Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	For the benefit of the public to relieve the suffering of the Municipal Kennel dogs in Sal, Cape Verde, and, in particular, to provide neutering to reduce the population of free roaming dogs and for care and treatment of such animals.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	Once again we have successfully held regular neutering campaigns bringing our total to over 2300 free dogs neutered, and many cats, on the Island of Sal, thus naturally reducing the future population. Our Charity has organised these campaigns independently inviting fully qualified Vets from Italy and local volunteers and workers. In May this year we were joined by UK vets. This was a very successful campaign and is to be repeated in 2025. The dogs were micro chipped and treated for internal and external parasites. Also many surgeries were performed including amputations and enucleations. We have rehomed a number of dogs on the Island that were living the Municipal Kennels to responsible owners providing support and education regarding the appropriate care of animals. All rehomed animals have contact details of our local Charity Volunteers. Ongoing support and aftercare is offered to all rehomed dogs. The dogs in the Municipal Kennels continue to be treated monthly for parasite prevention all are neutered and we are improving the living conditions and dietary needs. A vet continues to visit weekly to check on health and welfare. Our charity have been actively involved in providing a sewerage system at the kennels thus making it more hygienic and disease free for both animals to live and humans to work in.

Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	<p>Our Charity has now neutered over 2300 dogs and many cats. All dogs were micro chipped, treated for parasites and treated by the vets for minor ailments where needed.</p> <p>This will reduce the number of unwanted puppies being born and further increasing the already massive population of free roaming dogs on the Island of Sal.</p> <p>This not only benefits the dog population that are already malnourished and suffering but also the public from the dangers of being bitten by dogs gathering in packs looking for food and fighting over unneutered females. Less dogs also decreases the amount of dog fouling in public places. In the Municipal Kennels dogs now are fed staple diets and are free from infestation of ticks and disease and starvation.</p> <p>We have printed hand out leaflets to help the locals understand the importance of neutering and parasite treatments. We have seen a big increase</p>

		in visitors to our clinics and confidence and understanding between locals and the care of their pets.
