TRUSTEE REPORT FOR THE PERIOD

From 01/04/2022 to 31/03/2023

Introduction

Established on July 26, 2021, as a Charitable Incorporated Organisation (CIO), our organization's mission is to alleviate hunger and poverty both domestically and internationally. We strive to empower individuals through sustainable income generation, equipping them with the skills and resources to achieve self-sufficiency.

However, our initial efforts were hampered by the lack of a partner charity within our target operational area, making project development and fundraising challenging.

Furthermore, the risky nature of some target regions presented additional difficulties in establishing the projects, so as to raise funds due to the absence of established channels and legally registered charities.

Even though these challenges been there initially, we are now pleased to announce a potential partnership with a local charity. This collaboration holds significant promise to facilitate the commencement of our charitable activities in the designated areas. While their official status is under verification, we have requested legal documentation to ensure proper due diligence before finalizing a Memorandum of Understanding.

Objectives of the Charity:

- a The prevention or relief of poverty or financial hardships specifically but not limited to the neighbouring countries of Eritrea and throughout England and Wales by providing grants, items and services to individuals in need and /or other charities and organisations, sponsoring of orphans and assisting in the provision of education, training, healthcare projects and all the necessary support designed to enable the poor, needy and refugee communities and individuals to subsist and generate a sustainable income to become self-sufficient.
- b The provision of facilities for recreation or other leisure time occupation with the object of improving the conditions of life of those persons who have need of such facilities by reason of their youth, age, infirmity or disablement, financial hardship, or social and economic circumstances.
