WHAT WE WILL DO NEXT

Hope and Future has set out to be innovative and bold in the future for a more peaceful world.

In today's world, violence and all kinds of violence against women have increased and unfortunately have become unpreventable.

Unfortunately, the calls for help from governments and municipalities, or rather all institutions, have remained unanswered, and all kinds of violence has gradually increased and sadly, it has even reached children in their teenage years.

In fact, from a realistic perspective, they stepped in after the municipalities, through their highly appreciated governments, sought a solution, that is, after the woman was injured, lost her arm or lost her eye with chemical drugs. That is, either in the middle or at the end.

Isn't this too late?

So, what is the answer to the question?!

Educating me at an early age will root out all this. Because the tree bends when it is wet.

Hope And Future Association has undertaken this task as the pioneer of change.

How Does?

Here is the solution: -

With a strong team consisting of expert teachers, child development experts, academicians, art psychologists and awareness training with a different discipline.

"Emotion Management" for children with drama technique: -

-Mental Exercises

-Behavioural Strategies

-If we substitute empathy, sympathy, respectful love, egalitarianism, non-otherizing, non-discriminatory, fair and conscientiousness instead of anger, rage and violence with informational strategies, why would we not be successful?

With supportive education after school, together we can create a peaceful and liable world for our future, free from violence.

At the same time with the children, the parents will try to explain child raising with new formats, drama and artistic techniques with awareness, so that the changes of the children at home will be observed and whether progress has been made will be monitored. Holistic success will be achieved with this complementary education

Hope and Future's second Project is to facilitate the integration of immigrant women into the country they come from.

We know, Language barrier and lack of computer knowledge or the inability to use its capabilities are the biggest difficulties for refugees. We can overcome these too.

How Does?

Complete the missing trainings

English courses by level

Entrepreneurship course

Makeup course

Quality control course

We can start, with our teachers who are experts in their fields, our artists, and our friends who have experienced a successful company starting from scratch.

IN CONCLUSION; Hope and Future Worldwide, bold innovator
We will achieve this with our strong team in the future and with courageous
rational steps.

He believes that he will succeed.

A mother who has gained financial independence raises happy and problem-free children.

Because a happy mother, a happy child and family, a happy family, a happy society, a happy society, a happy world.

Future plan

The charity is planning to apply for grants and continue raising awareness of their activities by engaging with local networks in Enfield and the surrounding borough. Trustees and volunteers will take opportunity in attending free training through the local CVS in Enfield and will seek capacity building support with development workers

WE CAN BUILD THIS TOGETHER.

Signed on behalf of all members,

Mrs Gulay Yilmaz
