Its objectives for the period 02/11/2023 - 01/11/2024 were to maintain the space and add some additional trees.

Performance

We have regular work days to maintain the site and community BBQ events.

Financial review

We received £10,000 this financial year, this was in the form of a grant from Barking and Dagenham Council.

We spent £5,412.05. This included buying and installing a compost toilet, buying trees and creating signage for the space (as per the terms of the above grant).

We received donations of plants (from a member of the community) and some trees (from the local council and another local charity).
