## Objectives and Activities

Dr Frost Learning has charitable objects which are stated in the governing document: “to advance the education of the public in maths and other national curriculum subjects through the provision of on-line teaching and learning resources and to provide training and support on such resources to teaching staff.”

Dr Frost Learning has made significant steps in its second full year as a registered charity. In particular we have increased the number of schools using Dr Frost Maths, we have increased the engagement in schools so that more schools are using more of the features and we have established a clear strategy on how will drive up the number of licences, and more importantly the engagement. The Trustees believe we are meeting our objectives as set out in our governing document. We believe we are also fulfilling the requirement for a charity to have public benefit.

As part of fulfilling our strategy we have strengthened the Charity in several ways:

Firstly, we have established a firmer financial base, through the implementation of school subscriptions for using the platform. September 2022 was the first occasion when school’s needed a subscription to fully benefit from the site - the response from schools was encouraging. Dr Frost learning made a large number of discounts available so that schools could continue to use the service regardless of their ability to pay. We also continued to build relationships with major philanthropic funders and have benefited from that in the year in review, and plan to continue to do so.

Secondly, we have filled key roles in the staffing structure. Key hires in the technical team mean that the platform is being redeveloped with the latest, most flexible and more robust tools. While other key hires mean we are much better equipped to run outreach and training events.

Thirdly, following an audit of our Board we have identified the key skills required for our Board, this was done during the period under review, and the roles have now all been filled.

Our strategic plan moving ahead is:

- Increasing our outreach work to better support schools in the most deprived areas. Our internal data indicates that usage of the platform is least amongst schools in the top quintile according to Free School Meal data. We are devising a 'Programme of Support' for these schools and looking at how our product offering best serves these students. As schools in Wales, Scotland and NI do not publish Free School Meal data, we will be devising a new metric which also uses deprivation data from Lower Layer Super Output Areas (LSOAs) and the density of schools in the local area to estimate FSM for the school.
- Building further organisational capacity, including the recruitment of a Deputy CEO to head delivery of our services.
- Redeveloping our online platform, with a new user interface that better serves student independent usage, and continuing to produce new classroom resources. Make use of AI to better tailor learning to individual students.
- Prepare for expansion into adjacent international markets by reviewing overseas national curriculums and planning a roadmap of content production.
- Making the charity more financially self-sustainable in the future. We are reviewing our subscription model for schools to reduce the extent that schools can self-opt for partial or full discounts.

### **Impact, Achievements and Performance**

The platform has grown in its user base. Students answer close to 1 million questions on the online platform every day, and over 200,000 homeworks are set by teachers in any 3 month period. The platform has around 1500 subscribing schools but the classroom resources DFL produces are used by thousands more schools.

Independent polling indicated that DFL's products and services have the second-greatest reach of all maths resources/platforms in the UK market after White Rose Learning, with 88% of UK maths teachers having 'heard' of DFL and 64% using it.

Of active DFL users surveyed, 77% of teachers felt the platform improved the quality of their teaching, 86% felt the platform had a positive impact on pupils' enjoyment of mathematics, and 98% felt the platform had a positive impact on pupil progress. Supporting maths teachers remains as much a strategic focus for the charity as supporting students.

Dr Frost Learning impacts individual lives and this is well summarised by the following email: *"I am a mother of seven children, three of whom are disabled - and, two of those I home educate daily. I cannot thank you enough for the Dr Frost resource you give so freely. I cannot explain how this helps my children in their learning for their Functional Skills Level 1 in Maths. It provides me with appropriate resources to aid them in their learning, to test their knowledge and skills, and to check their understanding and progress. Although we have only been using this for a short while, it has made a significant difference to our lives!*

*From the bottom of my heart, thank you for everything."*

- Email from a parent (Dec 2023)

### **Financial Review**

The annual accounts are included at the end of this report and clearly show that Dr Frost Learning finishes the reporting year in a strong financial position with cash funds of £751,561.

Income from both subscriptions and donations has significantly increased since the last reporting period - the total income from all sources for the year was £703,648. Expenditure over the same period also increased, and will continue to increase as DFL grows.

In the charity's second year of formal operation, the trustees held sufficient reserves for the operation of the charity. The reserves policy was that trustees should have sufficient reserves to cover 6 months operations. The trustees may also build reserves to invest in future projects to further charities objects.

### **Structure Governance & Management**

Dr Frost Learning is a Charitable Incorporated Organisation; the constitution was adopted by resolution of the founding trustees on 24th June 2021 and amended by a resolution of the members on 21st August 2021.

The charity consists of a CEO (Jamie Frost), and at the end of this reporting period, four permanent staff were employed. The CEO manages the day-to-day operations of the charity, including managing the staff and approximately 25 other contracted staff, paid by the hour.

New trustees are advertised via word of mouth or on social media. The appointment of new trustees must be formally approved by the majority of existing trustees.
