Charity commission Wings4doves.org charity no:1192650

Trustees' Annual Report Statement

During the past financial year, wings4doves did not generate any income. Despite this, the trustees remain fully committed to the charity's mission and the valuable work it delivers to the community. Although financial resources were not realised this year, the charity's activities have continued to benefit members of the community in various important ways.

The trustees recognise the challenges posed by a lack of funds but remain hopeful and proactive about the charity's future. Plans are in place to pursue new fundraising opportunities and partnerships in the coming year. Our goal is to secure the necessary resources to sustain and expand our charitable work, ensuring continued positive impact.

We extend sincere thanks to all volunteers, supporters, and community members who contribute their time and effort, enabling the charity to continue its mission during this period. The trustees will continue to oversee the charity's governance prudently and strive to rebuild financial stability.
