Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	For the benefit of the public to relieve the suffering of the Municipal Kennel dogs in Sal, Cape Verde, and, in particular, to provide neutering to reduce the population of free roaming dogs and for care and treatment of such animals.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	Successful neutering campaigns continue bringing our total to over 3000 dogs neutered, and many cats, on the Island of Sal, thus naturally reducing the future population. Our Charity has organised these campaigns independently inviting fully qualified Vets from Italy and UK joined by local volunteers and workers. The dogs were micro chipped and treated for internal and external parasites. The Vets were kept very busy with a variety of surgeries including limb amputations. The charity has once again found homes for a considerable number of the rehoming dogs and puppies after neutering and micro chipping. Ongoing support and aftercare is offered to all rehomed dogs. In November 2024 the Charity located premises suitable to open on a regular basis as a walk in centre for all animals to be treated free of charge. This was a major step forward for us. The centre is leased on a yearly basis and we have a veterinary technician in attendance twice a week. We strive to offer all services free of charge including neutering. The dogs in the Municipal Kennels continue to be treated monthly for parasite prevention.
Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	Para 1.18	The Trustees are all in receipt of the Charity Commissions information regarding Public Benefit and understand how to apply it to our charity.

Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	Once again we have successfully held regular neutering campaigns bringing our total to over 2300 free dogs neutered, and many cats, on the Island of Sal, thus naturally reducing the future population. Our Charity has organised these campaigns independently inviting fully qualified Vets from Italy and local volunteers and workers. In May this year we were joined by UK vets. This was a very successful campaign and is to be repeated in 2025. The dogs were micro chipped and treated for internal and external parasites. Also many surgeries were performed including amputations and enucleations. We have rehomed a number of dogs on the Island that were living the Municipal Kennels to responsible owners providing support and education regarding the appropriate care of animals. All rehomed animals have contact details of our local Charity Volunteers. Ongoing support and aftercare is offered to all rehomed dogs. The dogs in the Municipal Kennels continue to be treated monthly for parasite prevention all are neutered and we are improving the living conditions and dietary needs. A vet continues to visit weekly to check on health and welfare. Our charity have been actively involved in providing a sewerage system at the kennels thus making it more hygienic and disease free for both animals to live and humans to work in.

Para 1.20	<p>Our Charity has now neutered over 2300 dogs and many cats. All dogs were micro chipped, treated for parasites and treated by the vets for minor ailments where needed.</p> <p>This will reduce the number of unwanted puppies being born and further increasing the already massive population of free roaming dogs on the Island of Sal.</p> <p>This not only benefits the dog population that are already malnourished and suffering but also the public from the dangers of being bitten by dogs gathering in packs looking for food and fighting over unneutered females. Less dogs also decreases the amount of dog fouling in public places. In the Municipal Kennels dogs now are fed staple diets and are free from infestation of ticks and disease and starvation.</p> <p>We have printed hand out leaflets to help the locals understand the importance of neutering and parasite treatments. We have seen a big increase</p>

Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	For the benefit of the public to relieve the suffering of the Municipal Kennel dogs in Sal, Cape Verde, and, in particular, to provide neutering to reduce the population of free roaming dogs and for care and treatment of such animals.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	This year we have independently neutered over 300 free roaming dogs on the Island of Sal thus reducing the population we also took part in a campaign run by the WVS that neutered a further 800. These dogs were micro chipped and treated for internal and external parasites. We have rehomed 20 dogs on the Island that were living the Municipal Kennels to responsible owners providing support and education regarding appropriate care of animals. Ongoing support and aftercare is offered to all rehomed dogs. We have built a large shaded area in the kennels enabling the dogs to exercise daily whilst being protected by the harmful elements of sun and wind. Unfortunately, our vehicle was involved in a hit and run accident causing substantial damage and expense to our Charity. The dogs in the Municipal Kennels continue to be treated monthly for parasite prevention all are now neutered and we are improving the living conditions and dietary needs. We now have a vet visiting weekly to check on health and welfare.
Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	Para 1.18	The Trustees are all in receipt of the Charity Commissions information regarding Public Benefit and understand how to apply it to our charity.

Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	<p>Our Charity took part in a mass neutering campaign in March 2022 involving the WVS, neutering over 600 dogs. All dogs were micro chipped, treated for parasites and treated by the vets for minor ailments where needed. This will reduce the number of unwanted puppies being born and further increasing the already massive population of free roaming dogs on the Island of Sal.</p> <p>This not only benefits the dog population that are already malnourished and suffering but also the public from the dangers of being bitten by dogs gathering in packs looking for food and fighting over un neutered females. Less dogs also decreases the amount of dog fouling in public places. In the Municipal Kennels dogs now are fed staple diets and are free from infestation of ticks and disease and starvation. Their living conditions have vastly improved and there is now an outside exercise area.</p> <p>Although the exercise area had been completed last year the strong sun still prevented the dogs exercising. This year we decided to erect a massive metal canopy that would be strong against the wind and give extensive shading, this has been a great asset for the dogs.</p> <p>employers to work. Our relationship with the Camara Municipal and the</p>

		<p>residents on the Island continues to grow and we are now fully accepted as a Charity and work we provide.</p>

INDEPENDENT EXAMINER'S STATEMENT

In connection with my examination no matter has come to my attention:-
