Performance Review

The Company launched in August 2021 with the support of O2 (part of the VirginMedia group) and other partners. Funding received from these partners primarily supported ongoing investment in the registration and balloting IT platform. This project continued through year end and is near completion as at the date of signing of these financial statements. Ongoing partner donations will then wholly support the provision of delivering free tickets to our beneficiaries.

In the period since launch the Company has registered over 30,000 NHS workers and paid carers, signed up over 35 venues and delivered over 3,000 tickets. With the completion of the IT project and a fully functional CRM system the Directors are confident of providing many more tickets to beneficiaries and delivering on the charitable purpose as above.

Tangible fixed assets

Depreciation is provided on all tangible fixed assets, other than freehold land, at rates calculated to write off the cost, less estimated residual value, of each asset evenly over its expected useful life, as follows:

Website platform	over 5 years
------------------	--------------

Debtors

Short term debtors are measured at transaction price (which is usually the invoice price), less any impairment losses for bad and doubtful debts. Loans and other financial assets are initially recognised at transaction price including any transaction costs and subsequently measured at amortised cost determined using the effective interest method, less any impairment losses for bad and doubtful debts.

Creditors

Short term creditors are measured at transaction price (which is usually the invoice price). Loans and other financial liabilities are initially recognised at transaction price net of any transaction costs and subsequently measured at amortised cost determined using the effective interest method.

Taxation
