

World Family Peace Foundation (WFPF)
Annual Report and Statement of Accounts - Financial Year 24/25

This year we have not undertaken any fund raising or social activities, but members have met on two occasions, to consider the future of the Charity.

We have been successful in recruiting a small number of new members who are enthusiastic about moving the charity forward.

In the meantime, we have agreed to continue to support a Nigerian Student, Emmanuella Ezugworie, who suffers from brittle bones and could not access the university place she was offered without financial support. We learnt about Emmanuella from a Nigerian priest who is working in the UK. We have had regular contact with Emmanuella, who has successfully completed the second year of her Psychology degree.

In this financial year we have not held any fund raising events but have received small regular donations from some of our members.

Information about Emmanuella is on our website. [World Family Peace Foundation \(WFPF\)](#)
