Trustees' Annual Report for the period

From 01 April 2024 **To** 31 March 2025

Charity name: International Society for
Developmental Origins of Health and Disease | DOHaD

Charity registration number: 1190519

Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	The International DOHaD Society is dedicated to advancing the understanding of the developmental origins of health and disease on a global scale. Its mission centres on fostering collaboration, sharing knowledge, and supporting research that aims to improve lifelong health outcomes through early-life interventions.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	<p>In accordance with the Charity Commission's guidance on public benefit, the trustees confirm that all activities undertaken during the reporting period were directed towards advancing the Society's charitable purpose: the promotion of research, education, and understanding relating to the developmental origins of health and disease.</p> <p>During the year, the Society delivered a programme of scientific and educational activities designed to disseminate knowledge and support capacity building within the global DOHaD community. This included the organisation of scientific meetings, online educational events, and training opportunities, all provided through the Society's digital-first model to maximise accessibility.</p>

		<p>The Society contributed to public benefit by supporting the coordination and development of regional DOHaD networks, facilitating international collaboration, and offering grants and mobility awards to early career researchers to enable participation in research and professional development opportunities.</p> <p>Further public benefit was delivered through the ongoing publication of the <i>Journal of Developmental Origins of Health and Disease (JDOHaD)</i>, through which peer-reviewed scientific evidence is disseminated to researchers, practitioners, policy makers, and the wider public.</p> <p>The trustees are satisfied that these activities collectively advanced the Society's aims and delivered clear public benefit in line with its charitable objectives.</p>
Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	Para 1.18	Trustees have all had regard to the guidance issued by the Commission on public benefit.

Achievements and Performance

	SORP reference	
<p>Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.</p>	<p>Para 1.20</p>	<p>During the reporting period, the Society delivered a remarkable programme of activity that significantly advanced its mission and strengthened its position as a global leader in early-life science. As a fully online charity, the Society continued to champion inclusive participation, enabling researchers, practitioners, and advocates from more than 50 countries to contribute to a vibrant and equitable international community grounded in scientific integrity and collaboration.</p> <p>A major highlight of the year was the successful delivery of the 13th World Congress in Buenos Aires, Argentina, which brought together global experts despite ongoing travel challenges. The Congress showcased the depth and breadth of DOHaD science, featuring 485 accepted abstracts and 60 oral presentations, and served as a powerful catalyst for international exchange, partnership, and innovation.</p> <p>Alongside this flagship event, the Society expanded its educational and capacity-building efforts through a global webinar series, new short courses, and a strengthened programme of support for regional development. Notably, the year saw the launch of DOHaD India and the European DOHaD Society, both marking significant milestones in the expansion of the global DOHaD network. Early career researchers benefited from targeted support through travel grants and the prestigious Brain Mobility Award, helping to cultivate the next generation of scientific leadership.</p> <p>The Society's journal, the Journal of Developmental Origins of Health and Disease</p>

		<p>(JDOHaD), achieved strong performance, reporting increased income and notable citation gains, with an Impact Factor of 1.5 and a CiteScore of 4.1. Its growth reflects the journal’s rising influence and the increasing recognition of DOHaD research worldwide. The Society also advanced its commitment to environmental responsibility, operating through a digital-first, paperless model that enhances both sustainability and accessibility.</p> <p>Membership continued its upward trajectory, reaching 705 individuals across more than 50 countries, with over 30% based in Low- and Middle-Income Countries (LMICs). Regional activities, mentorship programmes, and collaborative research initiatives further deepened global engagement and broadened the Society’s impact across diverse contexts and communities.</p> <p>Collectively, these achievements underscore a year of significant progress, strengthened global presence, and meaningful contributions to the advancement of early-life science and its potential to improve lifelong health worldwide.</p>

Financial Review

<p>Review of the charity's financial position at the end of the period</p>	<p>Para 1.21</p>	<p>The financial year was characterised by typical high expenditure in the lead-up to the International DOHaD Congress, while the income from the congress itself had not yet been realised. Total income for the year amounted to £35,226, derived mainly from membership subscriptions, journal income, Gift Aid, webinars, and interest. Expenditure totalled £63,332, reflecting costs associated with administration, website development, membership processing, consultancy, legal fees, travel awards, and workshops. The year-end balance stood at £50,186, a decrease from £78,292 at the start of the year, which is consistent with the Society's pattern of increased spending before major events. Accounts are managed by the Finance Officer and audited by an external auditor, with Gift Aid claimed from HMRC. The Society maintains reserves to ensure financial stability and to support ongoing activities, particularly in years with major events. Principal funding sources include membership fees, journal income, Gift Aid, and event-related income, while funds are held in medium-term savings accounts to generate interest.</p>
<p>Statement explaining the policy for holding reserves stating why they are held</p>	<p>Para 1.22</p>	<p>The Society's governing Council has approved a reserves policy, carefully crafted based on both known and potential liabilities of the Society. This policy serves as a strategic guide for managing reserves.</p>
<p>Amount of reserves held</p>	<p>Para 1.22</p>	<p>Currently set at £30,337</p>
<p>Reasons for holding zero reserves</p>	<p>Para 1.22</p>	<p>Not applicable</p>
<p>Details of fund materially in deficit</p>	<p>Para 1.24</p>	<p>Not applicable</p>
<p>Explanation of any uncertainties about the charity continuing as a going concern</p>	<p>Para 1.23</p>	<p>There are no uncertainties about the charity continuing as a going concern.</p>

Additional information (optional)

Structure, Governance and Management

Description of charity's trusts:		
Type of governing document (trust deed , royal charter)	Para 1.25	Constitution
How is the charity constituted? (e.g., unincorporated association , CIO)	Para 1.25	Charitable Incorporated Organisation (Association Model)
Trustee selection methods including details of any constitutional provisions e.g., election to post or name of any person or body entitled to appoint one or more trustees	Para 1.25	<ol style="list-style-type: none">1. Elections are held biennially, to elect one-third of the charity trustees, thus replacing each charity trustee every six years. If the number of charity trustees is not three or a multiple of three, then the number nearest to one-third shall retire from office but if there is only one charity trustee, he or she shall retire.2. The charity trustees to retire by rotation shall be those who have been longest in office since their last appointment or reappointment. If any trustees were last appointed or reappointed on the same day those to retire shall (unless they otherwise agree among themselves) be determined by lot.3. Elections are held by an electronic mail process completed not later than the end of June in the relevant year. Charity trustees shall hold office from the conclusion of the next scientific meeting after the election. Serving charity trustees may be re-elected. If any charity trustee should retire mid-term, interim elections may be held.

		<p>4. The date of any election shall be notified by the Secretary in a call for nominations. The call for nominations shall precede the ballot by at least 28 days and ballot papers shall be circulated 14 days in advance if posts are contested. The names of those elected shall be circulated to members or announced at the AGM.</p> <p>5. The charity trustees may in addition appoint not more than 2 co-opted charity trustees but so that no-one may be appointed as a co-opted member if, as a result, more than one third of the charity trustees would be co-opted. Each appointment of a co-opted member shall be made at a special meeting of the charity trustees called under clause 19(c) and shall take effect from the end of that meeting unless the appointment is to fill a place which has not been vacated in which case the appointment shall run from the date when the post becomes vacant.</p> <p>6. The members of the CIO or the charity trustees may at any time decide to appoint a new charity trustee, whether in place of a charity trustee who has retired or been removed in accordance with clause 15 (Retirement and removal of charity trustees), or as an additional charity trustee, provided that the limit specified in clause 12(3) on the number of charity trustees would not as a result be exceeded.</p> <p>7. A person so appointed by the members of the CIO shall retire in accordance with the provisions of sub-clauses (2) and (3) of this clause. A person so appointed by the charity trustees shall retire at the conclusion of the next annual general meeting after the date of his or her appointment, and shall not be counted for the purpose of determining which of the charity trustees is to retire by rotation at that meeting.</p>

The International Society for Developmental Origins of Health Disease (DOHaD)
Independent Examiner's Report for the year ending 31st March 2025

Report to the Trustees of: DOHaD Charity No: 1190519

Accounts for the Year ended 31st March 2025.

Respective Responsibilities of Trustees and Examiner

The Charity's Trustees are responsible for the preparation of the accounts. The Charity's Trustees consider that an audit is not required for this year (under section 144(2) of the Charities Act 2011 (the Act), and that an independent examination is needed

It is my responsibility to:

- examine the accounts under section 145 of the 2011 Act,
- to follow the procedures laid down in the General Directions given by the Charity Commissioners (under section 145 (5)(b) of the 2011 Act), and
- to state whether particular matters have come to my attention.

Basis of Independent Examiner's Statement

My examination was carried out in accordance with General Directions given by the Charity Commissioners. An examination includes a review of the accounting records kept by the Charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts, and seeking explanations from the Trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit, and consequently. No opinion is given as to whether the accounts present a 'true and fair view' and the report is limited to those matters set out in the statement below.

Independent Examiner's Statement

In connection with my examination, no matter has come to my attention:

- 1 which gives me reasonable cause to believe that, in any material respect, the requirements:
 - to keep accounting records in accordance with Section 130 of the 2011 Act: and
 - to prepare accounts which accord with the accounting records and comply with the applicable requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent s examination, have not been met; or
- 2 to which, in my opinion, attention should be drawn in order to enable a proper understanding of the accounts to be reached.

This report is made solely to the Charity's Trustees, as a body, in accordance with Part 4 of the Charities (Accounts and Reports) Regulations 2008. My work has been undertaken so that I might state to the Charity's Trustees those matters I am required to state to them in an Independent examiner's report and for no other purpose. To the fullest extent permitted by law, I do not accept or assume responsibility to anyone other than the Charity and the Charity's Trustees as a body, for my work or for this report

Achievements and Performance

	SORP reference	
<p>Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.</p>	<p>Para 1.20</p>	<p>Difference Made by the Charity's Work:</p> <p>The International DOHaD Society's initiatives have tangibly improved maternal, child, and early-life health outcomes globally. By supporting LMICs and fostering research, the Society has empowered regions to implement evidence-based interventions, directly benefiting vulnerable populations. Educational initiatives and collaborative events have equipped researchers with tools to address critical health challenges, while the advocacy efforts have influenced policies that integrate health into global economic priorities.</p> <ol style="list-style-type: none"> 1. Enhanced Governance and Structural Development: The International DOHaD Society, established as a Charitable Incorporated Organisation (CIO) in 2020, has successfully streamlined governance structures. This includes a robust Council structure with seven subcommittees addressing critical areas like advocacy, professional development, and sponsorship. These structural advancements ensure strategic alignment with the Society's mission of promoting developmental health globally. 2. Expansion of Regional Societies: The Society has fostered a stronger community of regional societies, including the newly established European DOHaD Society under Dr Melanie Conrad. This milestone has enhanced collaborative opportunities for researchers and advocates across Europe, contributing to the Society's global mission. 3. Support for Low- and Middle-Income Countries (LMICs): The Society prioritised equitable access by reimbursing 50% of membership fees to regional societies, especially benefiting LMICs.

		<p>This funding enabled these regions to expand initiatives, organise events, and support trainees and researchers with travel and research grants.</p> <p>4. Leadership Appointments: The appointment of new Regional Society Presidents across regions such as Europe, Latin America, and the US has revitalised leadership. Plans to establish an Equity, Diversity, and Inclusion (EDI) Subcommittee further emphasise the Society's commitment to representation and inclusivity.</p> <p>5. Professional Development and Educational Opportunities: The Society successfully conducted educational initiatives, including two widely attended short courses: "Machine Learning for Healthcare Applications" and "Introduction to Statistics." These courses enhance the skill sets of trainees and researchers, addressing critical gaps in research methodologies and applications.</p> <p>6. Advocacy Impact: The Advocacy Subcommittee achieved significant milestones, including contributions to World Health Organisation (WHO) initiatives and publishing impactful policy papers. These efforts have amplified awareness of DOHaD concepts, integrating health into economic measures and addressing the Sustainable Development Goals (SDGs).</p> <p>7. Scientific Programme Support: Preparations for the 2025 Buenos Aires Congress are underway, guided by insights from previous Congress evaluations. The Society's dedication to fostering cutting-edge research and engagement ensures high-quality programming for global participants.</p>
--	--	---

	<p>8. Membership Growth and Engagement: Membership grew to 609 individuals from 54 countries, demonstrating the Society's global inclusivity. Streamlined membership processes and access to valuable resources, such as webinars and journals, have encouraged new memberships and renewals, including growth in the trainee category.</p> <p>9. Webinars and Knowledge Sharing: The 'DOHaD Worldwide Webinar Series', featuring a mix of early career researchers and global experts, doubled in frequency and broadened its thematic scope. These webinars serve as platforms for knowledge sharing, fostering global collaboration in advancing DOHaD principles.</p> <p>10. Journal Advancements: The Journal of Developmental Origins of Health and Disease (JDOHaD) saw sustained submissions from over 30 countries, enhancing its global reach. Transitioning to continuous publication has expedited access to cutting-edge research, and ongoing discussions about open access will further democratise knowledge dissemination.</p> <p>Wider Benefits to Society: The Society's work contributes to societal health and resilience by emphasising early-life interventions, which have long-term benefits for individuals and communities. By building networks across disciplines and geographies, the Society strengthens global research collaborations, advancing knowledge that informs public health policies. Efforts like the EDI Subcommittee and LMIC support exemplify inclusivity, ensuring the benefits of DOHaD principles reach diverse and underserved populations.</p>

How is the charity constituted? (e.g., unincorporated association, CIO)	Para 1.25	Charitable Incorporated Organisation (Association Model)
Trustee selection methods including details of any constitutional provisions e.g., election to post or name of any person or body entitled to appoint one or more trustees	Para 1.25	<ol style="list-style-type: none"> 1. Elections are held biennially, to elect one-third of the charity trustees, thus replacing each charity trustee every six years. If the number of charity trustees is not three or a multiple of three, then the number nearest to one-third shall retire from office but if there is only one charity trustee, he or she shall retire. 2. The charity trustees to retire by rotation shall be those who have been longest in office since their last appointment or reappointment. If any trustees were last appointed or reappointed on the same day those to retire shall (unless they otherwise agree among themselves) be determined by lot. 3. Elections are held by an electronic mail process completed not later than the end of June in the relevant year. Charity trustees shall hold office from the conclusion of the next scientific meeting after the election. Serving charity trustees may be re-elected. If any charity trustee should retire mid-term, interim elections may be held. 4. The date of any election shall be notified by the Secretary in a call for nominations. The call for nominations shall precede the ballot by at least 28 days and ballot papers shall be circulated 14 days in advance if posts are contested. The names of those elected shall be circulated to members or announced at the AGM. 5. The charity trustees may in addition appoint not more than 2 co-opted charity trustees

		<p>but so that no-one may be appointed as a co-opted member if, as a result, more than one third of the charity trustees would be co-opted. Each appointment of a co-opted member shall be made at a special meeting of the charity trustees called under clause 19(c) and shall take effect from the end of that meeting unless the appointment is to fill a place which has not been vacated in which case the appointment shall run from the date when the post becomes vacant.</p> <p>6. The members of the CIO or the charity trustees may at any time decide to appoint a new charity trustee, whether in place of a charity trustee who has retired or been removed in accordance with clause 15 (Retirement and removal of charity trustees), or as an additional charity trustee, provided that the limit specified in clause 12(3) on the number of charity trustees would not as a result be exceeded.</p> <p>7. A person so appointed by the members of the CIO shall retire in accordance with the provisions of sub-clauses (2) and (3) of this clause. A person so appointed by the charity trustees shall retire at the conclusion of the next annual general meeting after the date of his or her appointment, and shall not be counted for the purpose of determining which of the charity trustees is to retire by rotation at that meeting.</p>

The International Society for Developmental Origins of Health Disease (DOHaD)
Independent Examiner's Report for the year ending 31st March 2024

Report to the Trustees of: DOHaD Charity No: 1190519

Accounts for the Year ended 31st March 2024.

Respective Responsibilities of Trustees and Examiner

The Charity's Trustees are responsible for the preparation of the accounts. The Charity's Trustees consider that an audit is not required for this year (under section 144(2) of the Charities Act 2011 (the Act), and that an independent examination is needed

It is my responsibility to:

- examine the accounts under section 145 of the 2011 Act,
- to follow the procedures laid down in the General Directions given by the Charity Commissioners (under section 145 (5)(b) of the 2011 Act), and
- to state whether particular matters have come to my attention.

Basis of Independent Examiner's Statement

My examination was carried out in accordance with General Directions given by the Charity Commissioners. An examination includes a review of the accounting records kept by the Charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts, and seeking explanations from the Trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit, and consequently. No opinion is given as to whether the accounts present a 'true and fair view' and the report is limited to those matters set out in the statement below.

Independent Examiner's Statement

In connection with my examination, no matter has come to my attention:

- 1 which gives me reasonable cause to believe that, in any material respect, the requirements:
 - to keep accounting records in accordance with Section 130 of the 2011 Act: and
 - to prepare accounts which accord with the accounting records and comply with the applicable requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent s examination, have not been met; or
- 2 to which, in my opinion, attention should be drawn in order to enable a proper understanding of the accounts to be reached.

This report is made solely to the Charity's Trustees, as a body, in accordance with Part 4 of the Charities (Accounts and Reports) Regulations 2008. My work has been undertaken so that I might state to the Charity's Trustees those matters I am required to state to them in an Independent examiner's report and for no other purpose. To the fullest extent permitted by law, I do not accept or assume responsibility to anyone other than the Charity and the Charity's Trustees as a body, for my work or for this report

Achievements and Performance

	SORP reference	
<p>Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.</p>	<p>Para 1.20</p>	<p>This year, the Society has focused on activities aimed at meeting its objectives, with a particular emphasis on fostering growth and enhancing community interaction for the benefit of all our members:</p> <p>1) The International DOHaD Society has recently undergone governance changes, transitioning Regional Chapters and Affiliate Groups into independent Regional Societies. This shift aligns with the organisation's goal to coordinate global research and advocacy for ensuring a healthy start to life. The nine Regional Societies now receive targeted support for advocacy, education, and research tailored to their specific regions, contributing significantly to international research collaboration. With a focus on improving communication and engagement, each Regional Society centralises administrative processes, requiring members to affiliate with their local society during International Society membership renewal. This change, mandated for Charitable Status, ensures continued affiliation with the Regional Society and access to benefits from both organisations. An Associate Membership tier accommodates individuals wishing to maintain affiliation with their local society without requiring full International Society benefits. This strategic reorganisation reinforces the crucial role of Regional Societies in fostering research interests, promoting collaboration, and enhancing a sense of collegiality within the global DOHaD research community.</p> <p>2) As anticipated in the year following our World Congress, there has been a slight decrease in membership. However, with the successful completion of Regional Society transitions, we expect membership to resume growth. Currently, we have 985 active members spanning 51 different countries. We remain committed to offering reduced or free memberships for individuals in low to middle-income countries. Additionally, we are actively encouraging more Trainee/ECR and Undergraduate within the DOHaD field to join, recognising their crucial roles in shaping the future of our Society.</p> <p>3) The Council Subcommittees have been highly active across various fronts. In Advocacy, the group played a key role in webinars with the Society and FIGO, publishing impactful papers on the economic and social rationale for early-life investments post-COVID. Mark Hanson's representation in the Partnership for Maternal, Newborn, and Child Health (PMNCH) resulted in the launch of the influential report "Born Too Soon" in South Africa. The Society's influence extended to climate change initiatives, Sexual and Reproductive Health and Rights (SRHR) for Universal Health Coverage (UHC), and ongoing economic analyses supporting early life investments. In the UK Preconception Partnership, Developmental Origins of Health and Disease (DOHaD) concepts gained prominence.</p> <p>The Professional Development & Education subcommittee oversaw the selection of a new Brain Mobility Award winner and introduced additional short courses in collaboration with the previous Education and Communications subcommittee. Looking ahead, the subcommittee aims to introduce new courses, compelling webinar topics, and revitalised award initiatives.</p>

		<p>The Scientific Programme Support Sub-Committee analysed survey data from the latest World Congress in Vancouver, compiling a report shared with the Council and Vancouver organisers. With the 2025 World Congress in Buenos Aires, efforts are underway to support its organisation.</p> <p>In Sponsorship and Fundraising, the committee is now shifting focus to the Buenos Aires Congress in 2025, supporting activities like Brain Mobility and Travel Awards.</p> <p>The Trainee and Early Career Researcher Subcommittee fostered international communication, collaborating with Regional Society Representatives and initiating thematic virtual symposia.</p> <p>Lastly, the Workshop Subcommittee approved three workshops for 2023 and actively runs short courses, including the DOHaD Canada 2023 Meeting, the UK Preconception EMCR Network 2023 Conference, and the inaugural DOHaD ANZ Pacific Island (ANZPac) engagement workshop.</p> <p>4) The DOHaD Society's journal, JDOHaD, continues to thrive, boasting a 36% publication acceptance rate in 2022. Focused on early life development and its interplay with environmental and genetic factors, the journal covers developmental programming, neonatal biology, early life nutrition, human ecology, and gene-environment interactions. JDOHaD, a multidisciplinary platform, publishes original research, short communications, reviews, and themed issues, welcoming contributions from diverse scientific fields such as physiology, nutrition, genetics, anthropology, and public health. The journal serves as a hub for conference reports, opinions, comments, and interactions, emphasising its pivotal role in advancing scientific discourse.</p> <p>5) We were delighted to announce that the Latin American DOHaD Society had won the bid to host our prestigious DOHaD World Congress in 2025 in Buenos Aires, Argentina. This victory reflects their dedication and the potential of the Latin American DOHaD community. It's a significant milestone, showcasing the region's contributions to DOHaD. Additionally, we commend DOHaD Japan for an impressive bid and announce their hosting of the 2027 World Congress in Hamamatsu, Japan. These decisions mark exciting opportunities for knowledge exchange, networking, and scientific advancements.</p>

The International Society for Developmental Origins of Health Disease (DOHaD)
Independent Examiner's Report for the year ending 31st March 2023

Report to the Trustees of: DOHaD Charity No: 1190519

Accounts for the Year ended 31st March 2023.

Respective Responsibilities of Trustees and Examiner

The Charity's Trustees are responsible for the preparation of the accounts. The Charity's Trustees consider that an audit is not required for this year (under section 144(2) of the Charities Act 2011 (the Act), and that an independent examination is needed

It is my responsibility to:

- examine the accounts under section 145 of the 2011 Act,
- to follow the procedures laid down in the General Directions given by the Charity Commissioners (under section 145 (5)(b) of the 2011 Act), and
- to state whether particular matters have come to my attention.

Basis of Independent Examiner's Statement

My examination was carried out in accordance with General Directions given by the Charity Commissioners. An examination includes a review of the accounting records kept by the Charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts, and seeking explanations from the Trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit, and consequently. No opinion is given as to whether the accounts present a 'true and fair view' and the report is limited to those matters set out in the statement below.

Independent Examiner's Statement

In connection with my examination, no matter has come to my attention:

- 1 which gives me reasonable cause to believe that, in any material respect, the requirements:
 - to keep accounting records in accordance with Section 130 of the 2011 Act: and
 - to prepare accounts which accord with the accounting records and comply with the applicable requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent s examination, have not been met; or
- 2 to which, in my opinion, attention should be drawn in order to enable a proper understanding of the accounts to be reached.

This report is made solely to the Charity's Trustees, as a body, in accordance with Part 4 of the Charities (Accounts and Reports) Regulations 2008. My work has been undertaken so that I might state to the Charity's Trustees those matters I am required to state to them in an Independent examiner's report and for no other purpose. To the fullest extent permitted by law, I do not accept or assume responsibility to anyone other than the Charity and the Charity's Trustees as a body, for my work or for this report

Achievements and Performance

	SORP reference	
<p>Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.</p>	<p>Para 1.20</p>	<p>This year the Society has focused on activities to meet its objectives, with an inward look at improving the way we run:</p> <ol style="list-style-type: none"> 1) Our new website will be launched this Summer. It will display our new logo, achieve more global outreach, provide our Members with more resources for DOHaD research, education and advocacy, and establish a fresh online look for the Society. It has been a large undertaking to update the information provided, which now includes numerous new pages - including a "What is DOHaD?" video, information on how to donate to the Society, new events, and a brand new Members Portal - which includes a special area for Trainee and ECR members. Within the Members portal is a new platform to complete applications for awards, election nominations, newsletter access as well as more educational resources. 2) Worldwide webinars - The last 2.5 years have been difficult globally, with the SarsCOV2 virus continuing to impose restrictions and health emergencies worldwide. There have been silver linings however, and in 2021 the Society launched the DOHaD Worldwide webinars as a new opportunity for Members to keep in touch and share novel findings in DOHaD research. The last year has continued to showcase DOHaD research around the world, featuring a webinar on the first Wednesday of each month. These free webinars are composed of a 30-minute presentation, followed by a Q&A and panel discussion. 3) Our membership has bounced back and has grown to 1021 members. DOHaD members can now be found from 68 different countries with the greatest representation in Australia, Canada, China, France, Japan, Pakistan, UK and USA. Currently, Membership is composed of Associate Members (1%), Standard Members (63%), Trainees (33%) and Undergraduates (3%). 32% of our Members are from low to middle income countries. 4) The Society's largest activity, the 2022 World Congress will be held in August, at Vancouver, Canada and will be reported on in the 2022-23 Trustee's Annual Report. 5) The Society continues to support research through its Journal (JDOHaD) that saw an annual increase up from 2.34 in 2019 to 3.034 in 2021. The Journal continues to publish both

		<p>Supplements and Themed Issues. 16 articles were published in the 2021 volume. Brazil is the country that submits the greatest number of manuscripts, and its sits at #2 as the country with the greatest number of acceptances.</p>

Structure, Governance and Management

Description of charity's trusts:		
Type of governing document (trust deed, royal charter)	Para 1.25	Constitution
How is the charity constituted? (e.g., unincorporated association, CIO)	Para 1.25	Charitable Incorporated Organisation (Association' Model)
Trustee selection methods including details of any constitutional provisions e.g., election to post or name of any person or body entitled to appoint one or more trustees	Para 1.25	<ol style="list-style-type: none"> 1. Elections are held bi-annually, to elect one-third of the charity trustees, thus replacing each charity trustee every six years. If the number of charity trustees is not three or a multiple of three, then the number nearest to one-third shall retire from office but if there is only one charity trustee, he or she shall retire. 2. The charity trustees to retire by rotation shall be those who have been longest in office since their last appointment or reappointment. If any trustees were last appointed or reappointed on the same day those to retire shall (unless they otherwise agree among themselves) be determined by lot. 3. Elections are held by an electronic mail process completed not later than the end of June in the relevant year. Charity trustees shall hold office from the conclusion of the next scientific meeting after the election. Serving charity trustees may be re-elected. If any charity trustee should retire mid-term, interim elections may be held. 4. The date of any election shall be notified by the Secretary in a call for nominations. The call for nominations shall precede the ballot by at least 28 days and ballot papers shall be circulated 14 days in advance if posts are contested. The names of those elected shall be circulated to members or announced at the AGM. 5. The charity trustees may in addition appoint not more than 2 co-opted charity trustees but so that no-one may be appointed as a co-opted member if, as a result, more than one third of the charity trustees would be co-opted. Each appointment of a co-opted member shall be made at a special meeting of the charity trustees called under clause 19(c)

		<p>and shall take effect from the end of that meeting unless the appointment is to fill a place which has not been vacated in which case the appointment shall run from the date when the post becomes vacant.</p> <p>6. The members of the CIO or the charity trustees may at any time decide to appoint a new charity trustee, whether in place of a charity trustee who has retired or been removed in accordance with clause 15 (Retirement and removal of charity trustees), or as an additional charity trustee, provided that the limit specified in clause 12(3) on the number of charity trustees would not as a result be exceeded.</p> <p>7. A person so appointed by the members of the CIO shall retire in accordance with the provisions of sub-clauses (2) and (3) of this clause. A person so appointed by the charity trustees shall retire at the conclusion of the next annual general meeting after the date of his or her appointment, and shall not be counted for the purpose of determining which of the charity trustees is to retire by rotation at that meeting.</p>

AUDIT CERTIFICATE

I have examined the accounting records of the International Society for Developmental Origins of Health and Disease (DOHaD) for the 12 months ending 31st March 2022, and can confirm that the receipts and payments account gives a true and accurate record of the society's financial transactions for this period.

A handwritten signature in black ink that reads "B. Fariborz". The signature is written in a cursive style with a large, stylized 'B' and 'F'.

Barbara Fariborz
Ex-Accounts Assistant (retired)
University of Southampton
MRC Lifecourse Epidemiology Centre

Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	<p>This year has presented an unheralded challenge for the DOHaD Society. Our membership has been deeply affected by the COVID pandemic. The Global pandemic has made a significant impact on the frequency of workshops, and most in-person meetings have been either cancelled or have gone virtual. Despite these hurdles the Society has engaged in a number of activities to meet its objectives:</p> <ol style="list-style-type: none"> 1. Worldwide webinars –the Society launched online fully accessible webinars. Beginning in April 2021, on the first Wednesday of each month the Society partnered with a different regional DOHaD society for each seminar to showcase the work of a rising star in that geography. The webinar features a 30-minute presentation, followed by a Q&A and panel discussion. The webinars are free to attend and support our educational objectives. 2. The Society's Brain Mobility Awards (BMA) were established to facilitate training opportunities, and the interchange of ideas and expertise for emerging and early career Members. This year 2 additional BMA were awarded to early researchers in Chile and in Canada. Supporting our junior researchers supports our objective to facilitate research in DOHAD around the world. 3. The Society's largest activity, the 2022 World Congress will be held in Vancouver, Canada, August 2022 and has actively been planned in 2021. The World Congress science program began in October 2021 with a Satellite Meeting on Domestic Animal DOHaD & Epigenetics held virtually and organized by Dr Marc-Andre Sirard (Laval University, Quebec, Canada). It featured innovative research from all over the world; this meeting had registrants from more than ten countries 4. The Society continues to support research through its Journal (JDOHaD) that saw continued activity with increased impact factor rating and an increase in manuscripts submitted. 5. Our regional Societies have spent the year advocating and promoting life course-based health strategies around the world through public engagement, research, and education.
