Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	<p>Our project spanned nine months, during which the outcomes and progress achieved have consistently met and exceeded our expectations. At the project's inception, we conducted a series of seminars (located in Hertfordshire) and webinars, each lasting approximately two hours, focusing on holistic wellness for individuals living with Osteogenesis Imperfecta (OI).</p> <p>Our webinar series included a session on managing pain, offering practical advice and support for those dealing with chronic discomfort. Another webinar focused on corrective surgery for OI, providing participants with crucial information and hope for improved quality of life. Our webinars attracted a substantial audience, with 70 participants in attendance. This impressive turnout was achieved by live-streaming the sessions on Facebook, thereby reaching an international audience. Given the high attendance from our global audience, our webinars featured approximately six distinguished speakers.</p> <p>The charity has held several educational events on Zoom, educating attendees about brittle bone conditions, signs to watch for, and where to get help if needed (signposting). Most women globally have benefited from these meetings. Furthermore, we hosted an event titled "Partners Get Together," to foster partnerships and raise funds. This event served a dual purpose: to increase awareness of our organisation and to solicit potential partners for support and fundraising.</p>

Each partner was encouraged to invite a friend who could also become a partner. The event was a resounding success, resulting in two new partners who committed to supporting us with their expertise and sponsoring our events in Africa. One of our notable initiatives includes a wheelchair distribution in Nigeria, where we plan to deliver 300 wheelchairs. We actively support and collaborate with other OI organisations across Africa and Europe,

Another event we held was a Salsa night for the OI carers to support their wellbeing. This was very successful. Again, one person came onboard and donated £200 on the night. We also hosted a Christmas party to raise awareness and secure financial and material resources for Osteogenesis Imperfecta (OI) organisations in Africa. The event proved highly successful, resulting in the collection of used clothing and reading glasses to be sent to Africa. Generous attendees donated a significant amount of clothing, which we utilised to empower OI families, particularly those where women have been abandoned by their husbands due to their disability and are left to raise their children alone. These clothes were incorporated into an empowerment program designed to help women start their own businesses. Last year, this initiative successfully empowered five women.

At the Harpenden Carnival we had a stand which allowed us to actively engage with the community, raising awareness about brittle bone disease. We interacted with individuals affected by the condition and provided guidance on accessing additional support services. Moreover, we made valuable connections with

		volunteers from L&D Hospital, who were previously unfamiliar with the condition. This has led to an invitation for continued dialogue to enhance awareness and foster greater engagement among hospital staff.

Achievements and Performance

	SORP reference	
--	----------------	--

Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.

Para 1.20

Our event Balancing Life with OI focuses on "Surgery & Treatment" Celebrating Wishbone Day. 2023.

The event aimed at calling all African OI organizations together with the purpose of support, collaboration, and networking within African and Western OI groups/organizations for a reasonable cause of life and treatment action in Africa and across the globe for Oiers.

Our main speaker Dr. Adolfo Santana a Pediatric Orthopedic Surgeon, Doctor in Medicine (M.D.) J. M Vargas School of Medicine. The Central University of Venezuela. Caracas, Venezuela.

We were also honoured to have the President of the Osteogenesis Imperfecta Federation Europe, Ingunn Westerheim who was also a speaker at the event, and Dagma Mekking, Director, Care4brittlebone, Netherlands.

The event was very focused on oi corrective surgery, it was very informative and engaging as Dr Adolfo Santana took us on a ride in a transformational world of wonder in an oi surgical theatre.

We also carried fundraising event both physically event, webinars and on social media as we fundraised to support Oi Nigerian children the required corrective surgery.

We also raised awareness programmes on several occasions both on social media etc of which we were contacted by few people who

had oi and we were able to channel them the right direction for help.

Over 200 women from the UK and different African countries benefited from our women's programme this year as we held women only meeting, talking about "self-care, "My Me Time" taking care of your mental health as it relates to carers. women and female carers and many oi children benefited for treatment of bisphosphonate outside the UK, including training a few African doctors on Oi and treatment across Africa.

African Oi organizations came together to celebrate the international Wishbone Day, this has brought Oi people closer, relating together. It has also fostered good relationship among oi'ers across the globe which has also impacted positively to their mental health.

We have also held programmes on mental health, support oiers and non oiers with information and directing them to the right root for further help and support.

We support Oi organisation in Nigeria to organise and planed Oi corrective surgery, professional training and oi international conference in Nigeria.

Two persons with oi had their corrective surgery and 12 others where clinically assessed and supported with bisphosphonate medication. 8 different medical professionals where also trained during the surgery.

		We are supported 5 mothers with oi children to start some clothing business which were all donated by different individuals here in the UK.

Achievements and Performance

	SORP reference	
--	----------------	--

<p>Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.</p>	<p>Para 1.20</p>	<p>The charity has held several educative events on zoom, educating attendees about the brittle bone conditions, signs to watch for and where to get help if needed. Many women globally have benefited from these meetings.</p> <p>We have also carried out training on both brittle bone condition and disability in generally to individuals, church leadership in worship and public places.</p>
