Activities and Achievements (In Year)

Over the past year, the charity has continued with holding its routine Sunday spiritual empowerment services to promote teachings from the Christian scriptures for the awakening of humanity to release our innate potentials. COVID directives necessitated that our services be held virtually over zoom opposed to in-person meetings.

Mid-week meditational services on Wednesdays that encourage introspection, self-determination and prayer for conflict areas in the world also continued virtually together with Monday morning meditation sessions. We were however unable to hold our summer retreat due to lockdown restrictions instead two webinars for deeper spiritual studies and self-discovery were successfully organised.

Financial Review

The Charity which currently has an average UK membership of 20 people including children relies solely on the voluntary contributions from its members. We have a growing online/remote membership because of increasing our social media engagement due to COVID restrictions. It is our aim to expand by increasing our income for the future development work. The Charity has maintained a steady growth and continues to pursue its charitable objectives.

Income Details:

The total income for the year was £300.

The total expenses for the year amounted to £350 resulting in a deficit of £50. These expenses were incurred in mainly carrying out administrative operations and the organization's charitable activities. The breakdown of expenses is as follows:

Charitable Activities:

Administrative Expenses (Including zoom subscription and stationery):	£270
Support for Vulnerable Individuals:	£ 80

This deficit was primarily due to the increased costs associated with administration and providing support to vulnerable individuals. The organization aims to address this deficit through future fundraising efforts and cost management strategies.

No fundraising event was held in year due to COVID restrictions.
