## Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	The advancement of education for public benefit in business and entrepreneurship primarily, but not exclusively for students in developing regions of the world.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	<p>Our charity has engaged in several key activities to further our mission for public benefit. These include:</p> <p>The <b>Global New Venture Creation Course</b> provides schoolchildren in emerging economies with life-changing access to entrepreneurial education—completely free of charge. By introducing young people to the fundamentals of business creation, the course empowers them to recognise opportunities within their own communities and develop innovative solutions to local challenges. Through practical modules on business models, value creation, market analysis, cash-flow management, and presentation skills, students gain real-world capabilities often absent from traditional curricula. For learners in resource-constrained environments, this course opens doors that were previously closed. It builds confidence, creativity, and problem-solving skills, helping students see themselves not only as job seekers but as future job creators. By learning how to validate ideas, understand customers, and plan operations, students develop the foundations needed to start sustainable micro-ventures that can support their families and communities. The course also fosters economic resilience by equipping the next generation with the tools to diversify local economies and respond to changing market conditions. By making high-quality</p>

		<p>entrepreneurial education freely available, the programme helps reduce inequality, inspires ambition, and lays the groundwork for long-term economic growth. Ultimately, it empowers young people to shape their own futures and contribute meaningfully to their nation's development.</p> <p><b>Developing Partnerships:</b> We have partnered with social enterprises that share our mission, particularly those providing IT equipment to Africa. This includes both recycling initiatives and supplying standalone solar-powered equipment. These efforts are aimed at bridging the digital divide and supporting educational access in underserved regions.</p> <p><b>International Educational Relationships:</b> We have established relationships with organizations in Ghana, Zambia, Nepal, Liberia, Nigeria, India, Sri Lanka, and Bangladesh. These partnerships aim to provide tuition and educational services in these countries, thereby expanding our reach and impact on a global scale.</p> <p>These activities are integral to our purpose of enhancing educational opportunities and supporting economic development. They reflect our commitment to public benefit by ensuring that education and technology are accessible to all, thereby promoting equality and fostering global development.</p>
Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	Para 1.18	The trustees have used the guidance on education for public benefit to ensure the charity meets the public benefit requirement.

## Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	<p>The charity has successfully delivered the <b>Global Teacher New Venture Creation Course</b> free of charge to schoolchildren in emerging economies, providing high-quality entrepreneurial education where such opportunities are typically limited or non-existent. Through a structured programme covering business models, market validation, financial literacy, and strategic planning, the charity has equipped young learners with the practical skills and confidence needed to identify opportunities and create viable solutions within their communities.</p> <p>A key achievement has been empowering students to view themselves not only as future employees but as <b>potential entrepreneurs and job creators</b>. Participants have developed real business ideas, improved their problem-solving abilities, and gained transferable skills such as communication, teamwork, and critical thinking. Many students report increased motivation to continue education and contribute to their local economy.</p> <p>The wider impact extends beyond individual beneficiaries. By fostering an entrepreneurial mindset among young people, the charity contributes to <b>economic diversification, innovation, and community resilience</b>. The programme helps build a pipeline of future micro-entrepreneurs who can create employment, address local challenges with sustainable solutions, and reduce long-term dependency on aid. In doing so, the charity supports inclusive economic growth and strengthens the social and economic fabric of emerging economies.</p> <p>In addition, we have established strong partnerships with organisations across Ghana, Zambia, Nepal, Liberia, Nigeria, India, Sri Lanka, and Bangladesh. These</p>

		<p>collaborations enable us to extend our educational services and tuition programmes into new regions, significantly expanding our global reach and impact. Together, these achievements not only enhance the immediate circumstances of our beneficiaries—by providing vital access to education and technology—but also generate wider societal benefits. By equipping individuals with knowledge and practical resources, we help drive economic development, reduce inequality, and contribute to a more inclusive and empowered global community.</p>

--	----------------	--

<p>Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.</p>	<p>Para 1.20</p>	<p>We have made significant strides in fostering partnerships with other social enterprises that align with our mission. Notably, two of these partnerships focus on providing IT equipment to Africa. This is achieved either through recycling initiatives or by supplying standalone equipment powered by solar energy, thus addressing the digital divide in a sustainable manner. Additionally, Albion sponsored the EdTech stream at Super Connect for Good 2023. This sponsorship included providing judges for the 34 entrants and creating opportunities for collaboration with the winners, thereby promoting innovation in education technology.</p> <p>Our efforts in securing funding have been proactive. We have submitted multiple grant applications aimed at delivering entrepreneurship education to communities in Africa and ethnic groups in Birmingham. This initiative is designed to empower individuals with the skills and knowledge necessary to foster economic growth and self-sufficiency.</p> <p>Moreover, we have cultivated relationships with organizations in Ghana, Zambia, Nepal, Liberia, Nigeria, India, Pakistan, and Bangladesh. These partnerships are focused on extending our educational services and tuition programmes to these countries, thereby broadening our impact and reaching more beneficiaries globally. These achievements not only improve the immediate circumstances of our beneficiaries by providing access to education and technology but also contribute to the wider societal benefits. By empowering individuals with education and resources, we promote economic development, reduce inequalities, and foster a more inclusive global community.</p>

## Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	<p><b>In the first year of the charity, the establishment of a higher education degree, which is validated by a UK University has been most of the work. This required the design of the programme to ensure it meets UK higher education benchmarks in conjunction with ability to provide a resilience curriculum with the potential to be delivered across a wider range of physical environments.</b></p> <p><b>The degree was validated by a UK university in March 2022.</b></p> <p><b>The charity started funding raising for the delivery of the programmes in March 2022.</b></p> <p><b>Then charity then moved onto planning the September 2022 launch of the degree programme in South Sudan. This involved the development of the learning material, student recruitment and logistical planning.</b></p>
