Section C Objectives and activities

Summary of the objects of the charity set out in its governing document	For the public benefit, the relief and assistance of students in secondary education: to inspire and aid in the entry of a medical profession and in doing so relieve medical school admission inequality. Step 1: To advance education of young people for the public benefit in all aspects of healthcare work, including how to apply for a career in healthcare work, in such ways as the trustees may from time to time decide. Step 2: For the public benefit, the advancement of education in particular but not exclusively by raising the awareness of a career in healthcare to students by hosting seminars virtually or in person to provide information on the application process required for entry into healthcare field. Create online resources to widen our outreach program by producing YouTube videos about the admission process and life as a student doctor. Step by step the process will entail; (a) We will contact Local MPs (and councillors) in areas of social deprivation and through them we will form links with schools. We will begin with the schools within the Merseyside area with the intention of expansion to other regions, based on success of our intervention. (b) Once links have been formed with these schools, we will arrange student doctors (who are qualified by virtue of successfully passing the admissions process) to deliver presentations, either with in person seminars or online webinars to groups of pupils with an interest in medicine. (c) These presentations will consist of the following subjects: medical schools admissions process, how to do well in UKCAT entrance exams, useful types of work experience, how to write a good personal statement, how to prepare for medical interviews, benefits and drawbacks of a career in medicine. Medical school interview practice will be provided for A level pupils (at the schools in which we have links) who have already applied to medical schools. Step 3: The prevention of medical school admissions inequality targeting schools in the bottom 40% of the index of Multiple Deprivation and/or those with an OSTED grade of either 3 or 4. Our

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

We have created a website on content on there for students to use to help them get into medicine.

We have interviewed a few professionals in the field of healthcare to help provide an broader knowledge gap for the students.

We Spoke with headmasters and made connection with politicians with the local area to make connections within the community.

We have provided a few workshop seminars (which we wish to expand) to other school with improvements on the material via feedback.

Additional details of objectives and activities (Optional information)
