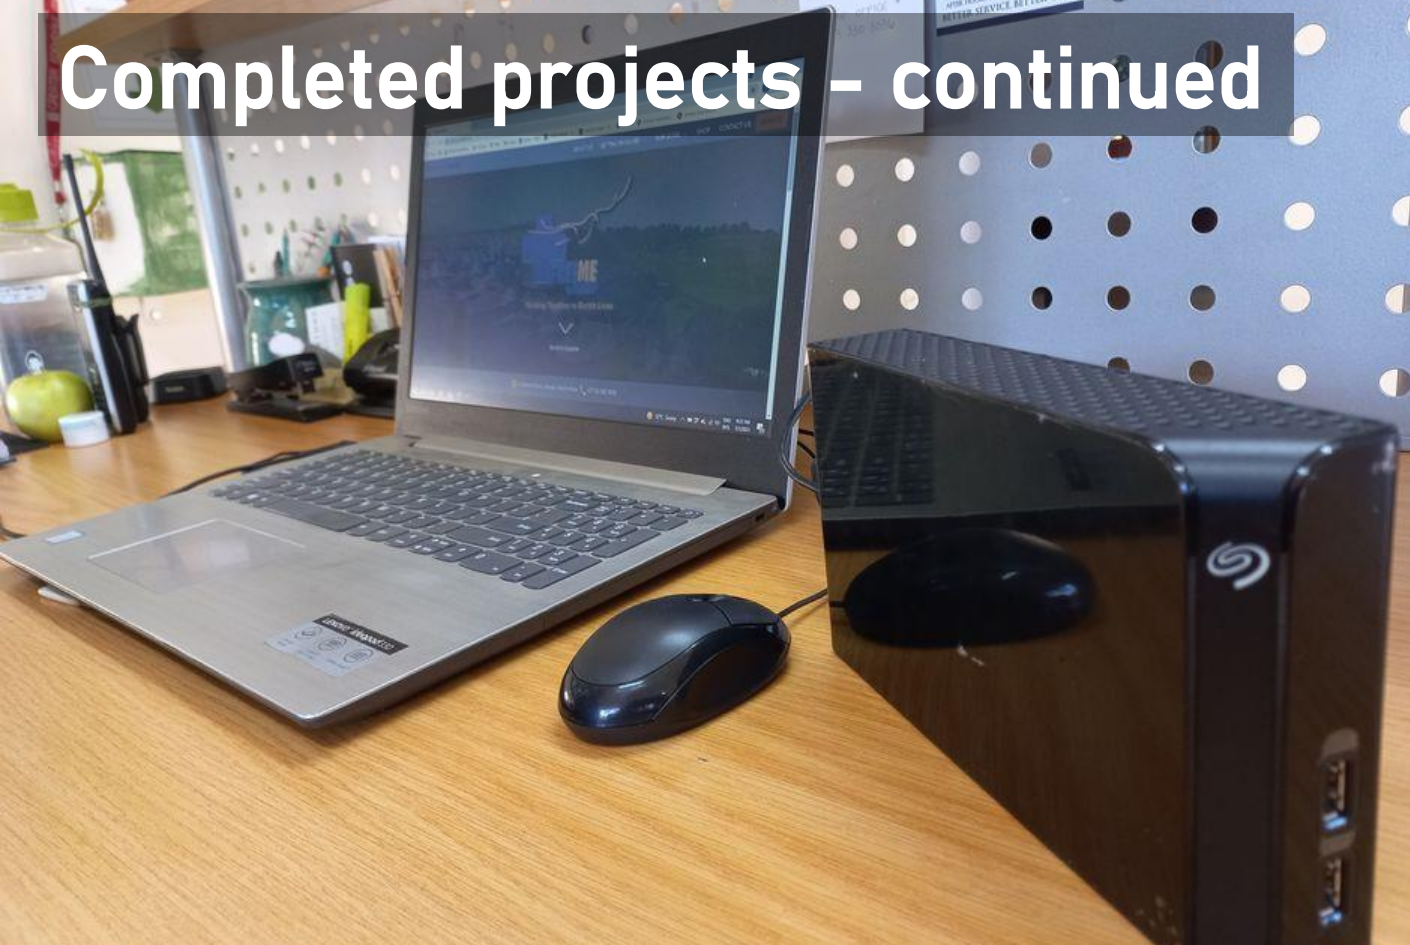

# Completed projects - continued

In June 2021 we joined teams with Africa's top ant specialist Peter Hawkes and protégé Daniella Molenaar to help search for a specific genus of ant (*Strumigenys* sp.). This is in support of a Japanese study on ant evolution. Despite winter not being the best time of the year to search for a tiny ant that forms tiny colonies - Peter was able to find a colony of *Strumigenys simoni* on the Greater Ukuwela Nature Reserve. Peter was able to find only the second confirmed record EVER in South Africa for the species *Discothyrea oculata*

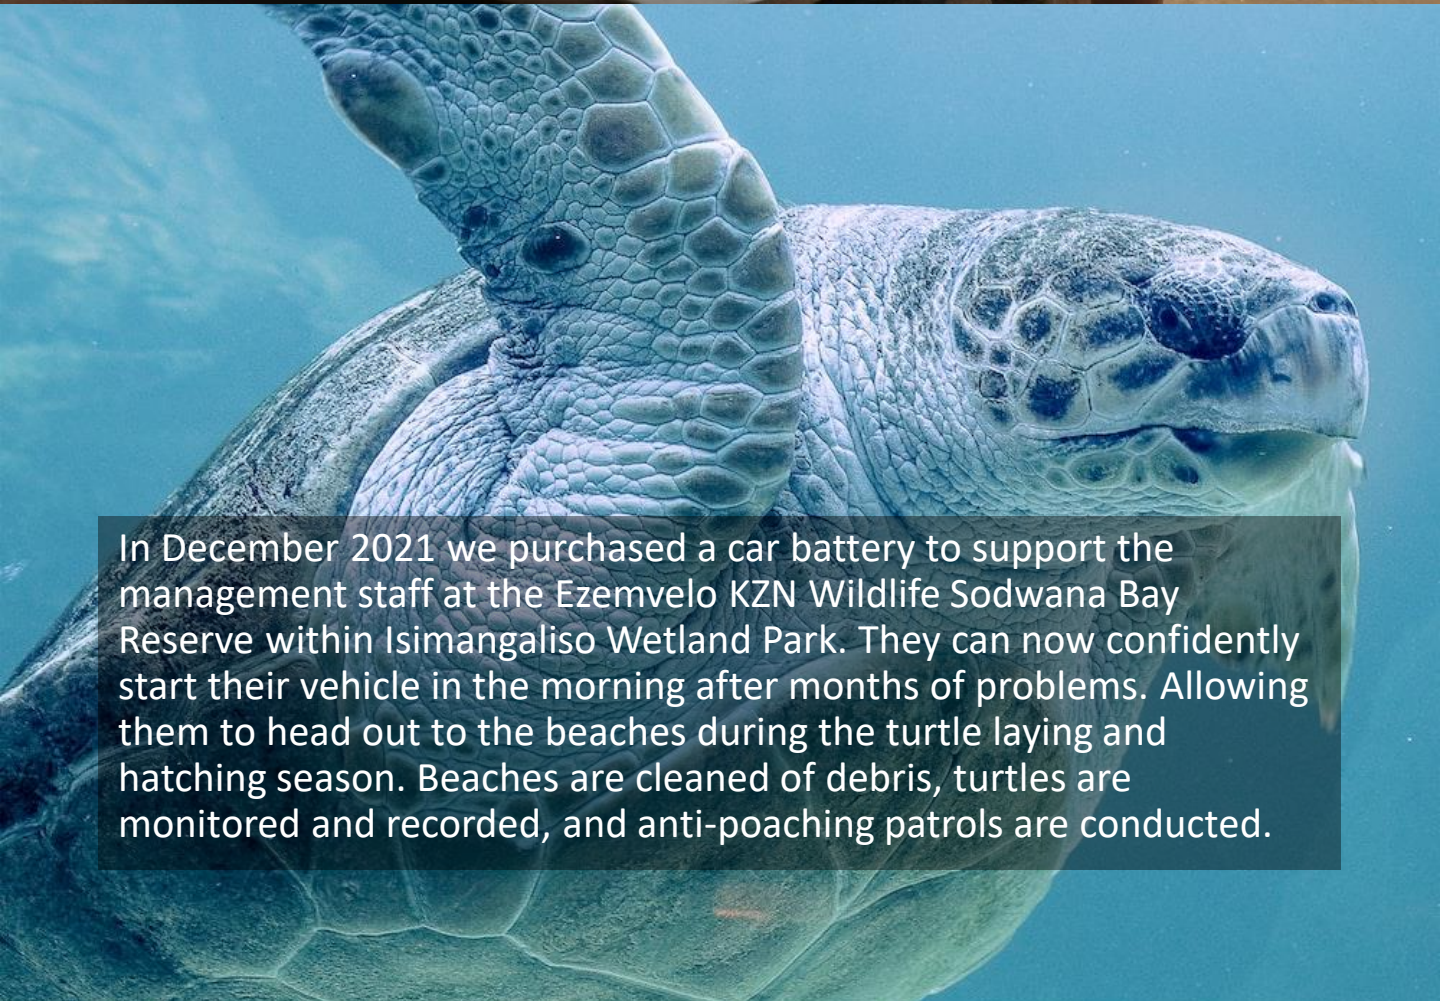

0.5 mm

# Completed projects – continued

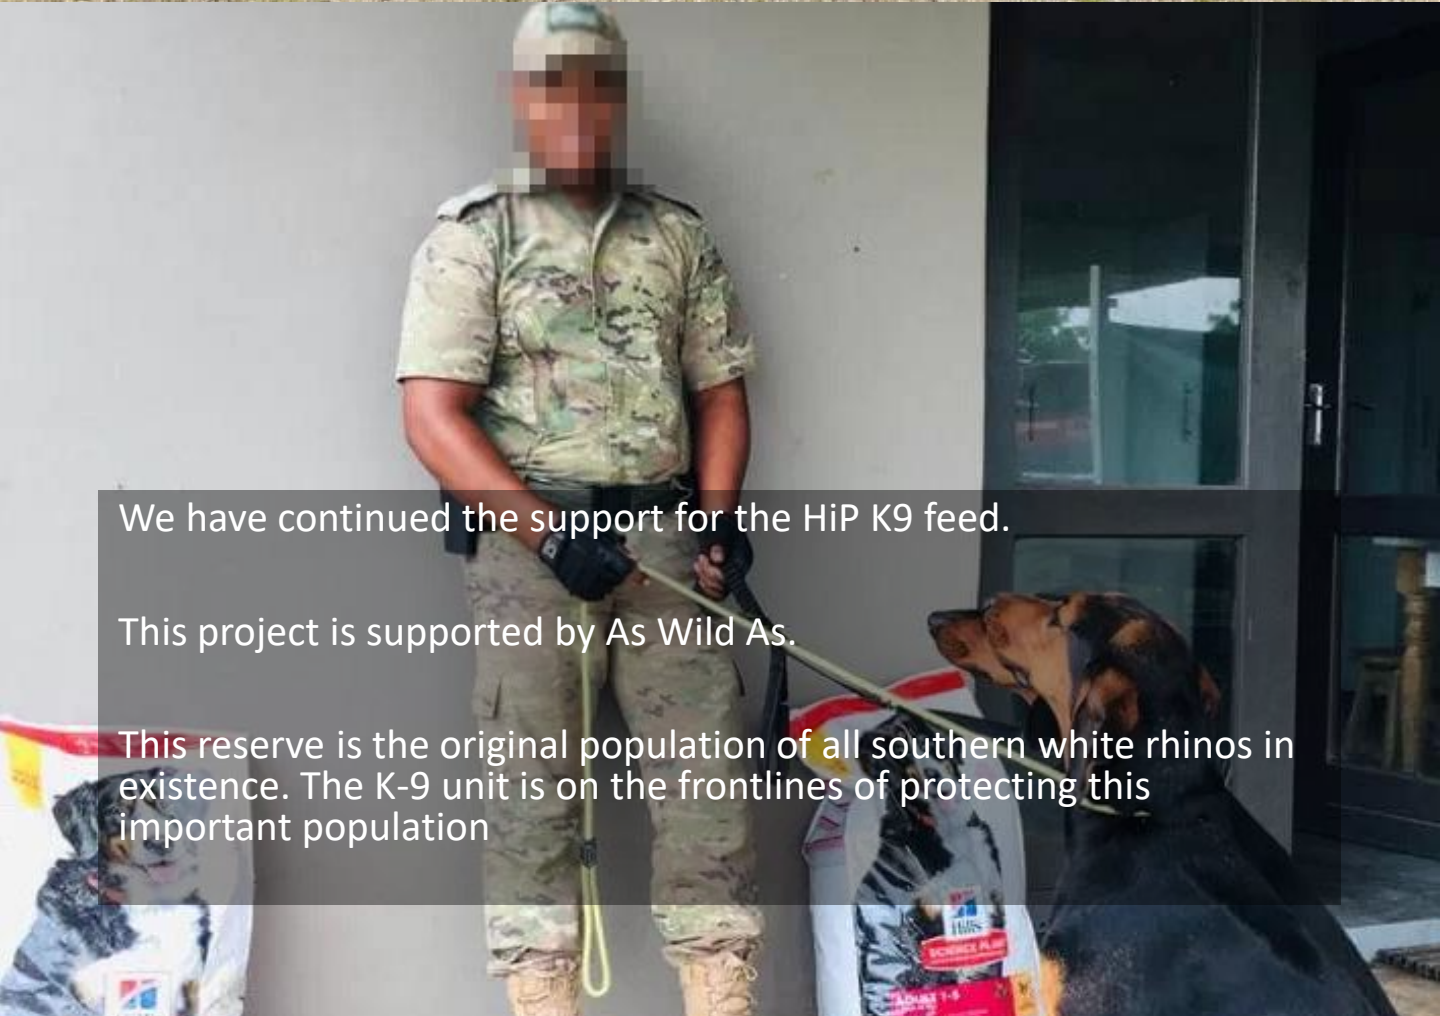

In July 2021 we were able to support our partners FreeMe Wildlife with the donation of a new laptop and hard drive for their media and database storage

# Completed projects – continued

In December 2021 we purchased a car battery to support the management staff at the Ezemvelo KZN Wildlife Sodwana Bay Reserve within Isimangaliso Wetland Park. They can now confidently start their vehicle in the morning after months of problems. Allowing them to head out to the beaches during the turtle laying and hatching season. Beaches are cleaned of debris, turtles are monitored and recorded, and anti-poaching patrols are conducted.

We have continued the support for the HiP K9 feed.

This project is supported by As Wild As.

This reserve is the original population of all southern white rhinos in existence. The K-9 unit is on the frontlines of protecting this important population

# Current projects - continued

We have continued to support the donation of PetEMed anti-poisoning units to HiP K9 anti-poaching units. The project is supported by Xtratherm Insulation.

# Current projects – continued

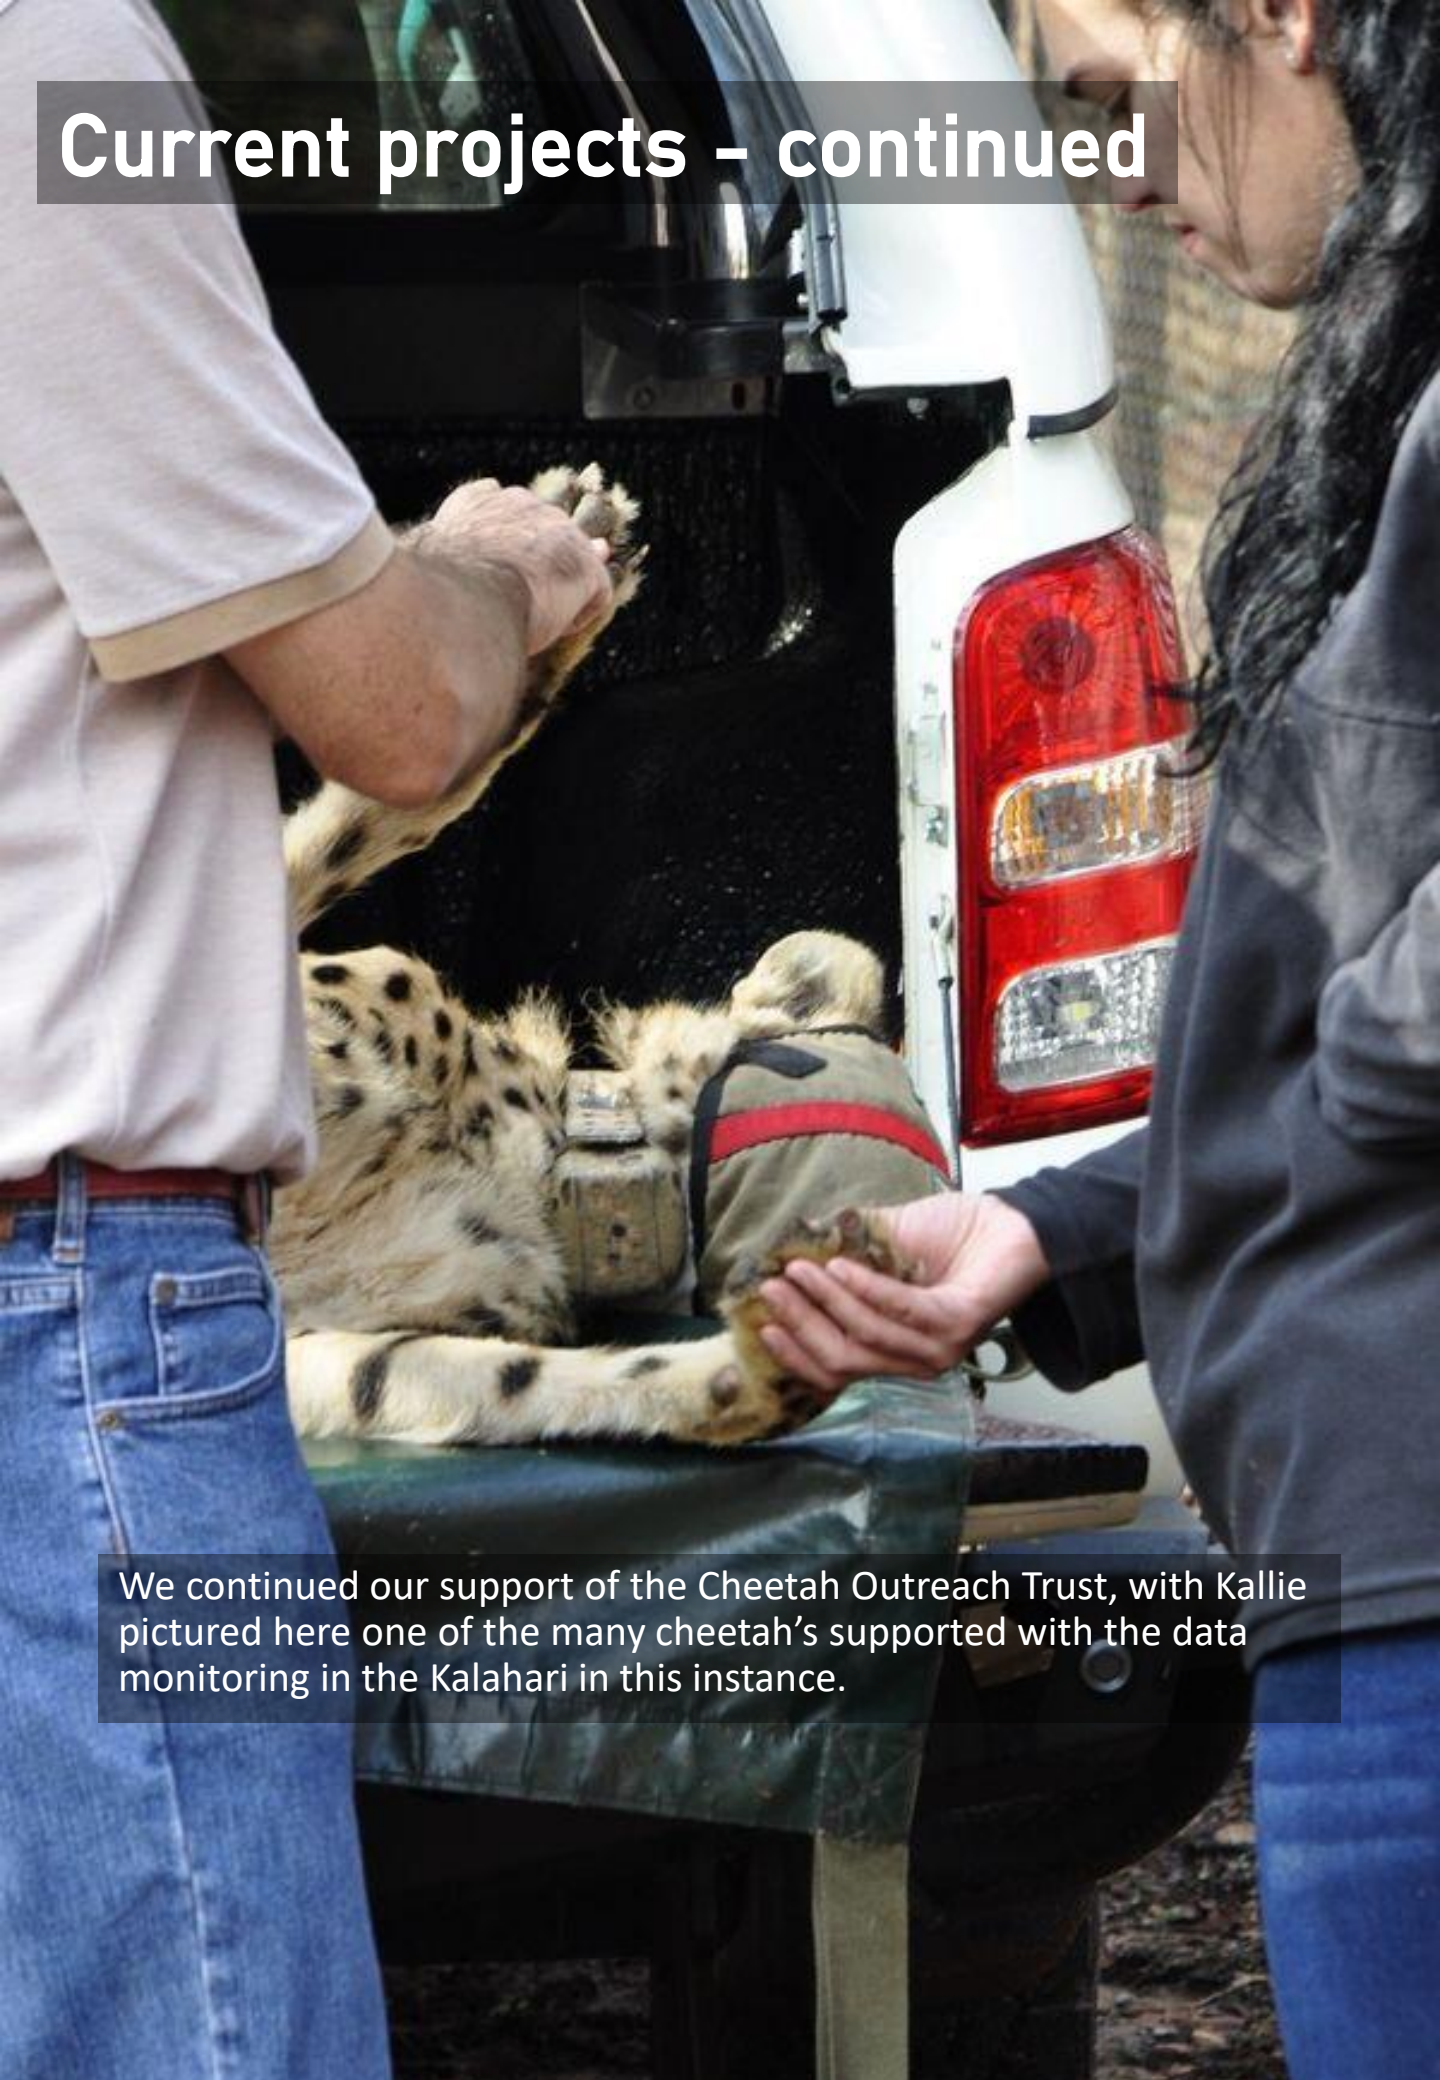

We have continued to support Karen and Storm by donating PetEMed anti-poisoning units to Manyoni Private Nature Reserves K9 unit  
The units were sponsored annually by Xtratherm insulation.

# Current projects - continued

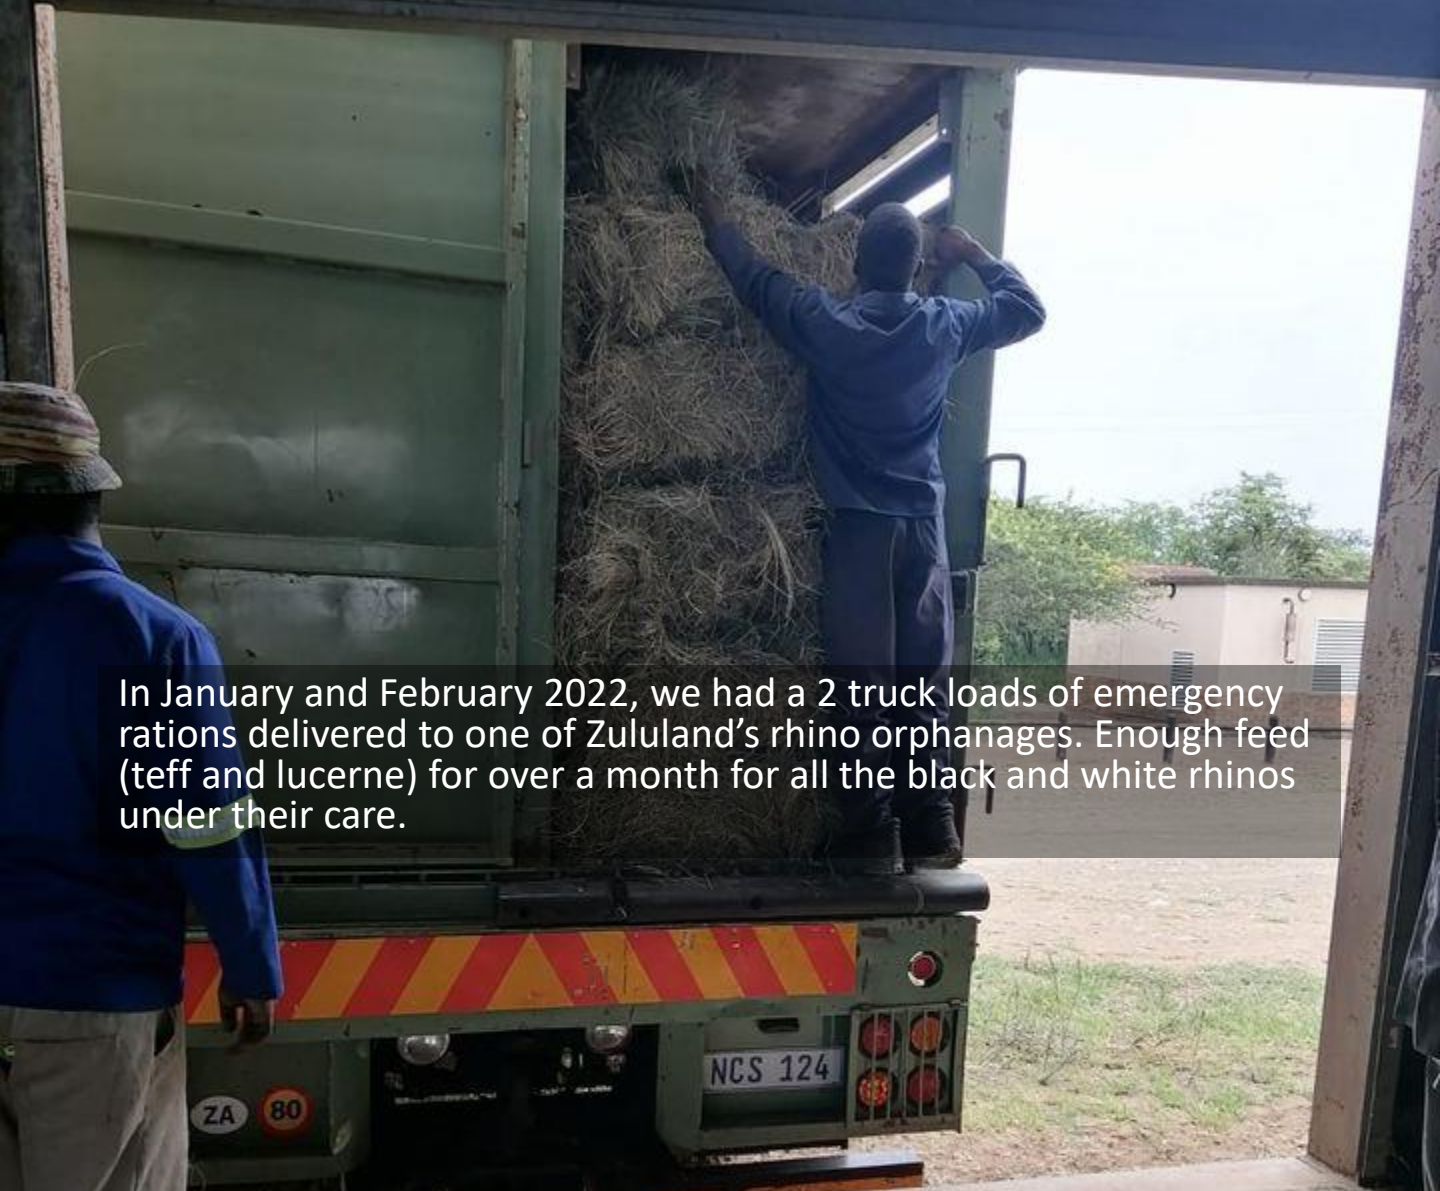

Across the year we have continued with supplying K9 anti-poaching units with the PeteMed units and have now covered 13 different reserves, also other charities (FreeMe Etc) and many other vet practices.

# Current projects - continued

We continued our support of the Cheetah Outreach Trust, with Kallie pictured here one of the many cheetah's supported with the data monitoring in the Kalahari in this instance.

# Current projects - continued

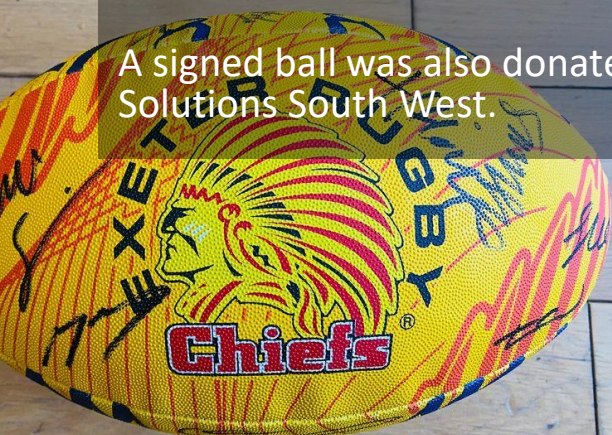

In January and February 2022, we had a 2 truck loads of emergency rations delivered to one of Zululand's rhino orphanages. Enough feed (teff and lucerne) for over a month for all the black and white rhinos under their care.

# Completed Events

We were kindly donated a signed Exeter Chiefs 2019/2020 double winning match worn Nic White shirt from Cathy Bartlett-Horwood and Exeter Chiefs.

A signed ball was also donated by James Putland at Asbestos Solutions South West.

Nic White  
Match Worn Squad Signed S  
2019/20

# Completed Events - Continued

In May 2021, our very own Steve Mulcock cycled over 220 miles in 2 days to Lands End in Cornwall to raise funds and awareness for our projects. Steve was supported on his trip by his fantastic wife, who not only acted as a support vehicle, but she also completed the final 10 miles of the journey.

Steve has raised over £1,600

# Completed Events - Continued

In August 2021, we successfully held our annual T20 cricket match with Ubuntu and Friends vs a Whimble select. The match was a close one and eventually won by Ubuntu and their captain Freddie Fenner.

The Thirsty Farmer were the match sponsor, Oggy Oggy Pasty Exeter for the food sponsor and Whimble Cricket Club also donated towards our projects.

# Completed Events – Continued

## Charity Virtual Cycle

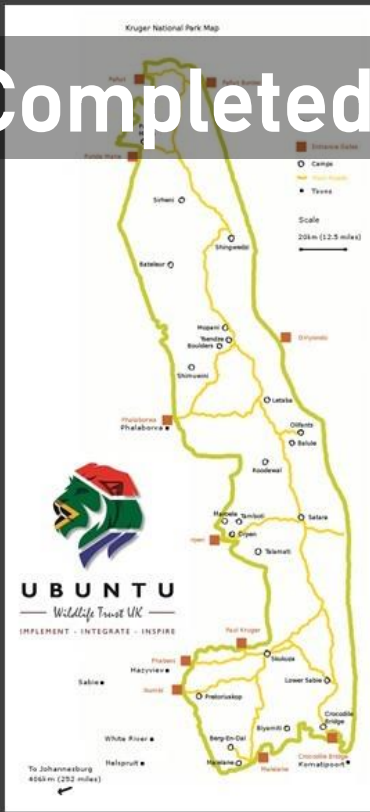

Scott Woodward, Neil Davis and Martyn Randall virtually cycled 427kms from the North to South length of Kruger National Park (Pafuri to Malelane Gates) in support of Ubuntu Wildlife Trust's Rhino conservation projects.

Ubuntu helps protect some of the most important rhino populations in the world and funds donated will go towards these strategic projects. This includes K9 unit support in 4 of the most important rhino reserves, and the food and care of traumatised orphan rhinos in 2 of the leading rhino orphanages – and to have these little ones returned to their natural habitat as healthy wild rhinos once more.

Visit the Ubuntu website to find out more about the charity causes they support

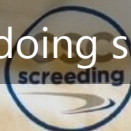

[www.ubuntuwildlifetrust.com](http://www.ubuntuwildlifetrust.com)

NO ONE  
IN THIS WORLD  
NEEDS A  
RHINO HORN  
BUT A RHINO

Throughout November 2021, Scott Woodward, Neil Davis and Martyn Randall completed a virtual cycle from the North to South length of Kruger National Park (427km each from Pafuri Gate to Malelane Gate).

In doing so, they raised over £2,500 for our support projects.

# Completed Events - Continued

# QUIZ & CHILLI

**Whimble Cricket Club • Saturday 20th November**  
7pm till Finish • Doors open 6.30pm

**Raffle & Auction £10 per ticket, max teams of 6**

includes chilli (meat and vegan) and drinks available from the bar

Tickets through Eventbrite

On Saturday 20<sup>th</sup> November 2021, we partnered with Whimble Cricket Club to put on a quiz event that was attended by over 70 people and was a huge success in raising funds and awareness for our support projects.

The event raised just over £877

# Completed Events

In January 2022 we auctioned a signed Lions Shirt that Cathy Bartlett-Horwood was able to get the 5 Exeter Chiefs players to sign for us.

# Completed Events - Continued

Ubuntu Wildlife Trust teamed up with [As Wild As](#) and [Ventura Wildlife Foundation](#) to do an intercontinental talk on rhino poaching and the mitigation strategies. Attendees in the UK could discuss live on the ground with our team in KwaZulu-Natal and ask pressing questions

# Completed Events - Continued

## "Phinda Button Spider"

In February 2022, Clinton held a talk on the discovery of the new Phinda Button Spider.

### Clinton Dean Wright

from the Ubuntu Wildlife Trust, will be talking on the discovery of the new Phinda Button Spider.

**Date: Wednesday 16 February 2022**

**Venue: Hebron Haven Hotel**

**Time: 18h00 for 18h30**

**Dinner and talk: R150pp - Meal is chicken in a tomato and olive sauce and/or beef lasagne, and a passion cheesecake for dessert.**

**Vegetarian option available on request.**

**Cash bar available.**

# Experiences

In June 2021 we completed our first experience tour with the AliSom Group at Manyoni Private Game Reserve for a 4-day 3-night Wildlife Experience. This gives the opportunity for corporates to get directly involved in on-the-ground conservation and be part of the work they are funding through the trip. Only work vital for the reserve is ever considered

# Experiences

In November 2021 we completed our second experience tour with Cooper Vision at Manyoni Private Game Reserve for a 4-day 3-night Wildlife Experience. This gives the opportunity for corporates to get directly involved in on-the-ground conservation and be part of the work they are funding through the trip. Only work vital for the reserve is ever considered

CooperVision®

# Engaging our supporters

Our supporters are central to our success for fundraising and raising awareness throughout the world.

We will continue to use social media, events and our website to engage with them.

We would not be where we are today, making the impact we are without their ongoing support.

# Looking ahead

With coronavirus coming to an end, the UK and perhaps the world are facing uncertainty around the war in Ukraine, the energy crisis and a possible recession. This will make planning events, getting donors on board and attracting corporates for experience tours very challenging for the team.

From the UK side of things, we will be looking at giving everyone on the charity a role and looking to drive forward as a solid, well organised team.

There will be a massive focus on getting the proposals completed and out for both the Community Centre and Rangeland projects

We will also be looking to grow our corporate donors, event sponsors and individuals looking to raising donations through their own fundraisers.

# Financial review

The charities first year has total funds received of £18,197 and a an expenditure of £17,431.

To become the leading science-based project funding conservation charity defined by the highest ethical standards and driven by our core values.

## Objectives

To secure and protect biodiverse habitats, and associated species, crucial for conservation, preservation, and forming linkages and corridors between existing reserves

To support sustainable and community owned projects in rural communities surrounding critical biodiverse areas that are linked to conservation or enhance the local support for conservation, with particular focus on nature, health, skills development, and engaging education.

*Engagement leads to Involvement leads to Education*

To raise environmental awareness through our projects, and engage a multiple of stakeholders and donors

To inspire and nurture a new generation to connect with the natural world

To remain committed to preventing the illicit wildlife trade and the protection of the natural environment which affects us as a global community through example

To support like-minded implementing partners on the ground in fulfilment of our mission

# Message from Martyn Randall

## Chairman of the Trust

Starting up a charity under any normal circumstances is always a challenging thing to do and we as a team have done this during the worlds worst ever pandemic. Whilst the lock down in the UK has been difficult for the team to look to raise funds through specific events, we did manage to get several completed during this time and they were a huge success in not only raising funds for our much need projects, but also our educational and awareness message was able to be delivered.

We have seen our team grow from 4 to 10 people and evenly spread between the UK / South Africa and we continue to go from strength to strength. The team and structure we have will enable us to grow over the coming years and make a real impact on the conservation, biodiversity improvements and with a regional focus through Kwa-Zulu Natal.

2021-22 is going to be a real challenge for the everyone worldwide due to the Covid pandemic remaining with us, we will continue to grow our partnerships, the projects we're involved in and build on relationships on the ground.

It goes without saying how proud I am with what we have achieved in such a short period of time, and I would like to thank all trustees, the families of the trustees and everyone who has supported us in getting us where we are in our first year.

*M Randall*

Martyn Randall  
Chairman

# Strategic report

# Completed projects

A photograph of two vultures standing in a field. The vulture in the foreground is facing right, showing its brown feathers, a prominent red and white patch on its chest, and a dark beak. The vulture in the background is also facing right, with a similar appearance. The background is a blurred natural setting with green grass and brown earth.

In May 2020, we successfully raised funds to donate 30 PetEMed anti-poisoning units to Vulpro (Vulture rehabilitation centre)

Vultures are a key component to maintaining healthy ecosystems. Because of their role as nature's garbage disposers, vultures are able to keep the environment clean and free of contagious diseases. By ridding the ground of dead animals, vultures prevent disease from spreading to humans and animals

# Completed projects - continued

In May 2020, we successfully raised funds for the training of Dakota (cold trail bloodhound) who has been deployed by Noctuum in the Kalahari to act as a force multiplier in their battle against the poaching epidemic.

Dogs are proven to be highly effective in support to the anti-poaching units, owing to their excellent sense of smell, being able to track down poachers and detecting illegally trafficked rhino horns.

# Completed projects – continued

In November 2020, we successfully raised funds to donate a commercial laundry machine to the Sabi Sands anti-poaching unit in Greater Kruger.

APU rangers wear uniforms to make them easy to recognise in the field and huge pride is taken when wearing them.

# Completed projects - continued

In February 2021, we successfully raised funds to assist with the upgrades to FreeMe Wildlife's tortoise enclosures

# Current projects

In October 2020, we successfully raised funds to donate 60 PetEMed anti-poisoning units to Kruger National Park K9 Centre. The syringes will be carried by rangers and K9 handlers as part of their essential equipment when out on patrol.

# Current projects

In March 2021, we successfully raised funds to donate PetEMed anti-poisoning units FreeMe Wildlife

# Current projects - continued

In November 2020, we successfully raised funds to donate the dog food for HiP K9 unit and this has since carried on to be an annual donation.

Asbestos Solutions Southwest Ltd sponsored the first couple of months and the annual sponsorship has since been picked up by As Wild As.

This reserve is the original population of all southern white rhinos in existence. The K-9 unit is on the frontlines of protecting this important population

# Current projects - continued

In May 2021, we successfully raised funds to donate PetEMed anti-poisoning units to HiP K9 anti-poaching units.

The donation of the units will be annual and the first year was sponsored by Xtratherm insulation.

# Current projects – continued

In June 2021, we successfully raised funds to donate PetEMed anti-poisoning units to Manyoni Private Nature Reserves K9 unit. The units were sponsored annually by Xtratherm insulation.

# Current projects - continued

A photograph showing two men in a field, one wearing a watch, carefully handling a cheetah lying on a blue tarp. The cheetah is being restrained by the men. In the background, there is a blue and white cooler and some equipment on the ground.

In October 2020, we successfully agreed to fund the data from the cheetah collaring with the Cheetah Outreach Trust for a 2 year period.

The data collected from the tracking collar will be used by Cheetah Outreach Trust for conflict mitigation, research on the effectiveness of livestock guardian dogs against predators whilst contributing to cheetah conservation.

# Future projects

## SURVEYS

- Ground dwelling spider survey
- Regional bat survey
- Msinene River fish survey
- Insect survey
- Ant survey
- Pangolin feeding survey
  
- New species description
- Sand forest rehabilitation
- Conservation field education and research centre for Zululand and Maputaland
- Orphan rhino feeding programme (HiP)
- iSimangaliso/Ezemvelo turtle project
- Thelelulwazi school kitchen

# Completed Events

In August 2020, we held our first charity dinner evening with the help of the awesome Thirsty Farmer in Whimple. We had a full house for the 5-course meal and were joined by special guests Jacques Vermuelen and Jannes Kirsten from the Exeter Chiefs.

The Evening raised the charity £460.00 and was enjoyed by all those who attended.

# Completed Events - Continued

In May 2021, our very own Steve Mulcock cycled over 220 miles in 2 days to Lands End in Cornwall to raise funds and awareness for our projects. Steve was supported on his trip by his fantastic wife, who not only acted as a support vehicle, but she also completed the final 10 miles of the journey.

Steve has raised over £1,600 so far and the majority of the money will come through via Facebook fundraising in to our 2021/22 accounts.

# Completed Events - Continued

In August 2020, we successfully held our annual T20 cricket match with Ubuntu and Friends vs a Whimble select. The match was a close one and eventually won by Ubuntu and their captain JJ.

The Thirsty Farmer were the match sponsor and Whimble Cricket Club also donated towards our projects, helping raise £473.00

# Engaging our supporters

Our supporters are central to our success for fundraising and raising awareness throughout the world.

We will continue to use social media, events and our website to engage with them.

We would not be where we are today, making the impact we are without their ongoing support.

# Looking ahead

With coronavirus still causing turmoil worldwide we have planned much of our UK event activity towards the end of 2021, with the exception of our annual T20 Cricket Match in August and we expect our SA based experience tours to commence again in March 2022.

The majority of our projects have been planned for 2021 and going it to 2022, that said Clinton and Brendyn are constantly talking to our partners and other charities to see if there are other opportunities for us to look to assist in the greater vision on the Zulu Land area.

We will also be looking to grow our corporate donors, event sponsors and individuals looking to raising donations through their own fundraisers.

# Financial review

The charities first year has total funds received of £4,085.92 and a an expenditure of £6,323.27

The below pie chart shows where the money has been donated or spent. The chart shows that just over 95% of the monies spent by the charity are on donations to projects and just over 4% are overhead costs to the charity.

# Financial statements

## UBUNTU WILDLIFE TRUST - To 05/04/2021

Income	
Secret Chef	£1,050.00
Chiefs sales	£1,552.00
Steve Mulcock donation	£285.00
Easyfundraising	£33.09
