The Annual Report of 2024-2025 of the Happy Health Hub

Dear Sir/Madam

Our Charity from 2024 till now, we have secured some funding from Point North, Community Fridge and Hartlepool Power and these fundings have helped us to continue our community activities. It helps us to run 4 Festivals events among our group. -New year spring festival, Dragon boat -Zongzi festival, Moon festival as well as Western festival -Christmas.

Point North fund helped us set up our Chinese dance for a half year weekly dance class and members learned and enjoyed themselves in a lovely dance and music.

With the fund of Hartlepool power, it helped us to set up a community lunch and we made some Chinese cooking for the Toddler group and trained ourselves in preparing for Chinese cooking. We believe that we can be a very good cooking team after the experiment of our cooking skills in Kilmarnock community centre.

We have also improved our oriental green house by painting white and the Chinese Goji berry grew well and we have been maintaining our garden by buying more soils and some seeds.

A great thank to all the funders we mentioned above and without their support, our activities will not be possible. Thanks to their wonderful support, it helps to boost our confidence and have more activities, bringing our community closer.

We will carry on our work toward our goal and carry on our mission to build and grow our charity. Allowing more people to benefit from our charitable activities. Thank you very much to all the funders, all the volunteers and the members. I have attached our 2024-2025 annual account.

Thank you so much

Chairman of the Happy Health Hub

Wen Cai Bowman
