

## Trusstees report Feb 2026 Bridport Community Shed

We have had a productive year at the Shed, the 3 drop in sessions are getting busier, and the Arts for wellbeing and youth sessions are being well supported. We've had some good feedback from other our local hospital social prescribing team and other charities that we have done work or repairs for.

We are still supporting our local hospital refurbishing their outdoor seating, and repairing some of the local council seating.

We are still upgrading our tools and crafting areas to help support the varied amount of repair requests we get, some are quite challenging.

We have a few more maintenance issues to address in the next year, which we have started on already.

regards. Tim Paul
